

BUSINESS SERVICES 2026

JA ACCESS SOLUTIONS

JA Access Solutions deliver scaffolding and access systems for major infrastructure, refurbishment, and commercial projects across the UK.

With the capability to design and install bespoke access solutions, backed by a proven safety record, we provide the strength and scale contractors and developers need to deliver major projects with confidence.

As part of A&S Group, we offer a fully integrated solution that combines multi-trade capability, robust project management, and adherence to current compliance and legislative standards – all delivered under one trusted contractor.

WHY CHOOSE US

As a RISQS, SMAS Worksafe, and SafeContractor approved business, JA Access Solutions gives clients the assurance that every project is delivered to the highest standards of safety and compliance. With the capability to design and install complex scaffolding systems, a proven track record on large-scale infrastructure and refurbishment projects, and the resources to perform at scale, we are the trusted scaffolding partner for contractors and developers who demand reliability without compromise.

We specialise in delivering scaffolding for large-scale and complex projects, from city-centre refurbishments to major infrastructure works. Whether protecting the public in high-traffic areas, working to strict deadlines, or designing bespoke access solutions, we have the capability to deliver safely and efficiently. JA Access is trusted to take on challenging projects where reliability, compliance, and precision are non-negotiable.

Fully Accredited

RISQS, SMAS Worksafe, and SafeContractor approved, giving clients confidence in compliance and safety.

Safety First

Robust processes and a strong track record in protecting both the public and the workforce.

Capacity at Scale

The resources and expertise to deliver reliable scaffolding on the most demanding projects.

Proven on Complex Projects

Experienced in delivering large-scale, city-centre, and time-critical scaffolding solutions.

Design Capability

In-house design expertise for bespoke scaffolding systems tailored to complex requirements.

Trusted Partner

Chosen by contractors and developers who require reliability, efficiency, and delivery without compromise

CASE STUDY

Client:

A UK-based facilities management company delivering maintenance, compliance, and project services across commercial and public sector buildings.

Scenario:

The project was located in a busy city centre, where public protection and safe access were essential. With heavy footfall around the site and a strict eight-week programme, the scaffolding solution needed to be carefully planned and delivered without delay.

Solution:

JA Access Solutions designed and installed a bespoke scaffolding system that ensured safety, protected the public, and supported the client's works. Combining design expertise with the skill of our scaffolders, the project was delivered smoothly within the challenging timeframe.

Outcome:

The scaffolding was completed ahead of schedule, demonstrating our ability to handle complex, city-centre projects and reinforcing our reputation as a trusted partner for large-scale works.

A&S DIVISIONS

MAINTENANCE

Our planned and reactive maintenance services ensure properties remain in top condition.

Whether it's painting, decorating, or essential repair work such as fixing doors and maintaining fixtures, we provide a reliable and efficient service.

Our focus is on keeping buildings functional, safe, and well-maintained to support day-to-day operations.

J A ACCESS

JA Access Solutions deliver scaffolding and access systems for major infrastructure, refurbishment, and commercial projects across the North West and beyond.

With the capability to design and install bespoke access solutions, backed by a proven safety record, we provide the strength and scale contractors and developers need to deliver major projects with confidence.

COMPLIANCE

We provide comprehensive fire door safety solutions, including maintenance, remedials, and installations, ensuring compliance and protection.

Our team conducts inspections to keep fire doors functioning properly, identifying and resolving any deficiencies to meet legal and safety standards.

We handle remedial work, fixing issues and implementing best practices for optimal fire protection.

We also manage the planning and installation of fire doors, ensuring regulatory compliance while safeguarding occupants and property.

A&S DIVISIONS

BUILDING SAFETY PROJECTS

Building Safety Projects was incorporated into the group to aid in larger scale project endeavours. Recently, we have collaborated with developers to address cladding remediation defects and support significant insurance claims and refurbishment projects.

Building Safety Projects was established to offer a comprehensive overview and on-site management structure for complex and extended works.

PROJECT SERVICES

We manage a wide range of construction and refurbishment projects, acting as Principal Contractor where required and ensuring full compliance with CDM regulations.

