The Ireland-U.S. Council's 2025 Award for Outstanding Achievement

William J. McCluskey

Chairman, Pluris Capital Group and Rebus Capital Group

The Ireland-U.S. Council is proud to present its 2025 Award for Outstanding Achievement to Bill McCluskey who has made his mark on America's finance business. He has amassed a creditable record of success in his 40 years of experience in New York's ultra-competitive financial industry.

He currently chairs Pluris Capital Group and is also chairman and president of Rebus Capital Group. Both of these are New York based investment banking and private equity firms that have founded or acted as a principal in over 25 companies, including being one of the founders of the company that developed the first approved COVID test in Europe that saved thousands of lives by early detection and went on to be worth over \$1 billion, as well as supporting several communities in need.

Previously, he was President and CEO of Brean Murray, Carret & Co. in New York and was a member of the New York Stock Exchange, where he oversaw the management of several billion dollars and expanded its operations in China, where he led over \$2 billion in investment transactions. Before that, he served as CEO and senior executive positions in several financial institutions in New York, London, Hong Kong, and Beijing. Bill has actively supported numerous charities all over the world including organizations in the Americas, Europe and Asia.

Over the last several years, he has become an active donor as well as supporter of *Vision Ireland* (formerly known as the *National Council for the Blind in Ireland*). He has been instrumental in creating new partnerships, including *Lighthouse Guild* in the United States, a \$500 million charity supporting the vision-impaired. He is also a supporter of the *Lion's Club in Ireland*, one of the largest charitable service organizations in the world with 1.4 million members in over 200 countries, which also supports the vision-impaired community. In addition, Bill is a financial advisor to *Vially Insight*, a subsidiary of *Vision Ireland* focused on digital inclusion by making technology more accessible for those with disabilities.
