THE POWER OF COLD THERAPY

10 Benefits for Improved Health and Quality of Life

BOOSTS CIRCULATION:

Enhances blood flow, improving oxygen delivery throughout the body.

ALLEVIATES MUSCLE SORENESS:

Speeds up recovery by reducing inflammation after exercise.

STRENGTHENS IMMUNITY:

Regular ice baths can enhance immune function and lower the risk of colds.

ENHANCES SLEEP:

Helps cool the body, promoting quicker sleep onset and deeper rest.

REDUCES STRESS:

Lowers stress hormones and triggers the release of endorphins, boosting overall well-being.

INCREASES ENERGY:

The cold shock can revitalize energy levels and fight fatigue.

SHARPENS MENTAL CLARITY:

Stimulates the central nervous system, improving focus and mental alertness.

SUPPORTS WEIGHT LOSS:

Boosts metabolism and promotes higher calorie burn.

IMPROVES SKIN HEALTH:

Reduces inflammation, tightens pores, and enhances skin appearance.

BUILDS MENTAL RESILIENCE:

Strengthens mental toughness, helping you face and overcome challenges.

STEP INTO THE COLD, STEP INTO WELLNESS.

ICEBATH

1 Person | 2000 x 750 x 740mm

MUSCLE SORENESS

Ice baths are a great way to ease sore muscles after exercise. The cold reduces inflammation, minimizes swelling, and flushes out lactic acid, helping relieve pain and stiffness. They also speed up recovery by improving circulation during rewarming, making them an effective method for reducing muscle soreness.

CHRONIC STRESS

Ice baths help manage chronic stress by reducing cortisol levels and calming the nervous system. Cold exposure activates the vagus nerve, promoting relaxation, boosting mood with endorphins, and encouraging mindfulness. Regular use can improve resilience to stress and enhance mental well-being.

DISTURBED SLEEP

Ice baths improve sleep by calming the nervous system, reducing cortisol, and promoting relaxation. The cooling effect mimics the body's natural sleep signals, helping you fall asleep faster, while easing tension and soreness for deeper, restorative rest. Regular use may improve overall sleep patterns and recovery.

ENERGY EFFICIENT

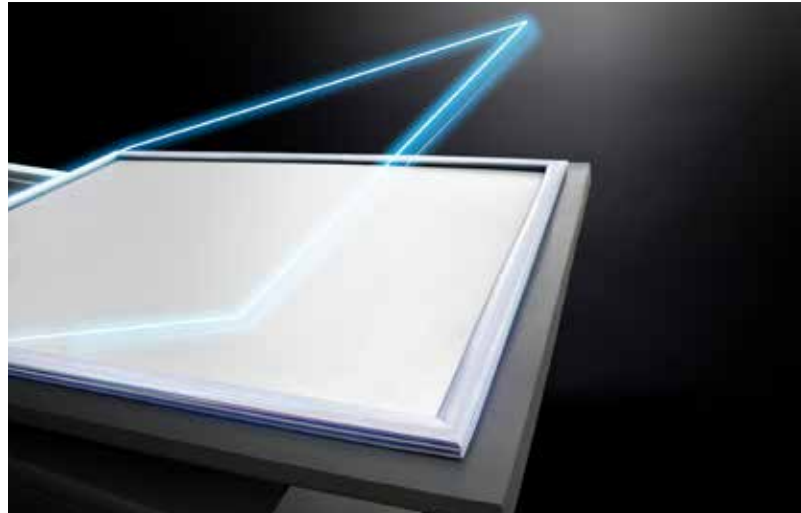

Fully foam-insulated stainless-steel construction offers stability and energy efficiency, reducing frequent startups to conserve electricity.

CRYSTAL CLEAR WATER

The integration of ozone technology and advanced multi-efficient filtration systems effectively removes bacteria, impurities, and other harmful contaminants from the water. This process ensures the water remains crystal clear, safe, and hygienic, all while requiring minimal effort for maintenance. By streamlining purification, this system provides a reliable and hassle-free solution for maintaining high water quality.

| | |
|-------------------|-----------------------------|
| Voltage | 220 V / 50 Hz |
| Power | 550 W |
| Standard Capacity | 270 L |
| Max Capacity | 388 L |
| Net Weight | 132 Kg |
| Control Panel | Touch Control |
| Sterilization | Ozone Sterilization |
| Filtration | Multi High-efficient Filter |
| Reservation | 8-96 hours |
| Temperature | 0-15° |

MINIMAL DESIGN

The puristic stainless steel design combines elegance with functionality. Each element is designed for minimalism and aesthetic sophistication while providing user-friendly comfort. Beautifully designed components made from high-quality materials blend seamlessly into any environment and ensure durability and effortless maintenance.

THERMAL COVER

The user-friendly insulation cover is foldable and easily removable, making it ideal for everyday use. Not only does it provide additional comfort and safety, but it also effectively keeps the cold inside the pool to minimize energy loss and ensure efficient cooling.

OVERFLOW PROTECTION

Once the water level reaches the upper limit during use, the excess water is quickly drained through the built-in water holes, preventing overflow of the tub surface and ensuring a clean and safe environment. This efficient water regulation prevents the risk of water damage.

IN LOVE WITH DETAILS

Solid stainless steel feet offer stable support and elegant adaptability to any surface.

COOL DOWN, RECOVER FASTER

The Ice Bath can achieve temperature as low as 0° and generate ice on its own. It's well-suited for both personal, at home usage and commercial settings. It can be utilized indoors or in covered outdoor spaces, as long as it's shielded from direct sunlight and rain.

PLUG & PLAY

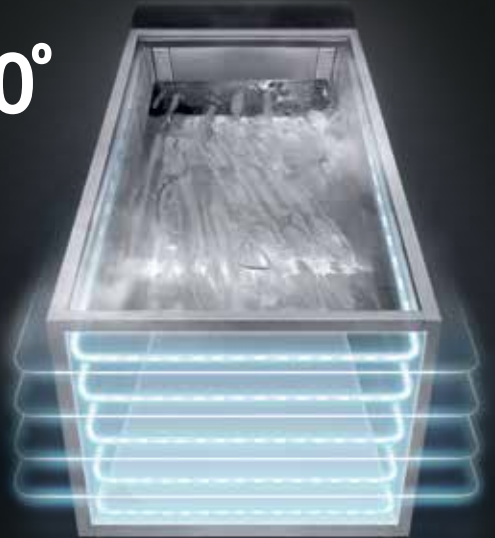

No plumbing, no special wiring, just connect, fill with a hose, and plug into any outlet.

COOLING PRO

Long-lasting cooling with precise temperature control and an extended cooling area. Easier to maintain and safer to use – for ultimate long-term cooling.

EFFICIENT COOLING FROM ALL SIDES
