

## Preliminary working list of codes from administrative medical billing records indicating medical frailty for the purpose of exemption from Medicaid community engagement requirements

Pennsylvania Department of Human Services

Last updated: 5/6/2026

### **Description:**

In 2025, President Trump signed into law changes to the Medicaid program that includes community engagement requirements for certain populations in the adult Medicaid expansion population as of January 2027. The law exempts certain individuals from these requirements including an individual who is “medically frail or otherwise has special medical needs.”

This preliminary code list identifies health care billing and pharmacy codes that will be used to identify individuals who meet the medical frailty exemption from Medicaid community engagement requirements. The list is intended to support administrative review of existing records and is not the only pathway for identifying medical frailty. This list has NOT been approved by CMS and DHS may update the list as implementation planning continues, clinical and operational review advances, and final CMS guidance is issued.

For more details on Pennsylvania’s approach to medical frailty, please see the overview here:
