Outer Burial Container Price List

(Prices Effective July 4, 2026)

Notice: In most areas of the country, "state or local law does not require that you buy a container to surround the casket in the grave. However, many cemeteries require that you have such a container so that the grave will not sink in. Either a grave liner or a burial vault will satisfy these requirements.)"

Angels Cremation and Burial or their representatives cannot provide any warranties about their protective value as an outer burial container other than those made by the manufacturer. All warranties must be extended by the manufacturer.

Prices do not include sales tax, setting fees or delivery fees. Additional charges may occur at the cemetery. Prices may change without notice.

Trigard Oxford - \$2200 vaults are based on strength of structured arch. The arch naturally distributes weight evenly around its perimeter, giving unparallel strength when used in construction. The arch, along with concrete and the additional liner, combine to give Trigard vaults the ultimate strength and durability.

Trigard Heritage - \$2500 vaults are based on strength of structured arch. The arch naturally distributes weight evenly around its perimeter, giving unparallel strength when used in construction. The arch, along with concrete and the additional liner, combine to give Trigard vaults the ultimate strength and durability.

Trigard Concorde - \$6000 vaults are based on strength of structured arch. The arch naturally distributes weight evenly around its perimeter, giving unparallel strength when used in construction. The arch, along with concrete and the additional liner, combine to give Trigard vaults the ultimate strength and durability.

Wilbert Bronze - \$20,000 vaults are based on strength of structured arch. The arch naturally distributes weight evenly around its perimeter, giving unparallel strength when used in construction. The arch, along with concrete and the additional liner, combine to give Wilbert vaults the ultimate strength and durability.
