## FUNGICIDE:

	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	Jan
<u>Fertilome F-STOP Lawn Fungicide</u> Apply when grass discolors or has dead damp spots.				x-----x					x				

## New Lawns:

Follow local watering restrictions for the establishment of new turf. Fertilize after installation with Nitro Organic fertilizer and apply supplemental feeding in 4 to 6 weeks. Treat for insects immediately and begin appropriate insect routine described above. Weed control should not be used for 12 weeks following new grass installation.

**Bring in a sample of grass (4"-6" square) or close-up photos of problem grass for analysis.**
