MAY 2026

A message from Jo..

I hope everyone survived the Public Holidays during April; I certainly enjoyed the few extra days off! Next one is the June (King's Birthday) long weekend, so May is a month of working 5 days a week. Just as well I'm not a dairy farmer, I'd really have something to whinge about!

I normally mention the weather, but not sure what I should say at this stage....last year we were getting over Cyclone Alfred and the devastation from the rain and flooding during March and May, this year we would like just a little bit of that rain we had back then. It did try to rain over the Anzac weekend, and the little bit we received was welcomed. A few light frosts have been felt as well. We are now in the last month of autumn, so I guess it will start getting very cold soon – and we will have something else to complain about.

Peter, Bill, and Lou all had some annual leave during April as well, all are back at work now.

As briefly mentioned last month, the EOFY (End of Financial Year) is fast approaching. Now is the time to make the decisions to get your best tax advantage. Kubota Finance is offering great deals, very competitive. Also, there is still the instant asset write off for equipment under \$20,000. We have a great range of new Kubota tractors, RTV's, slashers and zero turn mowers along with Berti mulchers in stock. We also have a good range of used tractors. April was a busy month, and our stock is going fast, so if you are after something in particular, please call us and if we don't have it, we may be able to get supplies before the end of June. Just a reminder though, don't leave your decision making until the 29th June, it makes it very hard to get things done at the last minute.

As a follow up from last month and on a better note, the price of fuel seems to be coming down a little, and supply (at the moment anyway) is improving. I often wonder if people in the cities realise the impact the fuel shortage has on our country areas – I have heard conversations with some city dwellers that have no idea of the impact on our lives that the diesel shortage has had, plus the lack of good rain, perhaps some of these people still believe that milk comes from a carton!

Just a reminder again, if you have an email address and your account is still being sent by Australia Post, please let us know, many companies don't post statements anymore, they ask their customers to pay on invoice at time of purchase. We are hoping to avoid doing this. Also, if you have changed or updated your email address, please let us know – I do have a few newsletters, invoices and statements that bounce back as the email addresses have been updated.

Until next month..... *Jo*

Subject to stock availability, finance being approved on or before 30/06/2026 and installation of the machine no later than 31/07/2026.

5 reasons to choose a Chainless TH205

- ### 1. What's New?

 - Excavator bushes & induction hardened pivots in loading system
 - New indestructible puckboard table with 10 year warranty!
 - Beefier chassis, platform, and loading system
 - Increased lifting power
- ### 2. Feeds any Bale Type Shape or Size

The Chainless Trailed Bale Feeder is the most versatile Bale Feeder, it will feed out any bale round, square, tight, soft, short, long, dry and wet bales with ease.

- ### 3. Total Control 2 Loading System

This gives you total control overloading the bale. The simple, reliable and fool-proof single cylinder design of the Hustler loading system is safer than other loading systems and allows unwrapping of the bale above the feed cradle, reducing waste. The Hustler loading system can be reversed if the operator decides not to load that bale. It also has more support area for soft or square bales. The Chainless square and round Bale Feeder delivers more leverage, stronger design and larger 1.5-tonne (3,300 lb) capacity.

- ### 4. Easy Clean Hypaflo Wiper Panel

The newly developed wiper panel that clears the hay from the rotors better. It has a new quick release latching system for releasing the panel to clean out any hay.

- ### 5. 5 year warranty!

All backed with the Hustler Industry best 5-YEAR WARRANTY – for peace of mind, knowing you've got backup and support that's been well proven for 60 years.

INDUSTRY LEADING NO BULL!

5 YEAR WARRANTY
