

## Training Now Available: SC Role in Risk Management

### ODP Announcement 26-094

#### AUDIENCE:

New Supports Coordinators

#### PURPOSE:

To announce the release of a new training course, SC Role in Risk Management. This training is part of the *SC First Year* training plan.

#### DISCUSSION:

Supports Coordinators have a pivotal role in the lives of people with ID/A and their families. The conversations and planning they facilitate literally can change the direction in people's lives. This training will provide information and resources that can be used to assist individuals, their families, and those providing supports and services to recognize and address barriers, risks, and fears and work through these with the team in order to assist the individual to fully participate and be included in their community, protect their health and safety, and have the opportunity to live an Everyday Life.

The course includes 3 webcasts that must be viewed in order (about 60 minutes total). Then there is a 25-question post-test (20/25 to pass). You may access the course by clicking on the following link: [SC Role in Risk Management](#).

This course will replace the "SC Role in Mitigating Risk" training currently offered as part of SC First Year Training. If you have already started this training, you must complete it by 5:00 pm on 10/16/2026. If you have not started this training, please use the new course, when available, to complete this training. This course will be unavailable to all users as of 5:00 pm on 10/16/2026.
