I was beginning to be overwhelmed by my "to do". I'm moving to another state. My rep was very patient. She obtained the information needed to activate a variety of services. It was helpful to have a point person to navigate the process.

Savanah B. was very kind and professional. My husband and I had a great experience. Thank you for being on a customer service call. My husband and I are very happy with the service.

This is such a great service. Shannon consolidated setting up all our utilities into one short phone call, saved me HOURS of time. This is truly a great idea. I am forever grateful to my realtor, Dmitrii for having Shannon contact me!

This service is genius! Instead of having to call each utility, the kind people at Utility Helpers take some basic info and set you up in about 20 minutes. Need to make a change? No problem. And they are great at staying in touch. Bonus: as a new homeowner, there was no fee, as one of the utilities paid. That was great, but really, I would have been happy to pay for the attention and service I received.

home and the conversation was so helpful and flowed smoothly. Very grateful!! Thank you
