Meet the Owner

Dennis
Morales

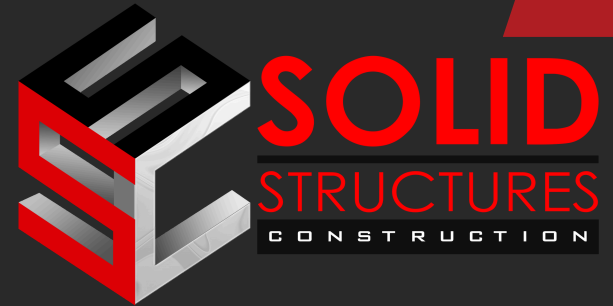

Dennis Morales is a California native, born in Los Angeles and proud to call the Bay Area home for over 25 years. Construction is not just his career — it is part of who he is. Dennis grew up on job sites alongside his dad, starting at just seven years old. What began as helping out quickly turned into a lifelong passion for building.

He started his career doing general construction labor and, at 18, became a carpenter apprentice on a tenant improvement project. From there, he worked his way up through the ranks — Foreman's Assistant, Lead Carpenter, and Superintendent — learning every aspect of the trade along the way. With over 20 years as a licensed contractor, Dennis founded his current company in 2021 with one simple goal: to build quality projects the right way, with honesty and pride.

Family is at the heart of everything Dennis does. He and his partner are raising two teenage boys and a daughter, and much of his free time is spent supporting their activities and giving back to the community. He's actively involved in his church, volunteers with a local soccer league helping with field setup and closures, and supports youth boxing events by preparing young athletes — wrapping hands and making sure their gear fits properly.

For Dennis, construction is about more than wood and concrete — it's about creating spaces where families grow, businesses thrive, and communities come together.

**Structural Wood Framing • Concrete
Excavation • Demolition
Waterproofing • Siding**
