I FOUND A BABY BIRD, NOW WHAT?

START
HERE

Is the bird
visibly injured?

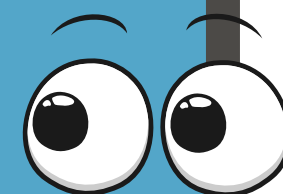

Yes

No

Contact Save Our
Seabirds 941-388-3010

Yes

Are it's eyes
open?

No

You likely have
a hatchling

Is it featherd and can
it walk, hop or
flutter?

No

Yes

You likely have
a fledgling

You likely have
a nestling

Yes

If you can see and reach the nest,
return the baby to it's nest. If you
cannot reach the nest, make a
replacement nest and put the baby
bird inside. Place the replacement
nest in a nearby tree or bush,
shielded from Sun and Rain

Is there
immediate
danger such as
predators or
cars?

No

Are the
parents
nearby?

Yes

No

Leave the bird. The
parents will
continue to care for
it on the ground

Move away from the
bird and allow the
parents at least 2
hours to return

If the parents do
not return, contact
Save Our Seabirds
