THUMBIES® AND BUDDIES® ... MAKING CONNECTIONS SINCE 1998

In 1998, an idea was born when a man received charms containing his daughter's fingerprints. Struck by how much these personal keepsakes comforted him, he believed that others would feel as deeply as he did, with pieces of their own. This drive to connect people and offer comfort led to the founding of Thumbies®.

We are proud to have kept these core values to this very day. The innovative products in our Thumbies® and Buddies® lines are designed to create an intimate connection with the client while remaining visually stunning. The skilled artisans in our elaborate manufacturing process create fully-cast pieces in seven days or less.

Our team is committed to creating comforting products that connect people from generation to generation. As the only jewelry keepsake company to create custom pieces, we at Thumbies® are driven to craft the perfect products for our clients. Now and always.

OUR PROCESS

IT STARTS WITH A PRINT

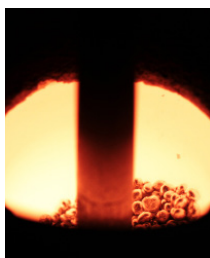

The tiny prints of newborns and toddlers are irresistible. Pet prints are precious reminders of our furry family members. Those prints change as you age, with lifelines increasing over time. Our artisans select the portion of each print that combines the most unique characteristics and high degree of clarity. The print is then individually cast, replicating the ridges and lines of the original print, resulting in a truly unique, high-quality keepsake.

It starts with a print that is evaluated by our team for maximum keepsake detail.

Using a process first perfected thousands of years ago, the print becomes a 3-D mold fired in a kiln.

Precious metals are melted at extreme temperatures and injected into the mold.

After cooling, the Thumbies® keepsake is separated from the mold.

Using a variety of tools, traditional and modern...

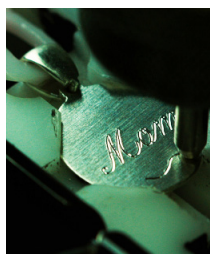

Thumbies® are individually shaped and polished by skilled artisans.

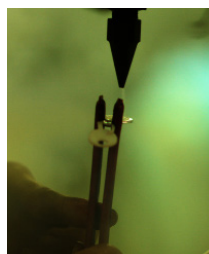

Accessories are added by hand using precision jewelers tools.

After a final polish...

and custom engraving...

each keepsake is steam cleaned...

and ready for final inspection.

Finished pieces are compared to the original print for accuracy and inspected for overall quality before shipping.

KEEPSAKES AVAILABLE FROM THREE DISTINCT COLLECTIONS

Whether it is one of our simple print keepsakes, an accessory, a custom creation, or a cremation piece from our Phoenix® line, there is a keepsake we offer to celebrate any loved one.

At Thumbies, we offer the highest quality and most extensive selection of print keepsakes available. Our artisans in Woodstock, Illinois embed the submitted print of a loved one into your choice of jewelry or accessory for a truly one-of-a-kind keepsake.

We offer many different pendants, rings, bracelets, cufflinks, earrings, and lapel pins in up to four precious metals – sterling silver, white gold, yellow gold, and rose gold. In addition to jewelry, Thumbies also personalizes many quality, everyday accessories – including pocket knives, lighters, money clips, cigar cutters, and keychain tools – for keepsakes with practical use.

Taking it a step further, our team can work with you to create any custom keepsake imaginable, ensuring what you receive is as unique as the loved one it represents. Each of our products is personalized unlike any other to create a touching keepsake to carry wherever you go.

THUMBBUDDIES

Our exclusive line of heartwarming jewelry

designed in the spirit of a life celebrated.

Each of the friendly Thumbbuddie® characters—bear, dragon, kangaroo, monkey, mouse, turtle, *and now dog and cat*—is an original sculpt, front and back, cast in Bronze, then plated in Rhodium and hand high-polished.

The fingerprint of your choice is applied to the front of each figure. Designed, sculpted, and cast by the same U.S. artisans who create all our other highest-quality fingerprint keepsakes.

- Solid Bronze, plated with Rhodium
- Hand high-polish finish
- Eight exclusive character designs
- Stainless Steel cable chain included
- Engraving not available

About FastTouch™ Keepsakes

Our ability to create high-quality keepsakes in this accelerated time frame means there is a visual and tactile difference between them and their fully cast counterparts.

Additionally, FastTouch™ engraving is also visually distinct from our traditional keepsake engraving,

The standards Unless otherwise noted in the descriptions, each keepsake can be crafted from one of these choices.

