JANUARY 2026

A message from Jo..

Welcome to a New Year! I hope everyone managed to have a happy Christmas and a few relaxing days off – I guess the farmers don’t have that choice to sit back and relax for too long. If you managed a few days by the water, I hope the sunburn is not too bad and the sand has been removed from the clothing.

My apologies to anyone that was affected by our closing between Christmas and New Year, I initially stated that we would be open for the three days before New Year. It was our intention to open with limited staff – it turns out that we would be operating with no staff. It was that time of the year when everyone had families or friends visiting and most wanted time off (including me). We took into consideration also that the couriers weren’t running so nothing would be getting delivered, and the fact that most, if not all, of our suppliers are closed for at least that period – some don’t reopen until the 19th of January. Peter Smith was on call, so I am hoping if anything urgent was needed, you contacted him.

We enjoyed our time off – 2025 was a full-on year for us, and we needed some time out with the family, and some time to “breathe”! I must admit we didn’t see the New Year in – think that has something to do with age 😊

A New Year – I wonder what it will bring. So many changes happening locally and worldwide. I did take note that the go ahead has been given for the changes at the Dorrigo National Park – I believe the cost is in the vicinity of \$56 million. Should be good for Dorrigo, hopefully it will bring some employment opportunities to the town.

It was lovely to catch up with customers and friends on Christmas Eve, I was missing in action for a few hours but still managed to share some Christmas Cheer and pudding at the end of the day. Thanks to Paris and Brad for organizing and cooking the food and Gary for organizing the drinks (of course).

We also had a few last-minute deliveries and I’m hoping there are a few nicely mown lawns as a result.

We still have a great range of mowers in stock – give us a call and I’m sure we can help you out.

Australia Day, 26th January – we will be closed. I think that will be the last Public Holiday until Easter.

Until next month..... *Jo*

Eliminator Weed Wiper

The C-Dax Eliminator trailed weed wiper dramatically reduces damage to your pasture by putting chemical on the weeds rather than the whole pasture.

- Electronic controller allows you to adjust the chemical flow to suit the infestation level
- Bruise bar to maximise chemical uptake
- Non-drip woollen carpets for maximum contact and longevity

How sweet are these two little Kubota legends already putting their new toys to work!!!

We've still got plenty of ride-on and other toys available for all the future farmers out there

Z200 SERIES

ZERO-TURN MOWERS

Kubota

Elite level cut every time

Designed for residential users that demand superior durability, comfort and performance, to handle even the most challenging mowing tasks.
