

Highlights at a glance... 

# PINERGY FEATURES RELEASED IN 2025!

## AI Photo Analysis Speeds Up Listing Input Process

Create listings faster with Pinergy's new AI Photo Analysis. Click **AI Generate** to analyze listing photos, identify rooms, key features, and materials, and automatically label photos and populate listing fields. Simply review and verify to save time and improve accuracy.

## AI-Generated Public Remarks: Wicked Smart and Simple

Generate polished Public Remarks for SF, CC, MF, MH, and RN listings in seconds. Click the **AI Generate Remarks** button to create an engaging description based on listing details. Re-generate or edit manually to fine-tune the final result.

## New Options & Settings Tool Simplifies Everyday Tasks

Pinergy's **Options & Settings** tool now features a clean, mobile-friendly layout for desktop and mobile devices. You can now add social media links to your IDX and/or VOW sites, making it easier for visitors to connect with you.

## Recent Views Shows Up to 1,000 Recently- Viewed Properties

**Recent Views** has been added to Pinergy's main navigation bar, right after Search (smartphone users will see a teal eye icon), giving you instant access to up to 1,000 recently viewed listings. No more trips to the Search function just to access a recently-viewed listing.

## Streamlined Mobile Search for Small Screens

Tap the new **Mobile Search** (Beta) tile for an app-like experience built for small screens. Prominent search criteria, dropdowns, buttons, and calendars make it easy to refine results. Prefer the classic search? It's still available, so you can choose what works best.

## New Mobile Home Page for Faster Navigation

Pinergy's new **mobile-only Home Page** offers quicker access with features like Quick Search and larger, customizable menu tiles. Reposition tiles by grabbing the upper-left corner and dragging it into place. You can also use the updated hamburger menu for single-tap access to nearly everything in Pinergy.

## Expanded Mobile Editing for Required Fields

**Edit live listing information** directly from your smartphone. Use the pencil icon on your listings to update List Price, Expiration Date, Number of Rooms, and all required fields for offline and posted SF, CC, MF, LD, RN, and MH listings.

## Quick Search for When Time Is Tight

**Quick Search** on mobile focuses on the most-used fields: Address, Property Type, Status, Off-Market Timeframe, and Price. You can also search within a radius of your current location. Pinergy remembers your last-used settings so you can search even faster next time.
