

# Thermal Aluminium Lantern

**NEW**  
Aluminium  
Internals Suite

High quality at low prices

Simple, Stylish Roof Lanterns

Fitter friendly

Wendland roof lanterns are designed to be easy and fast to fit so you can move in to your new room quickly reassured by the high quality of a Wendland lantern.

- Unique pre-assembled ridgeLOCK system
- Clip-on ridge end covers
- Pre-fitted thermal clips
- Easy-fit clip-on capping

Natural light, neat design

AWendland roof lantern provides a stunning focal point for any kitchen, living room or dining room. Designed to draw plenty of daylight into your room with its 20° pitch, a Wendland lantern makes your new room bright and airy. Thanks to a strong ridge the Wendland lantern has less bars than other lanterns and with a host of clip-on features there are no visible fixings. Put simply, this means that the lantern looks both neat and stylish.

Wendland lanterns are packed with thermal features to avoid condensation build-up. From the thermal rider rail to the thermal clips, these features combine to ensure excellent performance, especially important in a kitchen where heat levels can change quickly.

Made to measure, the lanterns are perfect for any flat roof extension or orangery and are available as standard aluminium or PVCu in grey, white, black or in any RAL colour. Available in rectangle and square.

Clip-on features  
– fast to fit

Key: This is for a maximum characteristic snow load of 0.8kN/m2 or maximum site wind load of 1.0kN/m2. More bars may be needed for higher wind and snow loads. Higher specifications can be met on request. \*The customer must ensure that the kerb and surrounding roof can adequately resist the horizontal spread of the lantern.

Finish Choose from aluminium or PVCu lantern. Colour: Standard colours:  
Material: black, grey or white internal, external finish or available in any RAL colour.
