EEYS have zero tolerance to child abuse.

EEYS are committed to providing a child safe environment where children feel safe, secure and empowered and their voices are heard about decisions that affect their lives. Particular attention will be paid to the Cultural safety of Aboriginal Children and children from culturally and/or linguistically diverse backgrounds, as well as the safety of children with a disability.

For integrated Services that are providing Kindergarten and Long day care please read this policy in conjunction with the “Enrolment and Orientation Long Day Care Policy.”

PROCEDURES

The information contained within the procedure is to be used as a guide and modified according to the services context.

GENERAL ORIENTATION PROCEDURES

The time required for orientation and settling in will vary for each child and their family, therefore it is important to be flexible and individualise orientation for each family.

- Offer families the opportunity to visit the service at different times during the day/session, this allows the child and their family to become familiar with the various routines of the service
- Provide reassurance to the family that they may stay with their child for as long as they choose during orientation period
- Provide the family with suggestions for developing and maintaining a routine for saying goodbye to their child
- Reassure the family:

- they can leave their child initially for a shorter day, gradually increasing the length of time
 - they may call and speak to their child's early childhood teacher or educator(s) at an agreed time
 - the early childhood teacher/educators will keep them informed on how their child is settling in
 - they will be informed about any changes or circumstances which may affect them or their child.
- Further considerations may include but are not limited to:
 - send an email during the day to update the family on their child including a photo of the child (if the child has settled in) (refer to the information and Communication Technology Policy). Note: For children in out-of-home care, the educator may need to seek permission from Child Protection before taking and distributing photos of the child
 - asking the family how they have settled in and if they have any questions or concerns.
 - [As required] Arrange telephone, on-site or video interpreters to assist with orientation conversations with parents/carers who speak a language other than English or use Auslan. See [Early Childhood Language Services](#) for more information.
- Refer to [Attachment 2](#) for the general Pre-Prep registration and enrolment procedures
- Refer to [Attachment 5](#) for cancellation of enrolment and non-attendance procedures.

BACKGROUND AND LEGISLATION

BACKGROUND

The *Education and Care Services National Regulations 2011* require approved services to have a policy and procedures in place in relation to enrolment and orientation (*Regulation 168(2) (k)*).

All eligible Victorian children ([refer to Definitions](#)) will have access to two years of Free Kinder before commencing school. From 2025, 4-Year-Old Kindergarten will gradually transition to more hours of 4-Year-Old kindergarten, with programs across Victoria increasing from 15 to 30 hours each week. Led by qualified teachers, 4-Year-Old kindergarten with more hours will give 4-year-old children greater opportunities to socialise and learn through play. This will be delivered through standalone (sessional) kindergartens and long day care centres.

By 2036, all children across Victoria will have access to 1,800 hours of funded kindergarten before school, including 600 hours of 3-year-old Kindergarten and 1,200 hours of 4-year-old Kindergarten. Both 3 & 4-year-old kindergarten is part of the Free Kinder program.

Where demand is higher than availability, approved providers must adhere to their eligibility and DE's Priority of Access criteria ([refer to Definitions and Attachment 1](#)) in order to allocate the available places. The criteria used to determine the allocation of places takes account of the requirements set out in DE's Kindergarten Funding Guide ([refer to Sources](#)), the service's philosophy, values and beliefs, and the provisions of the *Equal Opportunity Act 2010* and *local criteria*. The Victorian Government requires funded organisations to ensure that their policies and procedures promote equal opportunity for all children. Services participating in a central registration and enrolment scheme are required to comply with the registration and/or enrolment procedures of that scheme.

The Central Registration and Enrolment Scheme (CRES), co-designed by DE provides access to families to register for and secure a place for their children in kindergarten. It is a collaborative model that brings together councils, service providers, MCH staff, support services and other stakeholders to support children and their families. Currently more than half of all local councils across Victoria operate a form of central enrolment or central registration scheme. These schemes provide a single point of entry for families, simplifying the kindergarten enrolment process and improving equity of access.

