

CHANGAN

SINCE 1862

HUNTER

In a category often dominated by overpriced, under spec'd legacy pickups, the Hunter elevates expectations by offering a bakkie that's as suited to the week, as the weekend. It redefines the rules of the pickup segment by proving that intelligent features and creature comforts belong in hard-working vehicles, too.

READY FOR REAL LIFE. READY FOR WHAT'S NEXT.

The Changan Hunter merges future-ready innovation with utility. It blends traditional toughness with smart technology, comfort and versatility - in a stylish and affordable package.

It's built, not just to endure daily demands, but to grow with the grit of tomorrow. Tough where it counts and refined where it matters, it brings together strength, smarts and everyday versatility for drivers who aren't willing to compromise.

DETAILS THAT WORK HARDER

Every feature is built with purpose - from chrome side mirrors and handles to utility hooks that add everyday practicality. The LED Daytime Running Lights not only sharpen the Hunter's unmistakable look but ensure better visibility to see and be seen.

ENGINEERED TO BE TOUGH, STYLED TO STAND OUT

The Hunter stands tall with a design that blends rugged strength with contemporary style. From its bold front grille to the muscular stance, it communicates capability and confidence wherever it goes.

OWN A COMMANDING PRESENCE

With a range of 17-inch to 18-inch alloy wheels - for the MT and AT models respectively - a profile designed to handle both urban streets and off-road terrain, the Hunter offers a balance of toughness and refinement. It's a bakkie that doesn't just show up - it stands out.

TURBOCHARGED POWER ON DEMAND

At the heart of the Hunter is a 2.0L turbo diesel engine, delivering 110 kW and 350 Nm of torque. Its power designed to meet the demands of South African roads whatever gets thrown at it. Strong enough for moving heavy loads, confident on the highway and dependable in demanding conditions.

READY FOR ALL TERRAINS

With 2WD and 4WD options, the Hunter adapts to whatever the road (or off-road) throws at you. Expect hill start assist, hill descent control and a host of other driver assist features, to make hauling, towing or loading easier - so you're always ready to take on the next challenge.

YOUR CHOICE OF CONTROL

Whether you prefer the engagement of a 6-speed manual gearbox or the smooth convenience of a 6-speed automatic, the Hunter offers choice. Hunter gearboxes are optimized to be heavy duty, without compromising on driveability, making every journey feel capable and confident.

REFINED COMFORT IN A RUGGED WORLD

Step inside the Hunter and you'll discover a cabin that feels more SUV than bakkie. Premium leather seats, soft-touch finishes and a thoughtfully crafted interior elevate every drive, proving that toughness can also be comfortable.

SMART DRIVER FOCUS

Behind the wheel, the Hunter surrounds you with convenience and control. A 4.2-inch driver information screen, multifunction steering wheel and tactile console buttons, create a cockpit that's intuitive and modern - giving you easy access to everything you need while on the move.

SPACE THAT WORKS HARDER

Designed for long days and longer journeys, the Hunter's cabin delivers generous room for passengers, supportive seating and thoughtful storage options. Its practicality blended with sophistication - making each journey more enjoyable, whether for work or play.

EVERYDAY EASE, ELEVATED

With a smart key system, keyless entry and push-button start-stop, getting in and setting off is seamless. The Hunter takes the hassle out of daily driving, incorporating useful convenience that simplifies your drive.

INTUITIVE CONTROL AT YOUR FINGERTIPS

From long-haul journeys to quick city commutes, features like cruise control, a refrigerated glove box and an impressive high-definition 10-inch infotainment touchscreen, all keep you comfortable, connected and in command.

10-inch touchscreen infotainment system

ENHANCED SAFETY PROTECTION

The Hunter is equipped with comprehensive safety features including front and side airbags, electronic stability control, traction control, ABS with EBD and BA and curtain airbags for AT 4WD. These systems work together to give you and your passengers peace of mind, no matter the terrain.

PEACE OF MIND, BUILT IN

With a tyre pressure monitoring system, reverse camera and safety-focused smart technology, you're always backed by features that look after you and your passengers.

BUILT FOR BIG LOADS

The Hunter is engineered with serious work in mind, offering an impressive loading capacity - with 1,000kg for 4WD and 1,100 for 2WD - that make it more than ready for demanding tasks. Whether it's for business or lifestyle, this bakkie is designed to carry what matters, without breaking a sweat.

DIMENSIONS THAT DELIVER

Generous dimensions ensure space and strength in equal measure. With a practical load bay and 226mm ground clearance, the Hunter gives drivers the confidence to move cargo across urban and off-road environments alike - perfect for South African conditions.

PRACTICAL POWER IN MOTION

From roof racks to a rugged load bed, the Hunter is as versatile as it is capable. Its design balances strength with utility, giving drivers not only the muscle to carry heavy payloads but also the clever details that make all the difference.

DRIVEN TO EVOLVE

At Changan, we believe mobility should never stand still. Every vehicle we create is designed to evolve - in the way it looks, the way it feels, performs and the way it fits into your life. From bold styling to intelligent technology, each model is built to adapt as your needs change and the world continually moves forward.

For South Africa, it means offering cars that not only keep up with the times but actively shape the future of mobility. Cars that make tomorrow's innovations accessible today, keeping you ahead of whatever comes next.

Changan is the perfect partner for South African's that won't settle for ordinary. Change is inevitable. And we're driving it.

Changan. Driven To Evolve.
