

BIG BOSS TURBOS

PRODUCT FEATURES

PRODUCT DESCRIPTION

Big Boss Turbos are made with a very robust design to withstand the toughest heat cycle conditions adding reliability with performance and efficiency. The industry-exclusive stainless steel turbine housing design is built to enhance airflow with consistency.

Several configurations available to keep drive pressure within standards and keep the turbo in its efficiency range to improve performance and efficiency. This advanced design of the turbo utilizes a V-band style which eliminates the need for the traditional o-ring design of some engines.

Like all PDI products, they are designed to make more horsepower and create more efficiency so you save money while making the drive more enjoyable.

- ▶ Increase HP & Torque
- ▶ Cooler Exhaust Temps
- ▶ Billet Compressor Wheel
- ▶ Increase Efficiency
- ▶ One Year Warranty
- ▶ Stainless Housing Available
- ▶ Made in the USA
