2026-2027 Association for Preservation Technology International (APT) Board Elections: Meet the Slate

Candidates for Treasurer

Robert (Bob) Score, FAPT, AIA

Statement of Interest

I would like to serve on the APT Board as Treasurer. I have been an active member of APT for 28 of the last 30 years. I would like to continue the work that I have done helping lead APT as Treasurer over the last two years. I have previously served as a director and appointed member of the board and have co-chaired the development committee. I also co-founded the Western Great Lakes chapter of APT. I am deeply committed to advancing the philosophy and values of APT. I am also committed to following the APT Code of Ethics. It would be an honor to be able to continue to help advance the work of such an important organization.

Biography

Bob Score is a Project Manager with over thirty years of experience in historic preservation architecture. He has been with Harboe Architects since its inception in 2006 and previously worked with Gunny Harboe at McClier starting in 2000. Mr. Score also worked as an architect for Ann Beha Associates in Boston, MA, as well as at Consigli Construction as Director of Historic Preservation.

Mr. Score is active in the preservation field and in APT. Bob currently serves as Treasurer of APT. Bob is a member of the College of Fellows of APT. He was a Director of the Association for Preservation Technology and Co-chair of the Development Committee from 2019 to 2021 and an appointed board member from 2005 to 2007. Mr. Score is the founder and Past-President of the Western Great Lakes Chapter of the Association for Preservation Technology. He speaks regularly to various professional organizations and at conferences on preservation topics. Mr. Score is also the Treasurer of the American Easement Foundation. He previously served on the Board of Preservation Massachusetts.

Candidates for the Board of Directors (Five Open Seats)

Kate Allen, MS

Statement of Interest

I am currently the Co-Chair of the APTI Development Committee, serve on the Finance Committee, and previously was Vice President of the APT Eastern Great Lakes Chapter. Currently, I am a Business Development Executive at Evergreene Architectural Arts and the former President of Allen Architectural Metals. In 2024, I accepted an Adjunct Faculty Position with Columbia University's Graduate School of Architecture, Preservation, and Planning to teach a Summer Workshop titled, "Exploring Metal Casting and Collaborative Experimental Preservation." This workshop is now in its third year and has had tremendous participation by graduate students in preservation, architecture, and planning. In the Spring of 2026, I introduced a new elective to the GSAPP at Columbia University - "The Business of Preservation," which had a particularly high enrollment and was well received by both students and faculty. I am passionate about the preservation of architectural heritage and how it contributes to our collective memory. I feel the Association of Preservation Technology is a critical organization with the goal of connecting individuals, communities, and the country to the built environment. I have thoroughly enjoyed my time on both the Development Committee and Finance Committee and hope to continue to contribute in both a positive and meaningful way.

Biography

Kate Allen is currently a Business Development Executive for both the Mid-Atlantic and Southern Region for Evergreene Architectural Arts and the past President of Allen Architectural Metals. During her eighteen-year career, she has directed historically significant restoration and redevelopment projects including: the Woolworth Building, the Waldorf Astoria, Carnegie Hall, the US Capitol Dome, Michigan Central Station, Cadillac Book Tower, and the Lincoln Memorial. She won a Lucy G. Moses Award for her significant contribution to the Waldorf Astoria restoration with Allen Metals. Prior to Allen, Kate gained valuable experience in the fields of architecture, construction, and real estate development.

Kate is an Adjunct Faculty Member at Columbia University's Graduate School of Architecture, Planning, and Preservation. She is a Guest Lecturer at Pratt Institute of Technology, School of Architecture, Planning and Preservation in Brooklyn, New York. She is also an active member of

The Association for Preservation Technology International
L'Association internationale pour la préservation et ses techniques

the Association of Preservation Technology International and currently serves as Co-Chair of the Development Committee and a member of the Finance Committee. Formerly, she served two terms as Vice President of the Eastern Great Lakes Chapter. She has lectured at both the New York City Landmarks Commission and the Historic Districts Council on her technical expertise. She has given multiple presentations on “The Carbon Impact of Reglazing vs. Replacing Windows” with NSG Pilkington highlighting her work in Detroit for the restoration of the Albert Kahn Office Building.

