EVALUATION OF DIRECT ENHANCEMENT SERVICES

Comprehensive Consumer Education

The Coalition is committed to ensuring that families across Palm Beach County have access to high-quality child care information and family support services. Through our multi-lingual Child Care Resource and Referral (CCR&R) program, we help families navigate their options, connect with community resources, and access services in ways that meet their needs. CCR&R services are available through multiple channels ensuring that families receive timely and relevant assistance in their preferred format.

In 2024–2025, the CCR&R team handled more than 200,000 phone calls and delivered over 50,000 services to families. Our team is committed to a customer-first approach, offering solutions that are responsive and respectful of every family’s unique situation.

To best serve families with young children, we provide tools and services to ensure that language or logistical barriers never prevent families from accessing the help they need, including:

- Live Chat on our website connects families with representatives in real-time
- Call-back options reduce wait times and improve the customer experience
- Online inquiry forms allow families to request help at their convenience
- Real-time interpretation services are available through on-demand interpreters
- Kiosks to access electronic CCR&R intake forms

CHILD CARE RESOURCE AND REFERRAL IN THE COMMUNITY

To reach families where they live, work, and gather, the Coalition participated in over 130 outreach events countywide. These events, often co-hosted with other service providers, offer a platform to share information, gather feedback, and directly engage with the community. The Coalition continues to offer regularly scheduled in-person services in high-need areas at Community Outpost locations through strategic partnerships with local organizations.

Collaboration is vital to our success. Strong partnerships with organizations such as the Children’s Services Council of Palm Beach County, Lutheran Services – Early Head Start, Bridges, and Hope Florida ensure that families receive comprehensive support without the burden of navigating multiple systems alone. We also work closely with the Mandel Public Library, where our CCR&R and Family Engagement teams host monthly sessions to promote programs, lead developmental activities, and empower parents as their child's first teacher.

Provider Financial Supports

The Coalition provided CLASS Assessment and Child Assessment differential payments to providers as outlined in 6M-4.500 to promote the provision of quality early childhood education services. The Coalition leveraged local funding to continue the ASPIRE New Educator program to support 11 educators in completing their CDA. The ASPIRE program has proven to be an effective model in supporting hiring and retaining new educators by reimbursing providers for screenings, baseline training and coverage of first month's work time. Additionally, local funding was used to support the initial implementation of a local wage supplement program, known as the STAR Award, for early childhood educators who make less than \$25 and work in the classroom with children birth to five. The Coalition worked to promote and roll out the STAR Award in the last quarter of the fiscal year and received over 580 applications in May & June.

Training and Technical Assistance

The Coalition offers training and technical assistance (T/TA) in a variety of modalities to meet the needs and interests of providers, staff, and parents. This includes hosting T/TA sessions during provider site visits, virtually, in-person, at night and on the weekends. Throughout the 2024-25, the Coalition facilitated 4 SR & 11 VPK provider webinars, 1 SR/VPK CLASS Assessment Overview, 120 educator training sessions, and 50 learning opportunities for parents (data from LMS 1.0). The Coalition also offered specialized professional development experiences, providing educators and directors with deeper discussion, learning and impact through coaching and cohort-based models. Each contracted provider is assigned a Technical Assistance Specialist who collaborates with provider administration to deliver targeted coaching and professional development to Teachers. Coalition staff facilitated a total of 1992 coaching sessions from July 1, 2024 to June 30, 2025. Throughout 2024-25, the Coalition hosted three community-based Early Learning Collaboratives, one ASPIRE New Educator cohort, and the inaugural Palm Beach Early Learning Fellowship. The Coalition's signature training event, the EMPOWER Conference, brought together 331 educators, directors, parents, vendors, and community stakeholders for a day of learning across individualized tracks.

Quality Activities for Infant and Toddler Care

Coalition staff provide support to Palm Beach County families and providers on infant and toddler care that promotes responsive relationships with babies and young children. Efforts include, but are not limited to, support for families and providers regarding developmentally appropriate care and education practices for the zero to three age group.

The Coalition offers coaching and training to infant and toddler educators, focused on curriculum, Developmental Standards, CLASS, developmentally appropriate environments, and teacher-child interactions. Coaching is available to all School Readiness sites. Coaching efforts are tracked in the Web-Based Early Learning System (WELS) database and TORSH for Practice Based Coaching.

The Coalition Resource Library is available in two locations, offering materials for parents and educators. The lending library serves as a community resource including play groups and story time opportunities.

The Coalition offered 13 community events focused on early intervention and developmental screening. The Coalition collaborated with the Mandel West Palm Beach library once a month, creating an environment where parents and children could play while learning about their child's developmental milestones. Many of the participating families have infants and toddlers.

