Thanks For Referring

- Kristina P. referred Pam C.
- Karisa V. referred Ricky P.
- Claire J. referred Sofia J.
- Jose M. referred Riley J.

We appreciate the trust that you show in our shop and our service when you refer a friend, family member, neighbor or co-worker!

Client of the Month

Carson Mercer

With our help, Carson has taken great care of his 2010 Tundra & his 2017 Silverado! Thanks Carson!

We offer BRAKE SERVICE

Flag Day

June 14

Father's Day is Sunday, June 15

Father's Day 2025 is Sunday, June 15!

Coincidentally, all of Father's Day weekend falls under our "Best Days for Fishing" or a Great Day for Golf.

Father's Day did not become a permanent national holiday for many years. The first bill was introduced in Congress in 1913, but in spite of encouragement by President Woodrow Wilson, it did not pass. In 1966, Lyndon Johnson issued a proclamation designating the third Sunday in June to honor fathers.

Finally, in **1972**, President Richard Nixon signed a law declaring that Father's Day be celebrated annually on the third Sunday in June. It has been an official, permanent national holiday ever since.

NATIONAL CHOCOLATE ICE CREAM DAY

To observe National Chocolate Ice Cream Day on **June 7** all you need is chocolate ice cream. Who says you have to stop there, though? You can have it in a cone or make it from scratch. Add sprinkles or syrup or whipped cream.

Chocolate ice cream is the **second most common flavor**, surpassed only by vanilla. The chocolate flavored ice cream has been in existence well over a hundred years and has been popular in the United States since the late 19th century.

Cocoa powder is blended in with eggs, cream, vanilla and sugar to make chocolate ice cream. The cocoa powder is what gives the ice cream a brown color. Other flavors, such as rocky road or triple chocolate chunk, use chocolate ice cream in their creation.

This Month's Make You Smile Joke

Three women, two younger, and one senior citizen were sitting in a sauna only covered by a towel.

Suddenly there was a beeping sound. The young woman pressed her forearm and the beep stopped. The others looked at her questioningly. 'That was my pager,' she said. 'I have a microchip under the skin of my arm.'

A few minutes later, a phone rang. The second young woman lifted her palm to her ear. When she finished, she explained, 'That was my mobile phone. I have a microchip in my hand.'

The older woman felt very low-tech. Not to be outdone, she decided she had to do something just as impressive. She stepped out of the sauna and went to the bathroom.

She returned with a piece of toilet paper hanging from her rear end. The others raised their eyebrows and stared at her. The older woman finally said... 'Well, will you look at that...'

I'm getting a fax!!!'

As Weather Changes, It's Time to Check Tire Pressure

When outside temperatures fluctuate, your tire pressure can change too. In fact, a 10-degree Fahrenheit drop (about 6 degrees Celsius) can cause your tire pressure to decrease by 1 or 2 pounds.

In warmer weather, tires might lose even more air. Driving on **under-inflated tires** can lead to **faster wear** and can **negatively impact your car's handling**.

If you're in an area with significant temperature changes, it's a good idea to regularly check your tire pressure and adjust it as necessary to keep your tires in good shape and your drive smooth.

Laundry hacks

- make clothes soft with = **VINEGAR**
- use hair conditioner to = **UNSHRINK CLOTHES**
- whiten whites easily with = **BAKING SODA & HYDROGEN PEROXIDE**
- Make clothes smell fresh = **ESSENTIAL OIL**

Comments From Our Clients

"My new go to shop for Subaru repairs. My axle broke, had it towed to the shop after hours. Very convenient after hours key drop off. The team called early the next day, confirmed the issue and to my surprise, advised could have it fixed and ready to go the same day, and at a reasonable price! Highly recommend." **John M.**

"I had a wonderful experience with this shop. They were kind, professional and took very good care of me. I came to them wanting to get an AC recharge after I had the system resealed. They answered all the questions and explained everything from point A to point B and what it would cost and why. The type of refrigerant my vehicle takes is usually priced very high at most shops (mostly just because they can), here they were transparent about not ripping me off. 10/10 would recommend and will be returning if I have the need to for my vehicle." **Sarah A.**

Our Peace of Mind Warranty!!

There's no greater peace of mind than knowing you have one less worry by having your vehicles serviced by the professionals at **Mike Palmer Automotive**.

We warranty parts and labor for
24 Months/24,000 Miles

YOUR LOCAL FAMILY-OWNED DEALERSHIP ALTERNATIVE
