Securitization	17
Equities Not Subject to the Market Risk Rule	18
Interest Rate Risk for Non-Trading Activities	19
Appendix 1: Basel III Regulatory Capital Disclosure Matrix	20

DEFINED TERMS

ACL	Allowance for credit losses (applies to debt securities, loans, and unfunded loan commitments)
ALCO	Synovus' Asset Liability Management Committee
ALL	Allowance for loan losses
AOCI	Accumulated other comprehensive income (loss)
ATM	Automatic teller machine
Basel III	The third Basel Accord developed by the Basel Committee on Banking Supervision to strengthen existing regulatory capital requirements
Basel III Rules	Final capital rules adopting the Basel III capital framework approved by U.S. federal regulators in 2013
BHC Act	Bank Holding Company Act of 1956, as amended
Board	The Company's Board of Directors
bp(s)	Basis point(s)
C&I	Commercial and industrial
CCB	Capital Conservation Buffer
CECL	Current expected credit losses
CET1	Common Equity Tier 1 Capital defined by Basel III capital rules
CME	Chicago Mercantile Exchange
Company	Synovus Financial Corp. and its wholly-owned subsidiaries, except where the context requires otherwise
CRE	Commercial real estate
CSA	Credit support annex
DTL	Deferred tax liability
EVE	Economic value of of equity
Federal Reserve Bank	One of the 12 banks that are the operating arms of the U.S. central bank. They implement the policies of the Federal Reserve Board, supervise bank holding companies and certain banking institutions, and conduct economic research.
Federal Reserve Board	The 7-member Board of Governors that oversees the Federal Reserve System, establishes monetary policy (interest rates, credit, etc.), and monitors the economic health of the country. Its members are appointed by the President subject to Senate confirmation and serve 14-year terms.
Federal Reserve System or Federal Reserve	The Federal Reserve Board, plus the 12 Federal Reserve Banks, with each one serving member banks in its own district. The Federal Reserve has broad regulatory powers over the money supply and the credit structure of the economy.
FHLB	Federal Home Loan Bank
FRB	Federal Reserve Bank
GA DBF	Georgia Department of Banking and Finance
GAAP	Generally Accepted Accounting Principles in the United States of America
HVCRE	High volatility commercial real estate
ISDA	International Swaps and Derivatives Association, Inc.

NAICS	North American Industry Classification System
NRSRO	Nationally recognized statistical ratings organization
OTC	Over the counter (derivatives which are not centrally cleared)
Parent Company	Synovus Financial Corp.
Pinnacle	Pinnacle Financial Partners, Inc., a Tennessee corporation
PSE	Public sector entity
RPA	Risk participation agreement
RWA	Risk-weighted assets
SEC	U.S. Securities and Exchange Commission
SPE	Special purpose entity
SSFA	Simplified supervisory formula approach
Synovus	Synovus Financial Corp.
Synovus' 2024 Form 10-K	Synovus' Annual Report on Form 10-K for the year ended December 31, 2024, filed with the Securities and Exchange Commission by Synovus Financial Corp.
Synovus' September 30, 2025 Form 10-Q	Synovus' Quarterly Report on Form 10-Q for the quarter ended September 30, 2025, filed with the Securities and Exchange Commission by Synovus Financial Corp.
Synovus Bank	A Georgia state-chartered bank and wholly-owned subsidiary of Synovus, through which Synovus conducts its banking operations
Synovus Securities	Synovus Securities, Inc., a wholly-owned subsidiary of Synovus
Synovus Trust	Synovus Trust Company, N.A., a wholly-owned subsidiary of Synovus Bank
U.S.	United States
Visa	The Visa U.S.A. Inc. card association or its affiliates, collectively
Visa Class A shares	Class A shares of common stock issued by Visa are publicly traded shares which are not subject to restrictions on sale
Visa Class B shares	Class B shares of common stock issued by Visa which are subject to restrictions with respect to sale until all the Covered Litigation has been settled. Class B shares will be convertible into Visa Class A shares using a then current conversion ratio upon the lifting of restrictions with respect to sale of Visa Class B shares
Visa Derivative	A derivative contract with the purchaser of Visa Class B shares which provides for settlements between the purchaser and Synovus based upon a change in the ratio for conversion of Visa Class B shares into Visa Class A shares

BACKGROUND AND OVERVIEW

Basel III is a set of international banking measures that established a framework to strengthen the regulation, supervision, and risk management of banks. Under the Basel III Rules, Synovus is designated as a standardized approach bank.

With respect to capital adequacy, Basel III Rules include a standardized approach for components of capital ratios including risk-weightings of assets and off-balance sheet exposures, as well as other adjustments, to derive the regulatory capital ratios. Synovus is currently not subject to the U.S. market risk capital rule, which applies only to banking institutions with significant trading activity.

