

PDI CUMMINS ISX/X15 OIL COOLER ELEMENT

PRODUCT DESCRIPTION:

UPGRADE YOUR COOLING

When it comes to keeping your Cummins ISX/X15 running at its best, every degree matters. The PDI Oil Cooler Element is designed as a direct replacement for the factory oil cooler element—engineered to deliver 8% more cooling efficiency over OEM in independent testing.

This isn't our dual oil cooler system, but it's a smart performance upgrade when a factory replacement just isn't enough. Whether you're performing major engine work like an overhaul, or replacing a failed oil cooler, upgrading to PDI ensures your engine stays protected.

WARRANTY:

1 YEAR UNLIMITED WARRANTY

PRODUCT FEATURES :

- **Proven Performance:** 8% more cooling efficiency vs OEM.
- **Direct Replacement:** Fits Cummins ISX/X15 engines with no modifications.
- **Engine Protection:** Helps reduce oil temps, extending component life.
- **Best Practice Maintenance:** Recommended whether during replacement or during major service work.
- **Trusted PDI Quality:** Built to the same standards as our industry-leading performance parts.
