

This procedure will walk the reader through the steps required to setup the MGA points list for the year. This spreadsheet is mostly automated with just a few manual steps in order to enter and maintain the points list throughout the year.

Setup the spreadsheet for the year

1. Create a copy of the entire prior year spreadsheet by using the menu and selecting File—>Duplicate. Give the new spreadsheet a name something like “Year”_MGA_Standings
2. Delete all of the data in the monthly results sheets. Repeat the following steps for each of the monthly results sheets.
 1. For example click on the Jan Results sheet and delete the data in Table 1 that contains the data for player payouts for the event.
 2. Delete the data in column A and B in Table 3, leaving the data in Columns 3 and 4 as Column 3 it will be used for the entry points and Column 4 will be used to determine if a name is in the current Rankings Sheet or if you need to add another entry to the Rankings Sheet.
3. In the Rankings sheet remove all of the name is columns B and C. **Note only remove the data in B and C. The other columns have formulas that will read data from other sheets and self populate the data into the Rankings Sheet. Removing the formulas from other columns will result in the need to recreate the formulas.**
4. At this point you should have an empty Rankings sheet for use for this years Rankings.
5. You have two options when starting a new Rankings Sheet. You can get a current list of MGA members from Zach and copy that into the Rankings Sheet or you can wait until the first event of the year is complete and copy the entrants list into the Rankings Sheet.
6. Copy and Paste the new list into either column B or C. The names in Column B is the list is in “firstname lastname” format. The names in Column C is the list is in “lastname, firstname” format
7. Depending on the the format in the previous step you will have to manually create the entry for the other column.

Enter the results after the monthly event

1. Enter the golf genius website on your computer. You can get to the Sonterra MGA portal through the Club at Sonterra site and clicking on Golf—>MGA, there is a link to the portal. When you enter the portal, find the event for which you want to get the results and click on the “Results” link on the rights side of the web page.. (Note, if there is an issue accessing the results there may be a permissions issue where the results are set to private instead of public. Zach Ramsey can help make the permissions public to they are accessible.
2. Within Golf Genius and the Event that you want data from select Pairings—>Players to get the list of players for this event. Copy the entire list including the handicap indexes (you don’t need the handicap indexes so if you don’t get them it’s not a big deal, I just found it easier to get the entire table.). Paste the data copies into Table 3 in columns A and B.
3. Ensure that Column C has the appropriate entry fee entered in each row.
4. Go back on page in the Golf Genius app and select Results—>Player Purse summary
5. Copy all of the columns and row data here and paste the data in Table 1 for the monthly results sheet.
 1. **Note for some events (such as the Member Member Match Play) there isn’t a player purse summary, only a player points summary is provided. In this case you will have to manually update Table 1 in the monthly results tab.**
6. After pasting the data into Table 1, remove the rows that only have data in the “Skins” column as the “Skins” amount does not count towards the Sonterra Cup points.

Verify the results have been updated in the Rankings Sheet.

1. You may need to sort the results after the new data is entered. The “Total” column contains the aggregate results so use that column for sorting.

Add new players or players that have played their first event of the year.

If there have been new MGA members or players that are playing in their first event and their name doesn’t appear in the Rankings sheet you will have to add them to Rankings sheet.

Look at Table 3 Column “D” in the Monthly Results spreadsheet. If Column “D” says Name Not Found there is either a typo in that persons name or the name needs to be added to the Rankings sheet.

Look in the Rankings sheet Columns A and B and the Monthly Sheet column “D” and determine the appropriate action. Once the name has been added/corrected in the Rankings spreadsheet the “Name Not Found” should be replaced by the players name and the rest of the spreadsheet should automatically populate.

Rank	NAME		Entry	Place Bonus	Entry	Place Bonus	Entry	Place Bonus	Entry	Place Bonus	Entry	Place Bonus	Entry	Bonus	Entry	Place Bonus	Entry	Place Bonus	Entry	Place Bonus	Entry	Place Bonus	Event Bonus	Events Played	Total