Immunisations are an effective means of reducing the risk of vaccine preventable diseases. Early childhood education and care services which are regulated under the *Education and Care Services National Law Act 2010* and *Education and Care Services National Regulations 2011* have legislative responsibilities under the *Public Health and Wellbeing Act 2008* to only offer a confirmed place in their programs to children with an Australian Immunisation Register (AIR) Immunisation History Statement (refer to Definitions).

From 2026, children from priority cohorts, including Aboriginal and Torres Strait Islander children, children from a refugee or asylum seeker background, and children who have had contact with Child Protection, can access the Best Start Best Life reforms.

Enrolment and allocation processes must support equitable access, particularly for children experiencing vulnerability and disadvantage. Services are expected to actively engage and support these families to access kindergarten programs.

The Kindergarten Funding Guide sets out requirements for eligibility, enrolment, attendance and funding. Services must ensure enrolment practices comply with these requirements, including confirming that each child is accessing only one funded kindergarten program per year.

Accurate and timely data collection is required to support funding, planning and compliance. Services must ensure enrolment and attendance data is recorded in Department systems, including Arrival.

DEFINITIONS

The terms defined in this section relate specifically to this policy. For regularly used terms e.g. approved provider, nominated supervisor, notifiable complaints, serious incidents, duty of care, etc. refer to the Definitions file of the PolicyWorks catalogue.

Access to Early Learning (AEL): is an early intervention program for a child who is at least three years old on April 30th in the year of enrolment. It aims to provide intensive support to eligible families with multiple and complex needs, assisting them to access universal kindergarten programs.

Australian Immunisation Register (AIR) Immunisation History Statement: The AIR is a national register administered by Medicare that records all vaccinations given in Australia, including to children. In the case of medical contraindication, an authorised medical practitioner completes and signs a Medical Exemption Form and supplies it to the AIR (previous forms of documentation, for example a letter from a GP or local council, are no longer acceptable).

Authorised nominee: (In relation to this policy) is a person who has been given written authority by the parents/guardians of a child to collect that child from the education and care service. These details will be on the child's enrolment form.

Children/families experiencing vulnerability and/or disadvantage (in relation to this policy): children are vulnerable if the capacity of parents and family to effectively care, protect and provide for their long-term development and wellbeing is limited. Some factors which may contribute to a child experiencing vulnerability include: a child with a disability; living in a family with a low income, or one which is experiencing problems with housing, domestic violence, substance abuse, or mental health; known to child protection; in statutory out-of-home care; Aboriginal and/or Torres Strait Islander, having a culturally and linguistically diverse background; having a young or sole parent, or a parent with a disability (adapted from the Kindergarten Funding Guide)

Children with additional needs: Children whose development or physical condition requires specialist support or children who may need additional support due to language, refugee or asylum seeker experience, complex trauma, cultural or economic circumstances (*refer to Inclusion and Equity Policy*) (*refer to Children/families experiencing vulnerability and/or disadvantage Definition*).

Central Registration and Enrolment Scheme (CRES): CRES provides a single point for families to apply for multiple kindergarten services within a local government area, helping them secure a place that meets their needs and enabling funded kindergartens to work collaboratively with other services to engage vulnerable and disadvantaged families.

Central Registration System (CRS): Provides an equitable and transparent application and allocation process, enabling families to access local kindergarten services within a local government area.

Early Start Kindergarten (ESK): Early Start Kindergarten provides eligible children with 15 hours of free or low-cost kindergarten each week led by a qualified early childhood teacher with Victorian Institute of Teaching (VIT) registered teacher. ESK is available to children who are at least three years old by 30 April in the year they are enrolled to attend the program and are:

- from a refugee or asylum seeker background, or
- Aboriginal and/or Torres Strait Islander, or
- the family have had contact with child protection.