This document and certain of the Company's public filings present the Regulatory Capital Disclosures in compliance with Basel III as described in Section 63 of the final rule. Synovus' 2024 Form 10-K and September 30, 2025 Form 10-Q contain management's discussion and analysis of the overall risk profile of the Company and related management strategies. The information presented herein should be read in conjunction with our 2024 Form 10-K, September 30, 2025 Form 10-Q, as well as the Consolidated Financial Statements for Holding Companies - FR Y-9C dated September 30, 2025. A disclosure index is provided in Appendix 1 of this report, which specifies where all disclosures required by Basel III Rules are located.

SCOPE OF APPLICATION

General

Synovus Financial Corp. is a financial services company and a registered bank holding company headquartered in Columbus, Georgia. We provide commercial and consumer banking in addition to a full suite of specialized financial products and services including private banking, treasury management, wealth management, mortgage services, premium finance, asset-based lending, structured lending, capital markets, and international banking. At September 30, 2025, Synovus had total consolidated assets of \$60.49 billion and consolidated deposits of \$50.00 billion with 244 branches and 358 ATMs across our five state footprint in Alabama, Florida, Georgia, South Carolina, and Tennessee.

Throughout this report, references to "Synovus," "we," "our," "us," "the Company," and similar terms refer to the consolidated entity consisting of Synovus Financial Corp. and its subsidiaries unless the context indicates that we refer only to the Parent Company, Synovus Financial Corp. When referenced herein, "Bank" or "Synovus Bank" refers to our wholly-owned bank subsidiary, Synovus Bank.

Additional information relating to our business and our subsidiaries, including a detailed description of our financial results for the years ended December 31, 2024, and 2023, and quarter ended September 30, 2025 is contained in "Part II - Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations" in Synovus' 2024 Form 10-K and "Part I - Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations" in our September 30, 2025 Form 10-Q, respectively.

Non-bank Subsidiaries

In addition to our banking operations, we also provide various other financial services to our clients through the following direct and indirect wholly-owned non-bank subsidiaries:

- Synovus Securities, headquartered in Columbus, Georgia, which specializes in professional portfolio management for fixed-income securities, investment banking, the execution of securities transactions as a broker/dealer, asset management and financial planning services, and the provision of individual investment advice on equity and other securities; and
- Synovus Trust, headquartered in Columbus, Georgia, which provides trust, asset management, and financial planning services.

Pending Merger with Pinnacle Financial Partners, Inc.

On July 24, 2025, Synovus entered into an Agreement and Plan of Merger (the “Merger Agreement”) with Pinnacle Financial Partners, Inc. (“Pinnacle”) and Steel Newco Inc., a newly formed Georgia corporation jointly owned by Pinnacle and Synovus (“Newco”). The Merger Agreement provides that, upon the terms and subject to the conditions set forth therein, Pinnacle and Synovus will each simultaneously merge with and into Newco (such mergers, collectively, the “Merger”), with Newco continuing as the surviving corporation in the Merger and named Pinnacle Financial Partners, Inc.

Subject to the terms and conditions of the Merger Agreement, (a) each share of common stock, par value \$1.00 per share, of Synovus (“Synovus Common Stock”) outstanding immediately prior to the Merger will be converted into the right to receive 0.5237 shares of the common stock of Newco (“Newco Common Stock”) and (b) each share of common stock, par value \$1.00 per share, of Pinnacle outstanding immediately prior to the Merger will be converted into the right to receive one share of Newco Common Stock. Holders of Synovus Common Stock will receive cash in lieu of fractional shares. Following the close of the Merger, Synovus shareholders will own approximately 48.5% and Pinnacle shareholders will own approximately 51.5% of the combined company.

Subject to the terms and conditions of the Merger Agreement, each share of Synovus Series D Preferred Stock, Synovus Series E Preferred Stock and 6.75% Fixed-Rate Non-Cumulative Perpetual Preferred Stock, Series B, no par value, of Pinnacle (“Pinnacle Preferred Stock”), will be converted into the right to receive one share of an applicable newly created series of preferred stock of Newco having terms that are not materially less favorable than the Synovus Series D Preferred Stock, Synovus Series E Preferred Stock or Pinnacle Preferred Stock, as applicable.

The Merger Agreement was unanimously approved by the Boards of Directors of each of Pinnacle, Synovus and Newco. The completion of the Merger is subject to the satisfaction of customary closing conditions, including receipt of required regulatory approvals and approval by the shareholders of each of Synovus and Pinnacle.

Basis of Consolidation

The consolidated financial statements of Synovus include the accounts of the Parent Company and its consolidated subsidiaries. All intercompany balances and transactions have been eliminated in consolidation. The accounting and financial reporting policies of Synovus are in accordance with GAAP and conform to the accounting and reporting guidelines prescribed by bank regulatory authorities. For additional information, refer to “Part II - Item 8. Financial Statements and Supplementary Data - Note 1 - Summary of Significant Accounting Policies” in Synovus’ 2024 Form 10-K and “Part I - Item 1. Financial Statements and Supplementary Data - Note 1 – Basis of Presentation and Accounting Policies” in Synovus’ September 30, 2025 Form 10-Q.

