

**BUILT TO
TRANSFORM.
DESIGNED TO LAST.**

COMPANY OVERVIEW

180 Management Group helps organizations strengthen leadership, develop their workforce, improve operations, and make better technology decisions. Through Management Advisory, Workforce Development, and Technology Enablement, we provide practical, research-informed support that helps clients navigate change, build capacity, and improve performance.

OUR SOLUTIONS

Three practice areas. One focus: stronger organizations built to perform and adapt.

Management Advisory

Leadership and operational support for organizations navigating growth, transition, or transformation.

Workforce Development

Practical training that prepares people to enter the workforce, advance into management, and succeed at work.

Technology Enablement

Assessments and roadmaps that align people, processes, systems, and data for better technology decisions.

- Implementation readiness and adoption support

WHY 180MG

180 Management Group combines practical operating experience with research-backed frameworks to help organizations move from complexity to action. We use structured, evidence-informed approaches to assess current conditions, clarify priorities, design practical solutions, and build the internal capability needed to sustain results. Our work is tailored to each organization, but it is not improvised. Clients benefit from disciplined methods, cross-functional insight, and a flexible team assembled around the needs of each engagement.