Eligible child: as defined by the Victorian DE Kindergarten Funding Guide:

- a child who is at least four years old on 30 April in the year of attendance; enrolled for at least 15 hours per week or 600 hours per year in a 4-Year-Old Kindergarten; and not enrolled at a funded kindergarten program at another service
- a child who is at least three years old on 30 April in the year of attendance and is enrolled in a funded 3-Year-Old Kindergarten for a minimum of 5 hours per week
- any child that is enrolled in an early childhood and education and care service must have an AIR Immunisation History Statement that indicates that the child is fully vaccinated for their age or who qualifies for the 16-weeks support period

Enrolment: An enrolment occurs when the provider has an arrangement with an individual or organisation to provide education and care to a child.

Enrolment deposit: A charge to secure a place that has been offered in a program at the service. This should not act as a barrier to enrolling for any families. Services must ensure that families understand that the enrolment deposits will only be refunded if the child commences in the service (*Refer to Fees - Free Kinder policy*)

Enrolment record: the collection of documents which contains information on each child as required under the National Regulations (*Regulations 160, 161, 162*) and DE funding requirements (Arrival) and including but not limited to parent details; emergency contacts; authorised nominee; transportation authorisations, details of any court orders; and health information including immunisation status. Enrolment records are stored securely in the service due to their confidential nature.

Kindergarten registration fee: a payment to cover administrative costs associated with the processing of a child's enrolment application for a place in a program at the service, if applicable. (*Refer to Free Kindergarten Fees policy*)

Kindergarten registration form: The process of families providing initial information about their child to confirm their intention to enrol in kindergarten, administered by the CRES/CRS Provider (*refer to Definition*) or by the kindergarten service. This includes collection of basic contact information, kindergarten preferences and any other details that may inform prioritised allocation in kindergarten (*refer to Attachment 3*)

Support period: allows specific categories of children of families experiencing vulnerability and disadvantage to enrol and attend the service without an AIR Immunisation History Statement (*refer to Definitions*) or when the statement is assessed as not being up to date. Services complete the support period eligibility form with families during enrolment and keep a copy with each child's enrolment record. The 16-week support period starts on the first day of the child's attendance at the service. During the support period, the service is required to take reasonable steps to obtain the AIR Immunisation History Statement (*refer to Definitions*) and to encourage families to access immunisation services. Note: services are not required to exclude the child from the program at the end of the support period if an up-to-date history statement is not provided, except in the instance of an outbreak of an infectious disease.

Local Government Area (LGA): a geographic area governed by a local council or shire.

Orientation: Process to support the child's transition to the service, whereby families spend time at the service with the child a few times before leaving the child on their own. The time required for orientation and settling in will vary for each child and their family.

Priority cohort: From 2026 across the state, Aboriginal and Torres Strait Islander children, children from a refugee or asylum seeker background, and children who have had contact with Child Protection services can access up to their full hours based on Best Start, Best Life reforms. Children from this priority cohort can be enrolled in more than 1 group at a single service (including 4-year-old, mixed age, and 3-year-old groups). In addition, any child who was supported by the Access to Early Learning program as a 3-year-old is eligible for these same hours of as a 4-year-old from 2026.

Priority of access: in instances where more eligible children apply for a place at a service than there are places available, the service must allocate places using the criteria outlined in the DE Kindergarten Funding Guide (*refer to Attachment 1 and Sources*).

Registration: The process of families and carers giving initial information about their child to confirm their intention to enrol in kindergarten, administered by the service provider/EYM/CRES Provider. This includes collection of basic contact information, kindergarten preferences and any other details that may inform prioritised allocation in kindergarten.

School Readiness Funding: funding provided by DE for programs and supports that builds the capacity of kindergarten services, educators and families to support children's learning and development outcomes.

