Getting Ready for Winter

As we move towards the colder months, Sentinel Homecare is already preparing for winter to help ensure safe and reliable services.

Our winter planning includes:

- Workforce and staffing resilience
- Adverse weather arrangements
- Prioritising people who may be particularly vulnerable
- Infection prevention and control
- Essential supplies and contingency stocks
- Plans for IT, communication and system outages
- Working with partners and local intelligence

Our aim is simple: to continue providing safe care and support when you need us most.

Your Voice Matters

If there is something we are doing well, please tell us. Equally, if there is something you think we could improve, we want to hear about it.

Your feedback helps us learn, improve our services and recognise staff who are making a positive difference.

Looking Ahead to Q4

As we enter the final quarter of 2026, we look forward to continuing to support our clients and families, and celebrating the achievements of our team.

And, of course, we will be wishing **Sharon Garbutt** the very best at the **Bradford Care Excellence Awards on 5 November 2026!**
