

The Association for Preservation Technology International
L'Association internationale pour la préservation et ses techniques

Sponsor the APT San Antonio City Gathering at the Alamo

December 8, 2026

Join colleagues from the broader San Antonio area preservation community at the Alamo where there is too much conservation work and new interpretive work to list!!

Attendees will hear from the experts and skilled craftspeople designing and completing the preservation work while networking with old and new colleagues from the region's preservation community. Then, tour the site with the very experts active in the project in a variety of disciplines: design, engineering, masonry, archaeology, and more.

This will be an excellent opportunity to network and meet people from the wider preservation profession. The Association for Preservation Technology International (APT) is honored to host this event and is thankful to and will recognize sponsors supporting the event.

Sponsor Benefits

Each sponsor will receive:

- Company logo on all communications from APT to members and attendees including:
 - Save the Date (if commitment and logo provided in advance of distribution)
 - Invitation (if commitment and logo provided in advance of distribution)
 - Any event-related emails to members or attendees
 - Any APT promotion or coverage of the event before or after it occurs

APT International
1930 18th Street NW, Suite B2, #1153
Washington, DC, 20009
