IRONBARK HEALTH AND FERTILITY PROTOCOLS

VACCINATIONS

All sale bulls have received the following vaccinations prior to sale

- 7 in 1 (Leptospirosis) - 1st vaccination 26/06/25 and 2nd vaccination 28/07/25
- Pestigard (Pestivirus) - 1st vaccination 26/06/25 and 2nd vaccination 28/07/25
- BEF (3 Day Sickness) – 1st vaccination 14/07/25 and 2nd vaccination 28/07/25
- Drenched with Levamox Duo on 14/07/25

EXTRA VACCINES AVAILABLE:

- Vibrovax (Vibriosis)
- Tick Fever

If you would like your bull to receive their first vaccine of either of the above, please make this clear on your buyers slip. We will give the first vaccine after the sale and you will be responsible for any follow up vaccines.

BIO SECURITY:

Bovine Johne's Disease: Ironbark Herefords has a J-BAS 6 certification under the supervision of Barraba Veterinary Clinic.

All bulls are clear to enter: Tasmania, Victoria, South Australia, Queensland & Northern Territory.

GENOMICS

All Sale Bulls have been genomically tested clear of the following diseases:

- DL (Dilutor)
- IE (Idiopathic Epilepsy)
- HY (Hypotrichosis)
- MSUD (Maples Syrup Urine Disease)
- 78% of the sale bulls have been Parent Verified (PV) and 22% of the sale bulls have been Sire Verified (SV)
- All sale bulls have a SNP(LD) genomic profile.

EBVs

All EBVs in this catalogue were taken from the June 2025 Breedplan run.

The following traits were recorded and analysed U Bulls:
200 WT, 400 WT, 600 WT, SS, FAT, EMA, IMF, Genomics.

The following traits were recorded and analysed V Bulls:
200 WT, 400 WT, SS, FAT, EMA, IMF, Genomics.

Please remember when assessing EBVs they are **ESTIMATED** breeding values.

HEALTH

All sale bulls have tested negative to Pestivirus antigen using DNA hair testing to detect the presence of the virus in the animals. All sale bulls passed a semen test, physical assessment and bull breeding soundness evaluation by Dr Carolyn Newberry on 14/07/2025

HOUSE KEEPING

All Bulls are registered with Herefords Australia Ltd

Bulls will be transferred to buyers by Ironbark Herefords.

Please provide PIC number and transfer details on your buyers slip in the back of this catalogue.

A Weight Sheet will be available on sale day with the following information:
Weight, EMA, Rib, Rump, IMF and Scrotal measurements.

HH ADVANCE 0159H

HH ADVANCE 0159H as a yearling in 2021

*When asked to comment on 0159H this is what **Jack Holden**, his breeder had to say:*

"0159H has proven to be one of the great Line One breeding sires in the USA and around the world. He is a **trait leader in 14 different traits**. His combination of color, phenotype, outstanding carcass, and functional, maternal daughters has made him a standout proven sire. 42 sons have sold in Holden Herefords last 3 sales for an average of \$25,160 U.S., and his daughters have sold to highs of \$56,000 and averaged over \$20,000 also. **0159H provides extreme consistency** in his progeny in type, performance, and carcass quality. They are big ribbed, easy fleshing cattle that **excel in all conditions**. 0159H ranks in the top 10% of the breed or higher on WW, Scrotal, Milk, Mature Cow Weight, CW, Fat, REA, MARB, \$BMI, and \$CHB"

There are
**24 impressive
SONS of 0159H**
in this year's sale

The quality of these bulls has
surpassed anything we
could have expected.

Adrian said:

**"I have never used a bull like him
in my lifetime.** Crossing 0159H into
the Ironbark program has been
one of the better decisions
we have ever made!"

HOLDEN SUPER SIRE HH ADVANCE 0159H

FIT, FERTILE BULLS ARE THE KEY TO PROFITABILITY!