Regulation of the Company

We are registered as a bank holding company with the Federal Reserve under the BHC Act and have elected to be treated as a financial holding company. As such, we are subject to comprehensive supervision and regulation by the Federal Reserve and are subject to its regulatory reporting requirements. Federal regulations subject bank holding companies, such as Synovus, to restrictions on the types of activities in which they may engage, and to a range of supervisory requirements. In addition, the GA DBF regulates the banking activities of Georgia-chartered banks, such as us, under certain bank statutes of the State of Georgia. Various federal and state agencies regulate and supervise other of Synovus’ activities including our brokerage, investment advisory, and insurance agency activities. Such agencies include, but are not limited to, the SEC, the Financial Industry Regulatory Authority, other federal and state banking regulators, and various state regulators of insurance and brokerage activities.

Forward-Looking Statements

Certain statements made or incorporated by reference in this Report, which are not statements of historical fact, constitute forward-looking statements within the meaning of, and subject to the protections of, Section 27A of the Securities Act and Section 21E of the Exchange Act.

All statements other than statements of historical fact are forward-looking statements. You can identify these forward-looking statements through Synovus’ use of words such as “believes,” “anticipates,” “expects,” “may,” “will,” “assumes,” “predicts,” “could,” “should,” “would,” “intends,” “targets,” “estimates,” “projects,” “plans,” “potential,” and other similar words and expressions of the future or otherwise regarding the outlook for Synovus’ future business and financial performance and/or the performance of the financial services industry and economy in general. Forward-looking statements are based on the current beliefs and expectations of Synovus’ management and are subject to significant risks and uncertainties. Actual results may differ materially from those contemplated by such forward-looking statements. A number of factors could cause actual results to differ materially from those contemplated by the forward-looking statements in this document. Many of these factors are beyond Synovus’ ability to control or predict.

For a discussion of these and other risks that may cause actual results to differ from expectations, refer to “Part I - Forward-Looking Statements” and “Item 1A. Risk Factors” of our 2024 Form 10-K and “Part I - Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations - Forward-Looking Statements” of our September 30, 2025 Form 10-Q. All written or oral forward-looking statements that are made by or are attributable to Synovus are expressly qualified by this cautionary notice. You should not place undue reliance on any forward-looking statements since those statements speak only as of the date on which the statements are made. Synovus undertakes no obligation to update any forward-looking statement to reflect events or circumstances after the date on which the statement is made or to reflect the occurrence of new information or unanticipated events, except as may otherwise be required by law.

CAPITAL STRUCTURE

Summary of Capital

Synovus and Synovus Bank have issued a variety of capital instruments to maintain a robust and efficient capital position while also meeting various regulatory capital requirements. Currently, Synovus’ capital structure primarily consists of the following elements:

- CET1 capital, which includes primarily common shareholders’ equity, subject to certain regulatory adjustments and deductions;
- Additional Tier 1 capital, which includes perpetual preferred stock and certain qualifying capital instruments; and
- Tier 2 capital, which primarily includes qualifying subordinated and junior subordinated debt as well as qualifying ACL.

For further information on the Company’s capital instruments and regulatory requirements, please refer to “Note 8 - Long-term Debt,” “Note 9 - Shareholders’ Equity and Other Comprehensive Income,” and “Note 10 - Regulatory Capital” in “Part II - Item 8. Financial Statements and Supplementary Data” of our 2024 Form 10-K, and “Note 4 – Shareholders’ Equity and Other Comprehensive Income (Loss)” in “Part I - Item 1. Financial Statements and Supplementary Data” and “Table 10 - Capital Ratios” in “Part I - Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations” in Synovus’ September 30, 2025 Form 10-Q.

The following table reflects Synovus’ consolidated regulatory capital position as of September 30, 2025.

Table 1 Regulatory Capital Tiers

(dollars in thousands)

	September 30, 2025
CET1 Capital	
Common stock, \$1.00 par value	\$ 172,734
Additional paid-in capital	3,999,363
Retained earnings	3,145,388
Accumulated other comprehensive income (loss), net	(676,797)
Treasury stock	(1,359,096)
Total common shareholders' equity	5,281,592
Noncontrolling interest in subsidiary	20,467
Common equity tier 1 before adjustments and deductions	5,302,059
Less: Effect of certain items in AOCI excluded from CET1 Capital	(676,797)
Less: Goodwill, net of associated DTLs	466,153
Less: Intangible assets, net of associated DTLs	20,793
Less: Deferred tax assets arising from net operating loss and tax credit carryforwards, net of any related valuation allowances and net of DTLs	23,978
Less: All other deductions	232
CET1 Capital	5,467,700
Preferred stock	537,145
Tier 1 Capital	6,004,845
Qualifying Tier 2 Capital instruments	330,666
Qualifying allowance for credit losses ⁽¹⁾	511,578
Tier 2 Capital	842,244
Total Capital	\$ 6,847,089

⁽¹⁾ ACL included in Tier 2 Capital is limited to 1.25% of risk-weighted assets and includes the ALL and the allowance for credit losses on off-balance sheet credit exposures (i.e., unfunded lending commitments) recorded in other liabilities.

