HERE'S HOW TO USE
AI IN PINERGY
TO SAVE TIME WHEN CREATING LISTINGS
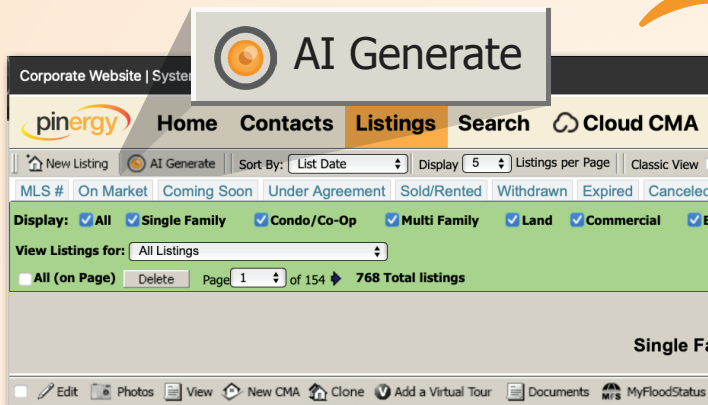

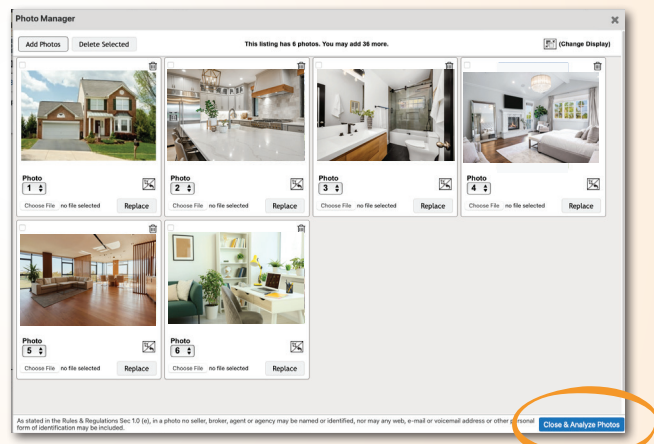

AI Generate

1 In "Listings," select the new "AI Generate" button.
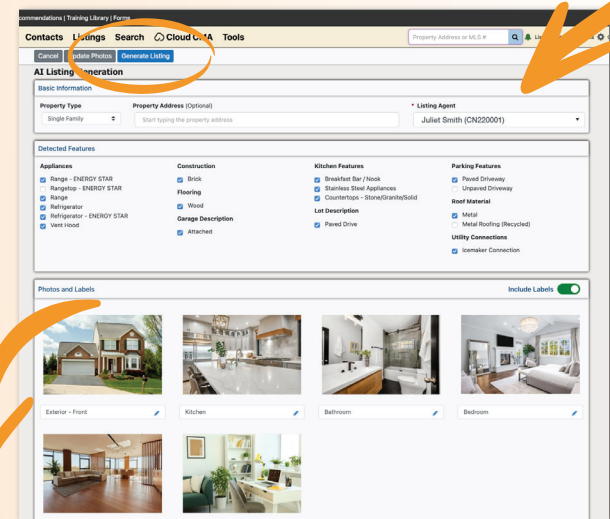

2 Select "Upload Photos."

Note: AI Generate currently works with Single-Family and Condominium listings.
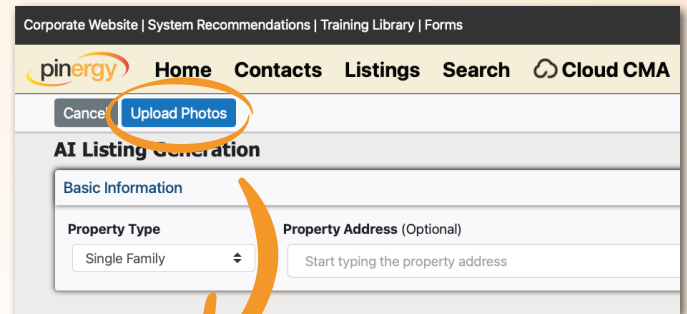

3 Add photos and select "Close & Analyze Photos."

4 Review "Detected Features" and "Photos and Labels," then click "Generate Listing."

AI Generate Remarks

5 A new listing will be started with features imported from AI generation (highlighted in yellow). Edit the listing data as you normally would, and save your offline listing.
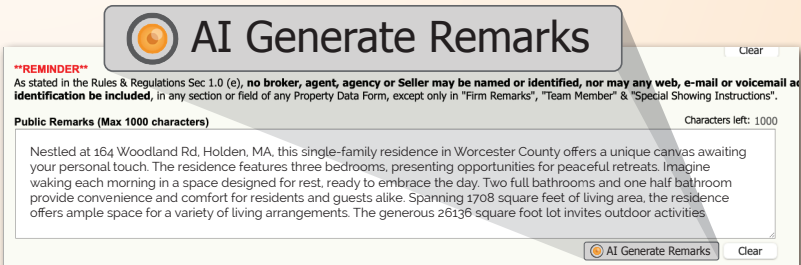

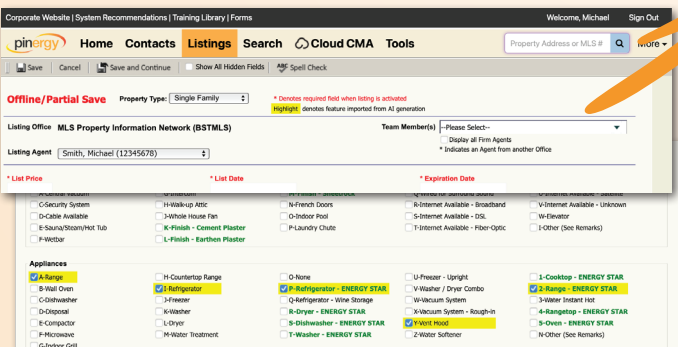

6 Save even more time with "AI Generate Remarks" in Public Remarks! Choose from "Professional" or "Standard" tone, re-generate remarks if desired, then apply and edit them as needed.
