MARCH 2024

A message from Jo..

Another summer done and dusted – no complaints this year about not having a few hot days, this year has possibly made up for the last few. Humidity was intense, I even heard a few comments from people saying they were looking forward to winter! I'm not sure if I would go that far though.

February has been a busy month, Hay Mowing Equipment and Zero Turn Mowers have been the best sellers, along with a few tractors for good measure. As a result, we have a few trade-ins, so if your budget doesn't extend to new, we may have something used that suits your requirements.

All staff are back at work now, after the summer holidays, and are now looking at the Easter Break – we will be closed from Good Friday 29th March and reopen on April 2nd. I hope the Easter Bunny finds you and for those who will be sharing the break with family and friends, enjoy your time together.

Brad Nolan has become our "Jack of all Trades". As he is still recovering from his back injury, he has been assisting with Sales, Parts and managing to drive the truck on light jobs and some light mechanical work – the only job he hasn't tried is mine – maybe this month!!! We are pleased he seems to be recovering well, although I believe the metal detector certainly makes a noise when he is around. Brad will be flying to Melbourne to do some Kubota Training; I'd like to be a fly on the wall at the airport when he attempts to go through the screening.

Paris Hyatt has also taken over some of the Workshop Administration, assisting Lou with booking in Repairs and streamlining onsite jobs.

We are all looking forward to the first edition of the "Dorrigo Plateau News" – for those of you who don't know, our long-time newspaper, "The Don Dorrigo Gazette" closed last year and it has been sorely missed by the locals. Emer Fahey has taken on producing the online version of the local paper, we wish her and her helpers the very best. It seems the printed versions of newspapers will soon be a thing of the past, not sure if that is for the better or not. On a lighter note, it's just as well the outdoor dunny is now a thing of the past – older people will know what I am referring to. 😊

May I wish you all a Happy and Blessed Easter.

Until next month, *Jo*