CAPITAL ADEQUACY

Synovus believes that prudent capital management is at the center of ensuring that we can sustainably fulfill our corporate objectives and mission, which includes bettering our clients, our communities, and our broader set of stakeholders. Capital management at Synovus is facilitated by a multi-faceted approach that leverages our Board approved risk appetite framework along with baseline and stressed scenario modeling which, collectively, informs the on-going assessment and management of our capital position.

This framework is effectuated and governed at a management-level within our ALCO process and is further reported and governed within Board-level committees. Synovus' capital position and risk appetite are reviewed on an on-going basis through that framework to ensure that the Company appropriately considers a range of potential risks and factors in developing its strategic approach to capital management.

The following table outlines Synovus' standardized approach risk-weighted assets as of September 30, 2025, using the categorization based on the standardized definitions.

Table 2 Standardized Approach Risk-Weighted Assets

(dollars in thousands)

	September 30, 2025
	Risk-Weighted Asset Amount
Exposures to U.S. Government sponsored enterprises and agencies	\$ 1,640,656
Exposures to PSEs	730,202
Corporate exposures	33,287,833
Residential mortgages exposures	4,559,963
Statutory multifamily mortgage exposures	248,466
HVCRE loans	7,133
Past due and non-accrual loans	215,427
Other loans	1,281,444
Allowance for loan losses	—
Other assets	1,100,584
Equity exposures	103,941
Trading assets	18,856
On-balance sheet securitization exposures	464,352
Total on-balance sheet assets	43,658,857
Letters of credit	316,841
Loan commitments with original maturity within 1 year	310,495
Loan commitments with original maturity over 1 year	4,190,428
Off-balance sheet securitization exposures	94,601
Other off-balance sheet items	146,501
Total off-balance sheet items	5,058,866
Less: Excess of ACL	—
Total	\$ 48,717,723

For further details about the Company's risk-weighted assets, refer to the Schedule HC-R in the Consolidated Financial Statements for Holding Companies - Form FR Y-9C for September 30, 2025.

CAPITAL RATIOS AND CAPITAL CONSERVATION BUFFER

Regulatory Capital Ratios

Under the Basel III standardized approach, Synovus and Synovus Bank are subject to minimum capital ratios for CET1 capital, Tier 1 capital, and Total Risk-Based capital of 4.5%, 6.0%, and 8.0%, respectively. The Basel III Rules also provide for a minimum CCB of 2.5% in addition to the minimum capital to RWA ratios. The CCB is designed to provide an additional buffer against losses during periods of economic stress, thereby guarding against banks falling below the minimum regulatory capital levels.

The CCB of a given institution is calculated as the lowest of the: (i) CET1 ratio less the CET1 stated minimum requirement, (ii) Tier 1 ratio less the Tier 1 stated minimum requirement, and (iii) Total Capital ratio less the Total Capital stated minimum requirement. At September 30, 2025, the CCB for Synovus and Synovus Bank was 6.05% and 5.72%, respectively, which were in excess of the mandatory 2.5% minimum CCB. As such, Synovus is not currently subject to any limitations as a result of failing to maintain capital levels above the CCB minimum threshold.

Basel III requires a calculation of eligible retained income. Eligible retained income is the greater of (i) the banking organization's net income for the four preceding calendar quarters, net of any distributions and associated tax effects

not already reflected in net income, and (ii) the average of the banking organization's net income over the preceding four quarters. Synovus' eligible retained earnings at September 30, 2025 was \$365.8 million.

The following table summarizes regulatory capital information at September 30, 2025, for Synovus and Synovus Bank.

Table 3 Regulatory Capital Ratios

	September 30, 2025			
	Actual	Stated Minimum Ratios	Capital Conservation Buffer	Minimum Capital Conservation Buffer
Synovus Financial Corp.				
CET1 capital	11.22%	4.50%	6.72%	2.50%
Tier 1 capital	12.33%	6.00%	6.33%	2.50%
Total capital	14.05%	8.00%	6.05%	2.50%
Synovus Bank				
CET1 capital	12.25%	4.50%	7.75%	2.50%
Tier 1 capital	12.25%	6.00%	6.25%	2.50%
Total capital	13.72%	8.00%	5.72%	2.50%

CREDIT RISK: GENERAL DISCLOSURES

Credit Risk

Credit risk is the risk of losses if our borrowers do not fully repay their loans or if our counterparties fail to perform according to the terms of their contracts. Synovus takes a comprehensive approach to credit risk management that includes multiple lines of defense, a robust centralized credit process, strong underwriting standards, a credit risk appetite framework, a closely monitored concentration policy, and the use of market and portfolio analysis to continuously monitor the credit portfolio by industry, property type, and geography. Additionally, our risk grading process is well-defined and is subject to independent review.