Thumbies®

Fingerprint

The classic. Looks excellent on any product. The most common choice to celebrate a spouse.

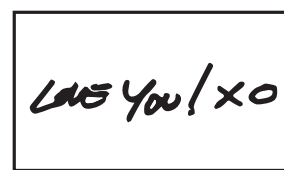

Handprint

A preferred choice to celebrate a newborn or child. Perfect on Classic Pendants and Family Ties pieces.

Footprint

Commonly used to celebrate a newborn or child. Looks great on a Classic Pendant or Family Ties piece

Signature

A great option if you do not have a print. Ideal to preserve a signature or written personal message.

Buddies®

Paw Print

Keep the adorable toe beans of your pet with you wherever you go. A fine choice for all pieces.

Nose Print

Remind yourself of your pet's cute nose even while you're away. A good choice in metal products.

Unique Prints

Custom Print

Have something more unique you would like to save? Let us know and we'll be up to the task!

Soundwave

A great option if you do not have a print. Ideal for a recorded personal message or a heartbeat.

Partners can use our fingerprint scanners to capture prints for keepsake use

To take these scans, download the Thumbies mobile app on your Bluetooth enabled device, and connect your scanner through the app. Follow the prompts to input all identifying information into the app and press next. Select a digit and place the corresponding finger pad onto the sensor until scanned. Once scanned, confirm the print and continue with any remaining prints, and save all the scanned prints to the vault.

For the clearest detail, partner homes should take scans of the prints as soon as possible after receiving the deceased. Clean the scanner with an alcohol swab often in order to consistently capture the clearest print detail.

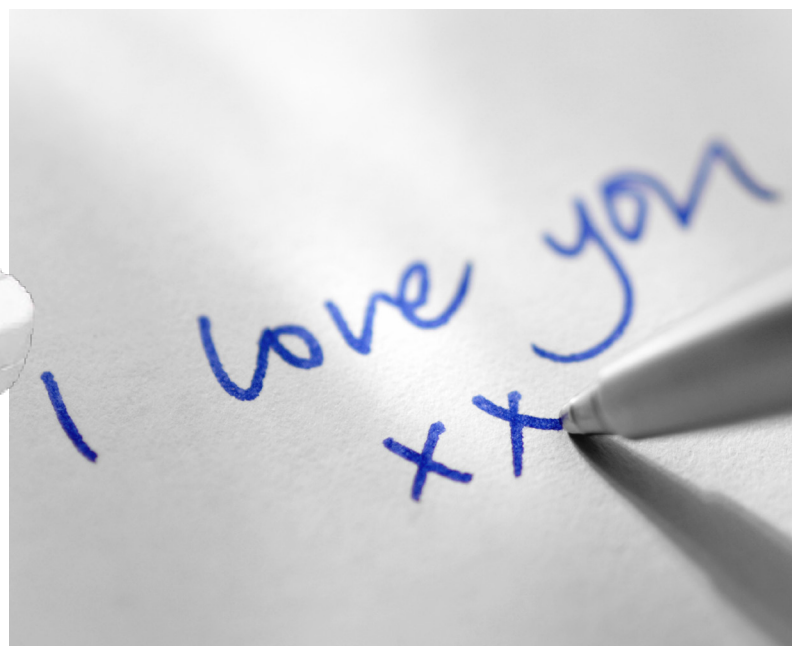

Partners can also email images or high-resolution scans of traditional ink prints using our available ink print cards or use the camera app on any smartphone to take high-quality photos of prints.

Unique print types, such as signatures, can be photographed in much the same way, while soundwaves can be uploaded to our site from any device.

If you are unable to procure a viable print through these means, family members can check if their loved one has ever been fingerprinted for any other reason, such as working in education or as a public servant. They may also find that a childhood school project or a birth certificate will have handprints or footprints.

Alternatively, the unique soundwaves, signatures, or even drawings from a loved one can make for a beautiful and unique keepsake, and cremains can be placed in a Phoenix® keepsake that utilizes no prints whatsoever.

No matter what, Thumbies' skilled artisans will create a beautiful keepsake that family s can carry with them always, to hold onto, and offer comfort.