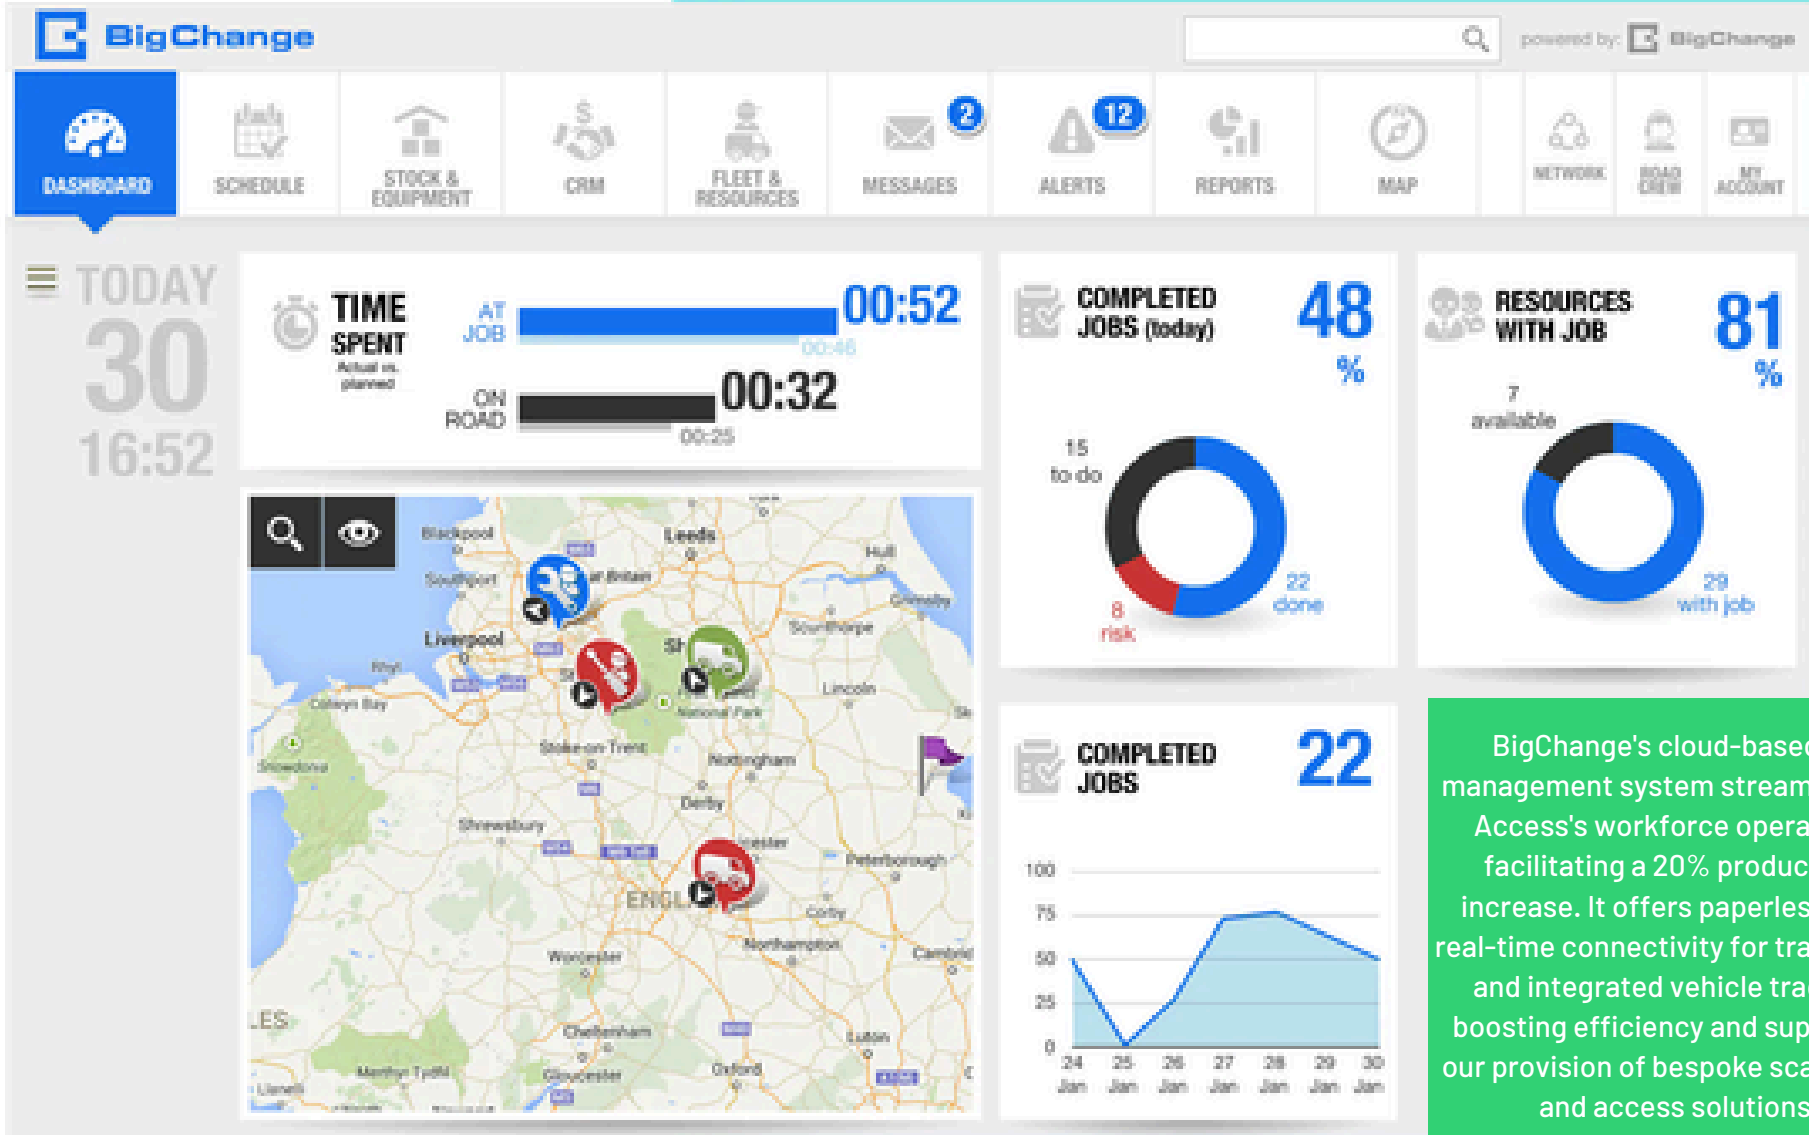

Covering repairs, renovations, alterations, and small to large scale construction projects.

From structural upgrades to general building repairs and frameworks, we deliver high-quality solutions. Tailored to each client's needs while meeting all necessary regulations and provide full manufacturers and installation warranties.

BigChange

BigChange's cloud-based job management system streamlines JA Access's workforce operations, facilitating a 20% productivity increase. It offers paperless CRM, real-time connectivity for tradesmen, and integrated vehicle tracking, boosting efficiency and supporting our provision of bespoke scaffolding and access solutions.

ACCREDITATIONS

JA Access Solutions have successfully achieved various accreditations by demonstrating that we meet high standards of health and safety, sustainability, and ethical compliance, providing further reassurance to clients.

We are proud to hold our **RISQS accreditation**, meaning we are fully qualified to work within the rail industry supply chain, meeting the strict safety and compliance standards required by Network Rail and its contractors. This gives clients complete confidence that JA Access can deliver scaffolding safely and reliably on even the most demanding rail and infrastructure projects.

With regular study and a fresh approach to maintaining health and safety, JA Access Solutions continuously update measures to keep pace with changing guidelines and procedures. We pride ourselves on a safety-conscious culture where all individuals play their part and advocate for safety, leading to a safer workplace that is both harmonious and productive.