Credit Risk Exposures

The following table provides the distribution of credit exposure by geography as of September 30, 2025.

Table 4 Credit Exposure by Geography

(dollars in thousands)

September 30, 2025						
	C&I	CRE	Consumer	Total	Percent of Total Funded	
Florida	\$ 5,560,103	\$ 4,566,903	\$ 2,318,286	\$ 12,445,292	28.4 %	
Georgia	4,266,337	3,072,618	3,009,890	10,348,845	23.7	
South Carolina	1,567,397	1,143,335	798,697	3,509,429	8.0	
Alabama	1,643,322	589,387	756,884	2,989,593	6.8	
Tennessee	477,595	662,267	461,012	1,600,874	3.7	
Other ⁽¹⁾	9,714,215	2,235,230	909,756	12,859,201	29.4	
Total Funded	\$ 23,228,969	\$ 12,269,740	\$ 8,254,525	\$ 43,753,234	100.0 %	
Total Unfunded	10,417,843	2,193,892	3,110,494	15,722,229		
Total	\$ 33,646,812	\$ 14,463,632	\$ 11,365,019	\$ 59,475,463		

⁽¹⁾ Includes states outside our footprint and no single state is over 5%.

For purposes of the following table, “industry” is defined as two-digit NAICS industry code for the C&I loan portfolio, property type for the commercial real estate portfolio, and product type for the consumer portfolio.

Table 5 Credit Risk Exposures by Industry
(dollars in thousands)

	September 30, 2025	
	Total	Percent of Total Loan Class
C&I:		
Finance and insurance	\$ 5,328,669	22.9%
Health care and social assistance	4,348,309	18.7%
Accommodation and food services	1,695,914	7.3%
Lessors of real estate	1,360,254	5.9%
Manufacturing	1,255,749	5.4%
Wholesale trade	1,155,873	5.0%

Total	\$ 9,570,420	\$ 21,909,699	\$ 12,273,115	\$ 43,753,234

The following table displays commitments and letters of credit maturities by exposure type as of September 30, 2025.

Table 7 Commitments and Letters of Credit Maturities by Exposure Type

(dollars in thousands)

	September 30, 2025		
	Less Than One Year	Greater Than One Year	Total ⁽¹⁾
Commitments to fund C&I	\$ 3,208,139	\$ 7,209,704	\$ 10,417,843
Commitments to fund CRE	146,016	2,047,876	2,193,892
Commitments under home equity	1	2,107,010	2,107,011
Unused credit cards	448,642	—	448,642
Other loan commitments	5,348	549,493	554,841
Total	\$ 3,808,146	\$ 11,914,083	\$ 15,722,229

⁽¹⁾ Includes \$4.81 billion of unconditionally cancellable commitments which are not subject to risk-weighting per the regulatory capital rules.

The total gross and net charge-offs for the quarter ended September 30, 2025, were \$20.0 million and \$15.2 million, respectively, while total gross and net charge-offs for the nine months ended September 30, 2025, were \$81.5 million and \$54.9 million, respectively. Refer to “Part I - Item 1. Financial Statements - Note 3 - Loans and Allowance for Loan Losses” and “Part I - Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations - Table 8 - Credit Quality Metrics” of our September 30, 2025 Form 10-Q for a roll forward of the allowance for loan losses and more information on total gross and net charge-offs.

Refer to “Part I - Item 1. Financial Statements - Note 3 - Loans and Allowance for Loan Losses” of our September 30, 2025 Form 10-Q for information on aging and accrual status for each portfolio segment and class. Refer to “Part II - Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations - Table 9 - Loan Maturities and Interest Rate Sensitivity” of our 2024 Form 10-K for a breakout of loan maturities by type at December 31, 2024.

Loans are classified as past due if the contractual amounts for principal and interest are not received within 30 days of the contractual due date. Synovus determines past due or delinquency status of a loan based on contractual payment terms. The following table displays the loans past due 30-89 days, loans past due 90+ days, and non-accrual loans by geography as of September 30, 2025.

Table 8 Past Due and Non-accrual Loans by Geography

(dollars in thousands)

	September 30, 2025		
	Accruing Loans		Non-Accrual Loans
	30-89 Days Past Due	90 or More Days Past Due	
Florida	\$ 8,511	\$ 99	\$ 74,574
Georgia	13,142	—	63,021

GENERAL DISCLOSURE FOR COUNTERPARTY CREDIT RISK – RELATED EXPOSURES

Counterparty credit risk is the risk arising from the possibility that a counterparty may fail to fulfill contractual obligations, thus resulting in a potential loss for Synovus. This risk is inherent in various types of transactions, the most notable for Synovus being through derivatives contracts. Synovus takes various measures to attempt to mitigate such risks, which includes an internally established counterparty monitoring and limit framework, as well as through the use of certain margining and collateral agreements.