Her educational background includes a Master of Science in Historic Preservation from Columbia University and a Bachelor of Arts degree in Art History from University of Alabama, Birmingham.

Jenna Bresler, P.E., APT RP

Statement of Interest

As Co-Chair of the Training and Education Committee, I have seen firsthand both the opportunities and challenges that come with leading an interdisciplinary and international community of dedicated industry professionals. Through the relationships I have built across committees, clients, and industry peers, I have been able to help navigate and shape a new path forward for Training and Education. Working closely with my co-chair, APT staff, fellow committees, and external educational partners, I helped develop and deliver a strong educational program over the past year—one that required balancing diverse perspectives while serving as an impartial and collaborative sounding board for the many voices represented within the APTI community.

I also recognize and embrace the fiduciary responsibilities associated with leadership within APTI. I have actively supported the Training and Education Committee's transition into this framework and remain committed to ensuring its long-term success. As a member of the Training and Education Task Force, I continue to work collaboratively with stakeholders across the organization to help establish a sustainable and strategic future for the committee within the broader APTI structure. Serving as a Board Member has provided me with the opportunity to contribute my ideas alongside a talented and committed group of professionals. I value the thoughtful discussions and collaborative spirit of the Board and hope that my colleagues view me as a trusted and constructive voice. My service has also allowed me to strengthen TYLin's relationship with APTI. I successfully reinstated TYLin's corporate membership and will continue advocating for the company's ongoing engagement and support of the organization.

As APTI continues to evolve, I remain committed to fostering collaboration, supporting strategic initiatives, and helping position the organization for continued growth and success. I would be honored to continue serving in a leadership capacity and contributing to APTI's future.

Biography

Since my graduation from the University of Pennsylvania's Masters in Historic Preservation program, I have worked as a professional structural engineer, focusing primarily on the

The Association for Preservation Technology International
L'Association internationale pour la préservation et ses techniques

renovation, restoration and retrofitting of historic structures. I run the Ann Arbor, Michigan, office for Silman Structural Solutions since opening it in 2019. I have managed both small- and large-scale preservation projects, including Harvard House Zero and Michigan Central Station. I have spoken at many professional conferences (ACI, APTI, CHSA, MHPN, KHAW), as well as guest lectured at MIT, Lawrence Technical University, and Boston Architectural College, among others. I have been a member of APTI since 2008, a member of the Eastern Great Lakes chapter since 2018, and part of the PETC Executive Board since 2020. I have written articles for the *APT Bulletin* and guest edited a Special Publication in 2018. I am a founding member of the Student Design Competition and the Co-Chair to the 2022 Detroit conference.

Jordan Dick, P.E. (MA, CA)

Statement of Interest

Throughout my career, I have sought opportunities to learn from different preservation traditions, believing that our profession advances through the exchange of ideas and experience. This commitment led me from the United States to Scotland and now England, where I have worked alongside multidisciplinary, international teams and volunteered with professional organizations. As a member of APT's Board, I would bring this global perspective while helping strengthen connections between North American and international practitioners. I am excited to contribute as a collaborative leader, support APT's continued growth, and expand its engagement throughout the United Kingdom and Europe.

Biography

Jordan Dick is a preservation engineer based in London whose career has focused on diagnosing and conserving historic masonry throughout the US and UK. She holds degrees in Civil Engineering from Cornell University and Architectural Conservation from the University of Edinburgh, where she studied the deterioration of Scottish sandstones. Over the past 14 years, she has combined field investigations, laboratory testing, and repair design to develop durable, context-sensitive conservation solutions for historic buildings. Jordan is one of three primary authors of the Durability chapter for The Masonry Society's forthcoming Existing Masonry Standard and currently leads Ramboll's 18-part Existing Buildings Training program. She has published technical papers, presented internationally, and first contributed to the *APT Bulletin* with research on reattaching Vitrolite panels. She also volunteers with the Architectural Heritage Society of Scotland, reviewing planning applications affecting Listed Buildings, Conservation Areas, and World Heritage Sites.UK and Europe.

