

April 2026 Newsletter

What kind of weather have we been having ?? Definitely have rain and sunshine !!! The weather have been really unpredictable lately so a simple reminder to dress your child(ren) appropriately. It's often really cold in the mornings with some children without jackets... Please bring in a jacket for your child daily or leave one in the cubby. On warm days, please apply sunscreen on your child(ren) in the mornings and the teachers will reapply in the afternoons. Sunscreen permission slips are coming out the first week of April.

Our themes next month will be about “growth and change” and “our earth.” Easter is this month as well, but since most of our children went on vacation during Spring Break, we had our Easter activities last month. Because of Spring Break, we moved our calendar around so all or most children are present during our activities. We will learn about growth and change in our environment and our bodies as well. We will also be talking about our planet earth. How to keep it clean, recycling and we love our planet, our world and all the children of the world !!! We will be having our annual neighborhood walk/clean up day !!! In the past, we've collected 3-4 bags full of garbage. We would like to decrease that number and see our citizens responsible for not littering. Then again, we would like to collect more bags full of garbage to clean up our neighborhood !!!

SPECIAL WEEK OF THE YOUNG CHILD !!! SEE BELOW !!!