To reduce the counterparty risk to various financial institutions, Synovus may clear derivatives transactions through a central counterparty clearing house, such as the CME. This further reduces counterparty credit risk and limits the use of OTC derivatives with financial institutions. In instances where Synovus enters into OTC contracts with financial institutions, such relationships are generally governed by ISDA/CSA agreements which provide for the posting of collateral based on terms which are generally broadly accepted among the industry. The collateral exchanged under those agreements generally includes cash and sovereign bonds, and terms may differ somewhat based on the posting party's credit ratings as determined by certain NRSROs. If Synovus' credit ratings experiences a significant downgrade, financial counterparties may demand additional collateral to uphold the trading relationship, leading to increased exposure.

The following table reflects the notional amount and fair value of derivative instruments as of September 30, 2025. Synovus netted variation margin against interest rate contracts to reflect amounts posted and received for derivatives cleared through central clearing houses.

Table 12 Derivative Financial Instruments

(dollars in thousands)

	September 30, 2025		
	Notional Amount	Asset Fair Value	Liability Fair Value
Derivatives in cash flow hedging relationships:			
Interest rate contracts	\$ 3,850,000	\$ 65	\$ —
Total cash flow hedges	3,850,000	65	—
Derivatives in fair value hedging relationships:			
Interest rate contracts	\$ 1,652,967	\$ 60	\$ —
Total fair value hedges	1,652,967	60	—
Total derivatives designated as hedging instruments	\$ 5,502,967	\$ 125	\$ —
Derivatives not designated as hedging instruments:			
Interest rate contracts	\$ 18,050,806	\$ 84,723	\$ 117,782
Mortgage derivatives – interest rate lock commitments	51,828	974	—
Mortgage derivatives – forward commitments to sell fixed-rate mortgage loans	80,000	—	119
Risk participation agreements	1,057,038	—	21
Foreign exchange contracts	134,023	—	72
Visa derivative	—	—	2,964
Total derivatives not designated as hedging instruments	\$ 19,373,695	\$ 85,697	\$ 120,958

Synovus also enters into transactions possessing counterparty credit risk with various clients across our businesses. Such transactions are primarily related to client hedging of interest rate, foreign exchange, or other financial risks. The counterparty risk which stems from these transactions is typically underwritten by our credit risk management function in conjunction with an existing lending client, and as such, may be collateralized by real estate, working capital assets, securities, or other assets.

Synovus utilizes mortgage derivative instruments to manage the interest rate risk through the use of forward sales and forward commitments of Mortgage Backed Securities. These instruments are used to mitigate the interest rate risk associated with both the commitments to fund loans that have a firm interest rate lock and commitment to sell mortgage loans in the secondary market. These derivative and hedging instruments are marked to market at fair value in accordance with GAAP.

Synovus also enters into credit RPAs to share the credit exposure related to certain derivative contracts with other counterparties (risk participations purchased) or to assume counterparty credit exposure related to certain derivative contracts (risk participations sold). The Company enters into credit risk participation agreements in instances in which the Company is also party to a related loan participation agreement for such borrowers. Synovus will receive or make payments under these agreements if the borrower defaults on the derivative contract.

In an event of default, the lead bank has the ability to liquidate the assets of the borrower, and in which case the lead bank would be required to return a percentage of the recouped assets to the participating banks. Synovus manages the credit risk related to RPAs by monitoring the creditworthiness of the borrowers, which includes a standard credit underwriting process comparable to that which is done on direct borrowing relationships. As reported herein, the notional amount of RPAs reflects the pro-rata share of the derivative contract, which generally aligns with its share of the related participated loan and is not necessarily a reflection of the credit exposure associated with that counterparty relationship.

The following table summarizes the notional amounts of outstanding credit derivatives (including RPAs) as of September 30, 2025.

Table 13 Derivative Financial Instruments - Credit

(dollars in thousands)

For additional information related to Synovus' derivatives exposures, refer to "Part II - Item 8. Financial Statements and Supplementary Data - Note 1 - Summary of Significant Accounting Policies" in Synovus' 2024 Form 10-K.

For a further discussion of the Company's credit derivatives, refer to "Part I - Item 1. Financial Statements - Note 6 - Derivative Instruments and Hedging Activities" of our September 30, 2025 Form 10-Q and Schedule HC-L, Derivatives and Off-Balance-Sheet Items, in the Company's Consolidated Financial Statements for Holding Companies - FR Y-9C dated September 30, 2025.