Monitoring

The Coalition continues to follow the established process for School Readiness and Voluntary Pre-Kindergarten provider monitoring. In 2024-25, Coalition staff completed Tier 2 monitoring for 118 School Readiness providers. 104 VPK providers received onsite monitoring. The Coalition exceeded the required sample size by 6 for School Readiness and 6 for VPK. To ensure the random sample selection for tier 2 monitoring is appropriate, set criterion is used to generate a sample of providers as follows:

- Providers with less than 85% compliance with onsite monitoring for previous contract year
- Providers with substantiated parental complaints in the prior contract year
- Providers with attendance monitoring results exceeding a discrepancy rate of 15%
- Providers with Class 1 or excessive Class 2 violations as reported by local childcare licensing
- Providers with a Corrective Action Plan or Probation status from the previous year

Newly contracted providers and providers who had not received monitoring from the previous contract year were added to the sample to meet the targeted number of monitored providers for the year. Coalition staff ensure the

sample size represents all provider types. The state-approved SR-20M and VPK on-site monitoring tools were used to complete the appropriate provider monitoring.

Once Tier 2 monitoring is completed, Coalition staff review the report with the director or provider representative highlighting the outcome of the monitoring. Where necessary, recommendations for areas for improvement and technical assistance were provided during the time of the monitoring. For non-compliant providers, Coalition staff provided a detailed description of the non-compliance items on the monitoring tool, assigned a due date for completion, and followed up on those items with the provider. The monitoring team continue to track all provider compliance interactions in the Coalition's record management system. Additionally, the Coalition hosted a workshop on Compliance Monitoring to support providers in understanding requirements and best practices related to maintaining contract records.

In addition to conducting routine monitoring, Coalition staff also managed parent complaints and provider self-reports via phone/desk reviews or in-person. A total of 189 parent complaints and 315 provider self-reported incidents were received. In some instances, these reported complaints and incidents resulted in placing a provider on probation or issuing a corrective action. A total of 25 providers were placed on corrective action/probation status, which resulted in 69 additional follow-up activities, including onsite visits. The providers identified in this status include some that started their action plans in the previous year and concluded in 2024-25. As of June 30, 2025, 17 providers successfully completed their plans, and the remaining have carried over to the 2025-26 contract year. Additional technical assistance support was provided to 16 providers to address minor contractual non-compliance items and 25 providers to address health and safety non-compliance as determined by local licensing.

Early Intervention

In 2024–2025, the Coalition strengthened its efforts to promote early identification of developmental delays and expand access to early intervention services across Palm Beach County. Through a comprehensive approach that included screenings, coaching, technical assistance, and community partnerships, the Early Intervention team worked to ensure that children received the support they needed to thrive in early learning settings.

A core element of this work was the administration of developmental screenings using the Ages and Stages Questionnaires (ASQ-3 and ASQ:SE-2). This year, the Coalition completed 28,123 screenings, resulting in 1,754 successful referrals to Home Safe, our local early intervention partner. Our Child Development Specialists provided individualized coaching, resources, and assistance navigating the referral process to the families of children showing signs of developmental concerns.

To enhance communication with families, the Coalition launched a staff refresher training series, focused on strategies for building trust and explaining screening results with care and clarity. A revised script for “Sharing ASQ Results with Concerns” was introduced to help staff approach conversations with empathy and encourage

meaningful parent engagement in follow-up services. Additionally, in collaboration with BRIDGES, the Coalition hosted an ASQ Pop-Up Event that drew over 30 families. This interactive event served as both an educational and community-building opportunity, featuring hands-on screening activities, parent discussions, and connections to services—all within a welcoming and supportive environment.

The Coalition delivered a broad range of trainings, workshops, and technical support to help child care providers and families recognize developmental concerns and respond with effective strategies. More than 150 participants attended these sessions during the year. Participant feedback led to the formation of topic-specific focus groups to further explore challenges and solutions in early intervention practices. These offerings included:

- ASQ-3 & ASQ:SE-2 Training and Online Technical Assistance
- Autism Awareness: Classroom Strategies and Family Conversations
- Concerned About Your Child’s Development? Act Early
- Pop-Up Playtime and ASQ Block Party Events
- Positive Parenting and Social-Emotional Development Workshops
- Pyramid Model Implementation Strategies
- Sensory Tools as Proactive Approaches
- Special Needs Rate Application Support
- How to Complete the BPIECE Self-Assessment

The Early Intervention team completed 180 individualized consultation visits to support educators in understanding ASQ results and implementing evidence-based practices in the classroom. These consultations provided tailored guidance to promote developmental support and positive outcomes for children presenting concerns. Staff also responded to concerns regarding suspension, expulsion, or behavioral challenges.

In alignment with efforts to improve access to services, the Coalition continued promoting the Special Needs Differential for providers serving children who require additional support. This year, 18 providers served 53 children under this program. Of the providers who received the Special Needs Differential 72% (13) completed the BPIECE tool to strengthen their early intervention practices.

A notable achievement was the implementation of the Teaching Pyramid Observation Tool (TPOT) with the Coalition hosted Lake Worth Collaborative. This initiative supported 10 providers and 56 classrooms. Pre and post TPOT observations were conducted in 26 preschool classrooms, demonstrating progress in implementing practices that support children’s social-emotional growth and reduce behavioral concerns using the Pyramid Model.