Andreea Hamilton, AIA LEED AP BD+C

Statement of Interest

My introduction to APT in 2012 as a student scholar led to a lasting relationship with the organization and guided my service, which, naturally, started with reviewing student abstracts. I joined the Documentation Committee in its incipient years, reviewed professional abstracts for the conference, peer reviewed articles for the APT Bulletin, reviewed a book, and participated in a jury for the APT Bulletin Awards. I joined the Student Scholarships Committee in 2018 and have Co-Chaired it since 2022. I was elected to the Board of Directors in 2024 and have been serving on the Nominating Committee as an elected Board member for the past two years. I am deeply committed to APT and advancing its mission, and I am very interested in continuing to serve on the Board of Directors for a second term.

Biography

Andreea Hamilton is a preservation architect in Dallas, Texas, with a career spanning over 26 years and a passion for preserving historic places. Originally from Bucharest, Romania, where she developed an appreciation for historic architecture and began her architectural studies, she continued her education in the US, earning a Bachelor of Architecture from Kent State University and a Master of Science in Historic Preservation from the University of Texas at Austin. She began her career in Cleveland, Ohio, before relocating to Texas in 2006. Ms. Hamilton has been with McCoy Collaborative Preservation Architecture, now Treanor, since 2012. She has been active in APT since 2012 when she had the invaluable opportunity to attend and present at the annual conference as an APT Student Scholar, and currently serves on its Board of Directors. Ms. Hamilton is also a past Chair of the AIA Dallas Historic Resources Committee, past Dallas/Fort Worth Regional Co-Director of APT Texas, and past Commissioner on the City of Round Rock Historic Preservation Commission. She currently serves on the City of Dallas Designation Committee, an advisory committee to the Landmark Commission.

Leila Hamroun-Yazid, AIA, NCARB, GPCP

Statement of Interest

Preservation's next evolution will be shaped by technological transformation, financial retraction, and ethical quandaries. As a board member, I will be positioned to support our members as they navigate this evolution, leveraging a deep bench of international experience in differing contexts, and a long-term interest in the articulation between building trades, craftsmanship and design. I also have significant experience improving non-profits' organizational frameworks and finances, shaping strategic planning, and navigating fraught political and cultural contexts. Joining the Board would be a valued opportunity to enhance international partnerships and ensure the continued growth of preservation best practices through an impactful APTI.

Biography

Leila has thirty years of preservation planning and design experience in the US, Europe, and North Africa. Her multilingual and multicultural background informs a nuanced perspective, and a practice that thrives through equal partnership and the dissemination and integration of knowledge and skill through all technical disciplines and building crafts.

She enriches her practice with teaching, educational programming, and mentoring activities, including organizing since 2018 the AAF Summer University - Civil Engineering/Architecture Track. This annual one-week seminar in Algeria, with international experts, doctoral students and practicing professionals, focuses on disaster risk reduction, assessment best practices, and seismic retrofitting.

Leila has been involved with APTI for over 25 years, as presenter, session chair, committee member, and, since 2024, Annual Conference Program Chair for the Montreal, Providence, and Indianapolis editions. She is also very active in national initiatives as cancer patient advocate to increase diversity and participation in oncology clinical trials.

Brian Rich, AIA, APT RP, DBIA, LEED BD+C, CDT, CCCA, PMP, sUAS

Statement of Interest

Serving as a board member expresses my continued interest and belief in the value of APT. I have an abiding dedication to APT– as a life member and sponsor, 20-year APTNW Board member, Chapter sponsor, and 13-year Chapter president, Peer Reviewer, Conference Co-Chair, and co-chair of TC-DOC. I bring a certified SBE small business experience serving a wide variety of clients (all levels of public government, private owners, military, and contractors) in different roles (as architect, DB partner, and Owner’s representative) with a Western US perspective to our east coast dominant organization and hope to use that to share different perspectives as well as reach across the Pacific. As a long-time volunteer in service of professionally related organizations, I remain interested in guiding the development of APT as it grows and committed to fiduciary and best-management practices. I look forward to continuing to serve as the Co-Chair of TC-DOC’s revival as an APT Board Member. Thank you for your consideration!