Credit Risk Mitigation

Risk Management

Synovus has a robust credit risk framework that sets risk appetites for performance metrics and forward-looking indicators, sets and enforces adherence to concentration limits, and monitors and scores counterparty risk. Each credit risk measure has a documented plan for remediation in the event that it moves outside of its stated risk appetite. Our internal management-level Credit Risk Committee has oversight of the credit risk framework and reports to the Risk Committee of the Board, which receives periodic reports from management and must approve the credit risk appetites annually.

Synovus accepts collateral such as real estate and liquid assets to mitigate against potential losses. Basel III Rules allow eligible financial collateral, eligible guarantees, and eligible credit derivatives to be recognized in the calculation of risk-weighted assets. When financial collateral is obtained that qualifies as eligible collateral under the Basel III Rules, the eligible collateral can be substituted for the collateralized portion of the credit exposure in the risk-weighted asset calculation. Synovus' eligible collateral is cash on deposit at Synovus Bank. For eligible guarantees received, the risk weight applicable to the eligible guarantor would apply to the exposure covered by the guarantee.

The general policies for Lending and Leasing Risk conform to GAAP, as well as bank regulatory authorities where applicable. These policies consist of the items noted below. Refer to "Part II - Item 8. Financial Statements and Supplementary Data - Note 1 - Summary of Significant Accounting Policies" and "Note 3 - Loans and Allowance for Loan Losses" of our 2024 Form 10-K and "Part I - Item 1. Financial Statements - Note 3 - Loans and Allowance for Loan Losses" of our September 30, 2025 Form 10-Q:

- Allowance methodology;
- Past due and non-accrual loans;
- Individually evaluated loans; and
- Charge-off of loans

In connection with derivative activities, credit risk is mitigated by entering into legally enforceable cross-collateralization and master netting agreements. When there are multiple transactions with a counterparty and there is a legally enforceable master netting agreement in place, the exposure represents the net of the gain and loss positions plus any collateral received from and/or posted to that counterparty.

Many of the interest rate derivatives products traded by Synovus are subject to mandatory clearing. The counterparty risk for cleared trades effectively moves from the executing broker to the clearinghouse allowing Synovus to benefit from the risk mitigation controls in place at the respective clearinghouse. Refer to "Part II - Item 8. Financial Statements and Supplementary Data - Note 13- Derivative Instruments" in our 2024 Form 10-K and "Part I - Item 1. Financial Statements - Note 6 - Derivative Instruments and Hedging Activities" of our September 30, 2025 Form 10-Q for a discussion of derivatives' credit risk.

The following table provides information regarding our credit risk exposures as of September 30, 2025, that are covered by eligible financial collateral.

		Exposure Amount	Risk-Weighted Assets
	Guarantor		
Loans	U.S. government and agencies	\$ 48,223	\$ 9,498

SECURITIZATION

The Basel III rules define a securitization exposure as an exposure that meets the following criteria:

- All or a portion of the credit risk of one or more underlying exposures is transferred to one or more third parties;
- The credit risk associated with the underlying exposures has been separated into at least two tranches reflecting different levels of seniority;
- Performance of the securitization exposure depends on performance of the underlying exposures;
- All or substantially all of the underlying exposures are financial exposures;
- The underlying exposures are not owned by an operating company; and
- The underlying exposures are not owned by a small business investment company or related to a community development investment.

As of September 30, 2025, Synovus' securitization exposures consist of loans to SPEs (not sponsored by Synovus), which generally fulfill client requirements for working capital or long-term asset financing for underlying financial assets. Synovus does not currently hold any resecuritization or synthetic securitization exposures.

Securitization exposures entail various risks, including credit and seller risk. Credit risk emerges from the performance of the underlying asset pool, encompassing factors like payment rates, dilution, and write-offs/losses. Seller risk involves the risk of breach of representation or warranties regarding the underlying exposures or the failure to fulfill its obligations as per the securitization agreement.

Synovus' due diligence process evaluates factors that could significantly impact the performance of a securitization exposure. This process involves a detailed examination and ongoing monitoring of information related to the performance of the underlying financial exposures, pertinent market data, structural enhancements, and other features that influence the credit quality of a securitization, as well as the credit profile of the seller and servicer of the assets. In addition to transaction due diligence and underwriting, these procedures are periodically re-conducted for each securitization exposure.

Synovus employs a risk-weighting process for securitization exposures based on the SSFA framework outlined in the Basel III Standardized Approach. This approach utilizes a formulaic method to establish a base risk weight determined by the capital requirements of the underlying exposures, considering their seniority in the securitization structure and inherent risk factors in the underlying assets. Evaluation of the securitization tranche is conducted based on the subordination level, assigning higher risk weights to first-loss tranches compared to lower risk weights for

more senior or secured tranches. The methodology also incorporates delinquencies in underlying assets and adjusts the capital requirement accordingly. The risk weight obtained through the SSFA calculation is subject to a 20% floor, ensuring that each exposure is assigned the higher of 20% or the calculated risk weight.