Sterling Silver Characteristics

Our .925 Sterling Silver keepsakes are nickel-free, making them virtually hypo-allergenic. Like any high-quality sterling silver piece, tarnishing may occur when exposed to air. If sterling silver jewelry is worn daily, the natural oils in the body generally keep it lustrous for long periods. However, over time or if not worn regularly, a piece can dull or tarnish. Many customers like when their pieces acquire this natural patina as it gives the piece character and can accentuate the appearance of the print.

Polishing

If your piece is tarnished, first try cleaning with a jewelry cloth. Often, simply polishing the keepsake will return it to its original shine. Use a good silver cream polish to restore the shine and place a protective coating (and tarnish resistor) on your piece. These are available in most hardware and grocery stores. Follow the manufacturer's instructions.

Silver cream polish should never be used on stones or resin.

Liquid Tarnish Remover

If heavily tarnished, remove the tarnish with a liquid tarnish remover, following the manufacturer's instructions. It only takes a second or two. Never leave jewelry in liquid tarnish removers for longer than a few seconds. Also, never submerge jewelry with stones (synthetic or genuine) or resin in liquid tarnish remover.

Resin

Our Phoenix Collection offers many options with resin. Resin can withstand most household chemicals, but avoid exposure to DEET, which is commonly found in insect repellents. As noted above, do not use silver cream polish or liquid tarnish remover on resin.

Plating

To help pieces retain the shine they had when new, we plate our Sterling Silver, 14K White Gold and Noble Bronze keepsakes* with a brand new Rhodium plating. **There is no additional cost associated with this service.**

This plating is significantly harder than any currently in use in the jewelry industry. If scratching does occur, Rhodium plated pieces can be re-polished to their original luster with very little loss of the plated surface by your local jeweler.

* Excludes keepsakes with Patina. Due to the manufacturing process used, Phoenix Keepsakes that include resin are plated prior to resin being applied and cannot be re-plated thereafter.

Our Guarantee

Thumbies® warrants its products to be free from defects in material and workmanship for a period of one year. Repairs not covered in this warranty include:

- Stone loss due to prong damage
- Discoloration due to environmental factors
- Discoloration due to an allergic reaction to the base metal or its alloys
- Damage due to wear, customer neglect, or abuse

If you believe you have a defective keepsake, please contact our Customer Care team by phone at **877.848.6243** or email us at customercare@thumbies.com. Please contact us within one week of receipt of your keepsake, and include pictures if applicable.

We will evaluate your claim and respond with the status.

The best way to ensure satisfaction is to evaluate all your options for customization before ordering, and to work with your purchase source to get the clearest possible scan.

This warranty does not cover keepsake items that have been lost; we recommend checking with your insurance agent in the event a keepsake is lost.

A MESSAGE FROM THUMBIES®

If the past two years have revealed anything to us as an industry, it's that we have a large capacity to absorb change in order to support the families and individuals we serve. Changes in the ways we gather, memorialize, care for those dealing with loss, and mark the lives of loved ones have been a constant variable. But our team at Thumbies was incredibly humbled after hearing how our partners met those needs in so many creative, celebratory, and compassionate ways. These stories have put our work into perspective and helped us understand how our jewelry and keepsakes have helped families during these unique times.

While we at Thumbies have also experienced much change while navigating the challenges of the last two years, I am so proud of the things that did not change. The heart of the team at Thumbies - who start their days firing up kilns, lighting up phones, turning on computers, and striving to create unique print keepsakes for the families you serve - has been a rock-steady constant that is rare and special in our world. The innovation and artistry that goes into curating prints from raw materials, casting to final finishing, have been a hallmark of the Thumbies and Buddies brands that continued uninterrupted through these times. Finally, our team's culture of caring is how we can support our partners, listen to families, work through challenges, and celebrate the success stories. It is this culture that drives us to continue growing, evolving, and striving to become a better company every single day.

But sometimes, being driven by change leads to new creativity, new strategies, new directions, or new initiatives. That has been the case here at Thumbies. We have been adding new lines of products to help you support your families in their time of need, updating our manufacturing technology and processes to offer an even wider variety of keepsakes, working with strategically selected partners to provide the highest level of service, and striving to be selfless and supportive of our team members – and yours.

The entire team at Thumbies and Buddies simply wants to say thank you for trusting us. Thank you for inviting us into the lives of the families you serve and allowing us to create our jewelry and keepsakes to celebrate lives loved and lost. We look forward to creating new stories with you in the years to come.

GRATEFULLY YOURS,
WAYNE READ
