

Level Up Your Level of Care

A Webinar Series for ASAM Criteria Alignment Readiness

First Thursday of every month

• 12 p.m. ET

• Live on Microsoft Teams

Audits, take-backs, ASAM Criteria® alignment, documentation that checks every box but misses the person – these challenges show up in every chart and every handoff. With Pennsylvania's DHS and managed care organizations rolling out ASAM Criteria alignment reviews for Level 2.5 and 2.1 programs across Pennsylvania, now is the time to ensure your organization is prepared. No team should have to figure them out alone.

Led by Christie Nebel, MBA, LPC, IRETA's Director of Clinical Quality Improvement Services .

THE SESSIONS

NOV 5 Person-Centered Care Meets ASAM: Getting Alignment Right from Day One.

DEC 3 Assessment & Documentation That Actually Reflects the Patient

JAN 7 Expanding Access: A Practical Guide to Medications for SUD