The following tables provide an overview of Synovus' securitization exposures governed by the SSFA framework, detailing capital requirements and the impact on risk-weighted assets.

Table 16 Securitizations by Exposure Type

(dollars in thousands)

	Balance Sheet Exposure		Off-Balance Sheet Exposure		Total Exposure
Loans	\$	2,277,230	\$	472,567	\$ 2,749,797
Total	\$	2,277,230	\$	472,567	\$ 2,749,797

Table 17 Securitizations by Capital Treatment and Risk Weight

(dollars in thousands)

	Exposure		SSFA Risk Weighted Assets		Capital Impact⁽¹⁾
20% risk weighting	\$	2,654,797	\$	530,960	\$ 42,477
20% - 100% risk weighting		95,000		27,993	2,239
Total	\$	2,749,797	\$	558,953	\$ 44,716

⁽¹⁾The capital impact of risk-weighted assets is calculated by multiplying each risk-weighted asset amount in the table above by the minimum total risk-based capital ratio of 8%.

EQUITIES NOT SUBJECT TO THE MARKET RISK RULE

Equity exposure refers to a security or instrument that represents a direct or an indirect ownership interest in, and is a residual claim on, the assets and income of a company. Synovus' equity exposures consist primarily of non-publicly traded investments in entities or funds that support community development initiatives, restricted equity investments in Federal Reserve Bank and Federal Home Loan Bank stock, and other miscellaneous investments.

The majority of public equity securities are mutual fund investments made in connection with employee deferred compensation plans. Public equity securities are recorded in other assets in our September 30, 2025 Form 10-Q and in equity securities without readily determinable fair values and other assets in the FR Y9-C. They are carried at fair value with unrealized net gains or losses reported in earnings. At September 30, 2025, Synovus held \$57.3 million of exposures in mutual funds that relate to our non-qualified deferred compensation plans. There is an offsetting liability for these investments, and as a result, there is no impact to earnings or equity from these investments as changes in the fair value of the investments are recorded in income with an offsetting charge to personnel expense.

The majority of non-public equity securities are investments in community development initiatives, FRB common stock, and FHLB common stock. As members of the Federal Reserve System and FHLB, Synovus is required to purchase and hold shares of capital stock in the FRB and in the FHLB, respectively. Shares in the FRB and FHLB are recorded at amortized cost, which approximates fair value. Under regulatory rules, these equities are reported in other assets because they do not have readily determinable fair values.

The following table summarizes the balance sheet carrying value of Synovus's equity securities as of September 30, 2025, that are not subject to the Market Risk Rule.

Table 18 Book Value and Fair Value of Equity Exposures Not Subject to the Market Risk Rule
(dollars in thousands)

	September 30, 2025	
	Book Value	Fair Value
Non-publicly traded	\$ 318,676	\$ 318,676
Publicly traded	72,885	72,885
Total	\$ 391,561	\$ 391,561

The following table summarizes the capital requirements of equity investment exposures by risk-weighting as of September 30, 2025.

Table 19 Capital Requirements of Equity Investment Exposures by Risk-Weighting
(dollars in thousands)

	Risk-Weight Category	September 30, 2025	
		Exposure Amount	Risk-Weighted Asset Amount
Federal Reserve Bank stock	0%	\$ 146,640	\$ —
Federal Home Loan Bank stock	20%	94,319	18,864
Other	20%	15,544	3,109
Other	100%	77,719	77,719
Other ⁽¹⁾	Full Look Through	57,339	4,249
Total		\$ 391,561	\$ 103,941

⁽¹⁾ Mutual fund exposure related to non-qualified compensation plan.

Synovus had no realized gains/(losses) due to the sale and liquidation of equity securities during the three and nine months ended September 30, 2025. There were no significant unrealized gains/(losses) included in Tier 1 or Tier 2 capital at September 30, 2025.

INTEREST RATE RISK FOR NON-TRADING ACTIVITIES

Managing interest rate risk is a primary goal of the asset liability management function. Synovus attempts to achieve consistency in net interest income while limiting volatility arising from changes in interest rates. Synovus seeks to accomplish this goal by balancing the maturity and repricing characteristics of assets and liabilities along with the selective use of derivative instruments. The Company manages this exposure in accordance with policies that are established by ALCO and approved by the Risk Committee of the Board. ALCO meets periodically and has responsibility for developing asset liability management policies, reviewing the interest rate sensitivity of Synovus, and developing and implementing strategies to improve balance sheet structure and interest rate risk positioning.

For further information on interest rate risk and interest rate sensitivity analyses, refer to “Part II - Item 7A - Market Risk and Interest Rate Sensitivity” of our 2024 Form 10-K and “Part I - Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations - Table 13 - Twelve Month Net Interest Income Sensitivity” of our September 30, 2025 Form 10-Q.