Additional year of funded kindergarten: Eligibility for a second year of 4-Year-Old Kindergarten is determined by the child's early childhood teacher, if the child is observed as having developmental delays in at least 2 VEYLDF Learning and Development Outcomes and there is evidence to suggest the child will achieve better outcomes at kindergarten than if they go to school. From 2026, across Victoria, children who meet the eligibility requirements due to their learning or developmental needs can access an additional year of either, 3-year-old Kindergarten; 4-year-old Kindergarten for children, but not both.

ATTACHMENT 1. ELIGIBILITY AND PRIORITY OF ACCESS CRITERIA

FOR A FUNDED 3-YEAR-OLD KINDERGARTEN AND 4-YEAR-OLD KINDERGARTEN

Priority of Access (PoA) helps service providers determine which children are offered a funded kindergarten place first when there are more applications than places. This applies to all funded kindergarten programs in sessional and long day care services including places allocated through a Central Registration and Enrolment Scheme (CRES).

Services must use the PoA criteria when there are more eligible children than available kindergarten places. This means services must:

- offer places based on the PoA criteria
- work with other local kindergarten services and the local ECIB to help all eligible children access a kindergarten place.

PoA must be applied before any locally agreed criteria. Long day care services must apply the PoA criteria to all funded kindergarten places.

PoA applies to all children, whether they live inside or outside the local government area (LGA) where a service is located.

If your service is in a LGA roll out of more hours of 4-Year-Old Kindergarten, once you apply the PoA criteria you must then prioritise children who live in the LGA. Children from outside the LGA whose nearest service is within it, must be prioritised before other children from outside the LGA.

These criteria apply to all 2027 enrolments.

All information relating to PoA criteria should be respectfully collected from families upon enrolment, recorded in each child's confidential enrolment record and entered into Arrival, where applicable.

DE's Priority of Access criteria

Children accessing an additional year of 3- and 4-Year-Old Kindergarten	Children assessed with delays in two or more areas and are identified as eligible for an additional year of funded 3-Year-Old Kindergarten, 4-Year-Old Kindergarten.

Tier 2

Children currently attending the service	Children attending the service in the 3-Year-Old Kindergarten program and seeking to access 4-Year-Old Kindergarten at the same service for continuity of learning. Priority should be given to these children to remain at the same service for their 4-Year-Old Kindergarten. In the instance where EEYS do not have adequate kindergarten positions to honour the placement within the Tier 2 guidelines (e.g. not enough positions for all 3-year-old children to stay at the same service for their 4-year-old kindergarten year), EEYS will then; Triage and place enrolments based on Tier 3 in the order below to determine offered positions.

The department's PoA criteria apply to all enrolments for 2027, including more hours of 4-year-old kindergarten

For services located in more hours of 4-year-old kindergarten rollout LGAs:

- apply Tier 1 and Tier 2 PoA criteria first
- then give priority to children who live in the LGA, and to those who live outside the LGA but whose nearest service is located within it, ahead of other children from outside the LGA.

Locally agreed criteria

Service providers and CRES can apply locally agreed criteria after applying PoA and, if relevant

1. Children of Early Childhood educators

2. Four- year-old siblings that have previously attended your child's first service preference
3. The services proximity to the child's home address

Kindergarten places must be allocated in line with anti-discrimination and human rights laws.

Kindergarten registration

If families miss the registration close deadline, they can still register although they will be placed into a pool for second round (or even later rounds) of allocation and are less likely to get their top preference. After second round offers have been confirmed, EEYS will continue to allocate children to kindergarten places where they are available. More places may become available as children move kindergartens or withdraw, or when kindergartens add capacity.

*Registrations will still be accepted after 30 May, but registrations received prior will be allocated first. Children eligible for Priority of Access will be prioritised regardless of when registration is received.

Registration

The quickest way to complete a registration form is online at

<https://forms.enrolnow.com.au/253356144094962>

Families can also complete a hard copy of the registration form paper form and drop it at the emerge office. Registration forms are provided by Emerge to the kindergarten service and distributed to families. A separate registration form must be completed for each child.

