CAPABILITY STATEMENT

We are regulatory compliance specialists. CTI provides environmental and safety consulting for Fortune 100 companies and the construction industry. Our mission is to help clients reduce risk and minimize liability. Our consulting division assists clients with navigating environmental and safety regulations; whether it is a construction project, spill cleanup, or indoor air quality issue. Project management, civil and environmental engineering subject matter experts are engaged through our contracting division. If it's regulated, CTI can provide strategy and guidance.
