YOUTH SUMMIT AND FUTURE'S FAIR

March 17, 2026

Berna Facio Professional Development Center

3315 Louisiana Blvd NE, Albuquerque, NM 87110

The Albuquerque Hispano Chamber of Commerce invites you to join us for the 2026 Youth Summit and Future's Fair on March 17th 2026, at the Berna Facio Professional Development Center in Albuquerque, NM. The 2026 Youth Summit and Futures Fair seeks to empower New Mexico high school students (9th -12th grade) and young adults (from 18 to 25 years old) to take charge of and make informed financial decisions by providing comprehensive educational workshops and training platforms centered around three core pillars: financial literacy, career exploration, and college readiness. The Summit will positively impact their lives, contribute to their long-term financial and professional success, and connect them with New Mexico community resources, colleges, universities, trades, and technical schools.

Our Three Core Pillars

Financial Literacy

Career Exploration

College Readiness

Program Highlights:

- **Interactive Workshops:** Engaging sessions led by financial experts, career advisors, and educators to facilitate learning and skill development.
- **Futures Fair:** A college and career fair with booths for colleges, trade schools, financial institutions, networks, and insights from industry professionals sharing their experiences and offering valuable advice to inspire and guide the youth.
- **Networking Opportunities:** A platform for students and young adults to connect, exchange ideas, and build associations that foster collaboration and growth.

BECOME A SPONSOR

Financial literacy among youth is a growing important topic in today's world. Young people understanding how to manage their money and make financial decisions is crucial for their future financial well-being. Studies have demonstrated that youth in their teens and early twenties often lack basic financial literacy skills. They may struggle with budgeting, saving, investing, and understanding financial products. Many young people are unaware of the long-term consequences of accumulating debt, particularly high-interest debt like credit card debt and student loans. Their lack of knowledge can lead to financial struggles later in life, and the adverse effects on mental health of financial stress have been proven. Financial stress can have negative impacts on mental health. The availability of financial education programs in schools and colleges varies widely, and in fact, some states have integrated financial literacy into their curriculum, while others have not, including New Mexico.

At the 2026 Youth Summit and Future's Fair, our sponsors and partners will have unique opportunities to highlight their brands and offer platforms for every marketing objective and community relations initiative, from digital marketing to product placement and traditional advertising to brand highlights.