Families cannot register directly with the kindergarten that are part of the Emerge, they must go through the centralised registration process. Kindergarten's can direct families to register through Emerge and assist them to complete the registration.

To fill out the registration form, families will need to provide information about themselves and their child. At this stage they may ask to attach any supporting documentation.

The registration form may ask families for:

- Basic information about the child including name, date of birth, language spoken at home, previous kindergarten attendance and immunisation status.
- Details of any additional support the child might require due to a disability including intellectual, sensory or physical impairment.
- Contact details for the family or carer and any additional adults that should be kept informed throughout the process (e.g. another family member, a case worker or other support service staff member the family or carer trusts).
- Whether the child is identified as fulfilling any of the following criteria:
 - Is Aboriginal or Torres Strait Islander
 - Is from a multiple birth (triplet or greater)
 - have had contact with Child Protection
 - Is in Out-Of-Home Care
 - Holds, or has a family member who holds, a Commonwealth Health Care Card, Commonwealth Pensioner Concession Card, Department of Veteran's Affairs Gold Card or White Card, or a Refugee or Asylum Seeker Visa.
- other required information to determine priority of access

It is strongly recommended that you **do not collect** documents proving the child's birth date, address, visa status, concession card status or similar at the registration stage. A statement at the end of the registration form that certifies the information provided is true can suffice as a legal declaration.

This will make accessing kindergarten as easy as possible for families, particularly those who are experiencing vulnerability or disadvantage. Gathering documentation can be a barrier for many families and carers attempting or completing the form and establishing contact with the CRES. Once registered, the CRES Provider, the kindergarten service, MCH or support service staff can assist the family or carer to gather documentation for the enrolment stage.

If your CRES does require documentation at this stage and this cannot be changed, include the information below.

- Proof of identity: Where a birth certificate cannot be produced, other acceptable evidence of a child's full name and date of birth includes:
 - Statement from the Australian Immunisation Register (AIR)
 - Medicare card
 - letter from the doctor or midwife who attended the birth
 - doctor's note attesting to a child's age
 - passport
 - citizenship documents or Australia visa documents or Immicard.
- Subsidy card and immigration visas (where applicable).

- Documents from Family Support Services or a MCH nurse confirming high support needs and/or disability, or letter from a doctor for complex medical needs (where applicable).
- Other proof required to verify the child meets local criteria.
- Credit card (to pay the registration fee). The fee can also be paid in person at their nearest council office. This fee is waived for all families and carers eligible for ESK/KFS/priority allocation.

Please note relevant information from families will be collected by EEYS enrolments to ensure PoA is correctly applied. This information is used for the PoA allocations.

Enrolment

Once a 3-year-old kindergarten or 4-year-old kindergarten place has been accepted, the enrolment process can begin.

To enrol a child, families will need to provide copies of (if not already done so):

- Proof of identity: child's birth certificate, birth notice or passport
- Proof of residence: a utilities bill, rental agreement or rates notice with your family name and address (this must be the main residence of your child).
- Concession cards and immigration visas (where applicable).
- Documents from Family Support Services or a Maternal and Child Health nurse confirming high support needs and/or disability or letter from a doctor for complex medical needs (where applicable).
- Immunisation History Statement (unless experiencing vulnerability or disadvantage, at which point they can take advantage of a 16-week 'support period'. More information is available at <https://www2.health.vic.gov.au/public-health/immunisation/vaccination-children/no-jab-no-play/immunisation-enrolment-toolkit>)
- Documents detailing any medical conditions or requirements the child has.

* Where a birth certificate cannot be produced, other acceptable evidence of a child's full name and date of birth includes:

- statement from the Australian Immunisation Register (AIR)
- Medicare card
- letter from the doctor or midwife who attended the birth
- doctor's note attesting to a child's age
- passport
- citizenship documents or Australia visa documents or Immicard.

