JULY 2026

A message from Jo..

I can't believe that half the year has gone already, does anyone else have the same problem? Another EOFY done and dusted, and Stan Cork Machinery is officially 43 years old on the 1st July. Not sure where the years have gone, I don't feel any older than I did way back then....the mirror tells a different story – apparently it doesn't lie!

We can't complain about the weather during June – or can we??? The frosts have been minimal, and the rain has been good, it is very squelchy underfoot though, guess that is better than it being dusty. Let's hope the rest of winter is kind to everyone.

The winter months are normally a quieter time in the workshop, so if you have something that needs doing, please give Lou a call and we will do our best to get your job done. Also, a good idea to check your machines, before they are needed for planting, or harvesting. Remember also, it is imperative that regular services are done to maintain the warranty terms and conditions.

Oliver Sampson is taking leave during July, I believe he is learning to Campdraft, most of his weekends will be busy from now on if that is the case. I don't think I mentioned that the Tamworth Tentpegging Team were the Champions at the Sydney Royal Easter Show held in April. You may remember that we sponsored the championships that were held in Dorriggo almost 2 years ago. A proud aunty moment here, my nephew Scott Miller was also the Champion Gentleman Rider at the show, along with being a part of the winning Tentpegging team. Congratulations to the team! Did I tell you Scott gets his horse-riding skills from me 😊😊😊???

Due to good sales during June, we have a couple of trade in tractors going through the workshop – more about them next month.

Thanks again to Paris, who does all the hard work for the newsletter each month. Don't know what us "old people" would do without her – today's example is my new mobile phone – she has updated and uploaded everything so I can function again – if it was left up to me I would still be looking for the instructions – of course it didn't come with any! Who would have thought, that even 10 years ago, we would rely so much on a phone?

Until next month *Jo*

JULY 2026

CHALLENGE[®] INDUSTRIAL ATTACHMENTS

4-IN-1 BUCKETS

ONE BUCKET. FOUR JOBS.

SERIOUS VERSATILITY.
SERIOUS PERFORMANCE.

DESIGNED & TESTED
IN AUSTRALIA
BUILT TO HANDLE AUSTRALIAN
CONDITIONS AND TOUGH JOBS

BUILT TO LAST
Extreme duty
construction with
high-strength
steel components

**POWERFUL
HYDRAULICS**
Strong clamping force
for confident
grappling and
material control

TOUGH BY DESIGN
Wear-resistant steel
floor and cutting
edges for long
lasting performance

BUILT TO FIT
Challenge-made hitch
meeting ISO 24410
standards, suitable
for all leading
skid-steer brands

NEW RTV-X OUT NOW

ALL IN A DAYS WORK

Kubota

The new RTV-X is built to handle the toughest jobs with confidence. Powerful, durable and packed with features to keep you productive from sun up to sun down.

TOUGH & DEPENDABLE

VHT-X (Variable Hydraulic Transmission)

Kubota's VHT-X provides exceptional performance on various terrain with smooth and powerful acceleration. Low-speed driving is made exceptional through smooth throttle control, great traction and maneuverability with or without loads.

Wet Disk Brakes

The RTV-X Series uses multi-disk wet brakes which provide an excellent brake life. You'll also feel more secure, especially when travelling down long inclines, knowing that dynamic braking is helping to provide additional braking power and greater driving control.

Full Steel Frame

The high-rigidity steel frame helps isolate the occupants from noise and vibration. The structural strength of this frame can hold up to many different tasks and seasons, to help you power your productivity.

CV Joint Guard & Underbody Skid Plate

CV joint guards and heavy duty skid plates will protect the most critical parts of the engine and transmission.

KUBOTA DIESEL ENGINE

1922
Kubota's engine
production
started in 1922
**KUBOTA
ENGINE**

**more than
30 million**
engines produced
to date
**KUBOTA
ENGINE**

The legacy of the X-Series begins with the Kubota Diesel Engine at the heart of the new RTV-X. From towing and hauling to running through rough terrain the power provided by the engine ensures the machine will consistently show up to work as hard as you.

tractrovert

(noun)

1. a person who prefers the company of tractors over people.