Biography

Brian D. Rich, AIA, APT-RP, LEED BD+C, CCCA, PMP, sUAS, is the founder of Richaven Architecture & Preservation. An SOI Qualified Historic Architect, Architect, and Architectural Historian with 30+ years’ experience on over 193 projects, including 122 renovations and 71 landmarks. Brian is a licensed drone pilot, creator of the Principles of Future-Proofing, Co-Chair of the APTI Technical Committee on Documentation, Chair of the Redmond Landmarks Commission, and member of the Washington State Heritage Barn Advisory Committee. Brian is also a UW Husky 100 Award recipient, served as the Co- Chair of APT Seattle 2023 conference, APT Northwest Past-President, and past Chair of the King County Landmarks Commission.

Khushi Shah

Statement of Interest

My familiarity with the Association for Preservation Technology International (APT) began as a Student Scholar in 2020, a formative experience that significantly shaped my professional trajectory. Subsequently, I was honored to receive the Martin Weaver Research Scholarship, which further strengthened my commitment to advancing the field of heritage conservation through rigorous research and interdisciplinary collaboration.

Over the past two years, I have actively contributed to the growth of the APT South Asia Chapter, having been elected President. I have initiated and supported several recurring activities. These include developing quarterly newsletters that foster knowledge exchange within the region with articles and podcasts as well as hands-on conservation and outreach projects conducted through UNESCO World Heritage Volunteers programs. In these, the APT South Asia Chapter is serving as a valued knowledge partner.

As an international member and a conservation engineer in the Global South, I aspire to bring a different perspective to the Board and broaden conversations around preservation technology and technical conservation practices. I believe that global heritage experiences can offer valuable insights into contemporary conservation challenges while enabling mutual learning from APT's rich network and resources. I would particularly advocate for greater participation of civil engineers, materials scientists, and technical professionals from India and South Asia to strengthen discourse on evidence-based restoration and preservation practices worldwide.

Biography

Khushi Shah is a conservation engineer, heritage practitioner, and the Founder and Director of Khushtar Heritage Collective (KHC), a multidisciplinary organisation dedicated to documenting, conserving, and interpreting cultural heritage through community engagement, research, and digital innovation. Based in Ahmedabad, she works at the intersection of heritage conservation, climate resilience, and sustainable tourism. Her work integrates traditional knowledge with emerging technologies, including digital documentation, photogrammetry, and heritage interpretation. Khushi serves as President of the Association for Preservation Technology (APT) South Asia Chapter and Vice Curator of the Ahmedabad Global Shapers Hub, an initiative of the World Economic Forum.

The Association for Preservation Technology International
L'Association internationale pour la préservation et ses techniques

Her work has been recognised with the 'One to Look Out For' Award in the Sustainable Leadership – Heritage Conservation category and the Silver Medal in the Sustainability Champions – Grassroot Heroes category at the IRTA awards 2025. Her work has also been featured by Outlook Traveller for advancing community-led heritage conservation.

She also served as the Wiki World Heritage Coordinator, leading initiatives to strengthen open-access documentation and digital engagement for UNESCO World Heritage sites across Asia and Africa.

Corey Spitzer, RA, APT RP

Statement of Interest

APT has consistently been an invaluable and constant part of my professional life, through which I have enjoyed a strong community, ample education, and pursuit of betterment through ongoing relationships, peer engagement, and bringing the less spoken for to the forefront. Having served on the APTI board for the last two years, as well as having served on the APTNE board for seven years, and been a part of the Conferences Committee, Bylaws, Policy, and Ethics committee, Strategic Plan committee, Development Committee, and the Training and Education Task Force, I wish to continue my involvement with the Board of Directors.

Biography

Corey Spitzer, RA, is a Project Manager of Facilities & Construction specializing in historic preservation. Her experience includes existing conditions investigation, building facade restoration, and project management in projects ranging from a wooden mill and a lighthouse to masonry residential buildings and Independence Hall in Philadelphia.

Corey is currently serving as a Director of APT International and an Advisory Board Member of NYC's Historic District Council. She has previously served on the boards as an Officer of the APT Northeast Chapter, the International Concrete Repair Institute Metro New York Chapter and Women in Restoration & Engineering. For APTI, she is currently serving as the Co-Chair of the Conference Committee and as a member of the Bylaws, Policy, and Ethics Committee and the Development Committee. For APTI, she has also previously acted as 2025 Local Conference Committee Chair, track and session chairs, an abstract reviewer, 2021 – 2026 Strategic Plan Committee, and TCM Committee member.