Kindergartens may also require additional documentation. The kindergarten should ensure that information regarding any additional documentation is easily accessible for families, carers and support services.

Enrolment Records

Enrolment records (*refer to Definitions*) form part of the enrolment procedure and are completed by families after they have been allocated a place, and before commencing attendance.

Cancellations

Families to notify [Service Name] in writing of their intention to leave the service by completing an Exit form.

Additional year of funded Kindergarten

- Families of children who have been determined as eligible for an additional year must complete and submit a kindergarten registration form for an additional year, signed and dated by the early childhood teacher as outlined by DE.
- The Declaration of Eligibility Form for an additional year of kindergarten must be submitted to the Department of Education
- From 2026, across Victoria, children who meet the eligibility requirements due to their learning or developmental needs can access an additional year of either, 3-year-old Kindergarten; or 4-

year-old (or 4-Year-Old Kindergarten for children not eligible for more hours of 4-year-old kindergarten), but not both.

School Exemption

- Children who will turn six during the Pre-Prep year must apply for an exemption from school from the relevant their local ECIB that their child is seeking an exemption from school by submitting an [Exemption from school due to attendance in kindergarten program form](#) to the appropriate departmental regional office by 1 November in the year prior to the child turning 6.
- The kindergarten service must sight the approved exemption form from relevant education authority and note that it has been sighted on the child's enrolment record. Data on the number of children attending 4-year-old kindergarten who are six years plus, and confirmation that the exemption was sighted for each child, must be provided as part of funding data collection process.
- Children who will turn 6 while attending their second year of 4-year-old kindergarten can be exempted from school if a Declaration of eligibility for a second year of funded kindergarten has been completed by the child's teacher.

Timelines for the kindergarten registration (as above)

Eligibility

Age

Only complete below form if you are planning on sending your child to kindergarten in 20XX. Your child will be eligible for kindergarten only if they meet the following age criteria:

Starting age calculator: Use the [starting age calculator](#) to enter your child's birth date to find out what year they can start 3- and 4-Year-Old Kindergarten.

Immunisations

According to the No Jab, No Play law in Victoria, your child must be fully vaccinated to start kindergarten. An Immunisation History Statement from the Australian Immunisation Register is not required for this registration form, but you should ensure that your child's immunisations are up to date and you have a copy of this statement before commencing the enrolment process that will likely happen in October.

A support period applies for families who may find it difficult to provide an up-to-date statement by October.

Further information on immunisation requirements for enrolment in early childhood services is available through the DE website: www.education.vic.gov.au

Priority of access

EEYS follows the Department of Education's Priority of Access criteria (*refer to Attachment 1*), that prioritises allocation of kindergarten places for children who:

- are Aboriginal and/or Torres Strait Islander
- are, or have parents or carers who are, asylum seekers or refugees
- have additional developmental needs
- hold or have parents who hold a Commonwealth Health Care Card, Pensioner Concession Card, Veteran's Affairs Card.

Children that fit one or more of those criteria will be allocated to a place in kindergarten as a high priority. This form will collect all the information required to determine if a child is eligible for Priority of Access.

If you believe you or your child are in exceptional circumstances which require prioritisation and are not covered by any of the above criteria, please contact EEYS to discuss.

Fees

Refer to the [Free Kindergarten Fees Policy](#) for more information about fees.

It is strongly recommended that you **do not collect** documents proving the child's birth date, address, visa status, concession card status or similar at the registration stage. A statement at the end of this form that certifies the information provided is true can suffice as a legal declaration. Once registered, staff can assist the family to gather documentation for the enrolment stage.

This will make accessing kindergarten as easy as possible for families, particularly those who are experiencing vulnerability or disadvantage. Gathering documentation can be a barrier for many families attempting or completing the form.

If you do determine that collecting documentation is necessary, you should include the below paragraph here.

Before you start, make sure you have copies of:
