SPEND LESS TIME IN THE SYSTEM. GAIN TIME CLOSING SEARCHES

AI TOOLS THAT ACCELERATE SEARCH EXECUTION

AI Voice Notes

No more typing into activity logs. Dictate candidate updates and meeting notes straight into Encore. Ideal for capturing feedback during calibration or logging conversations after shortlists go out.

Smart Parsing from Resumes & LinkedIn

Automatically extract candidate details from CVs and profiles, saving hours of manual data entry and keeping pipelines clean for the whole team.

NIXZ LinkedIn Plug-In

Add and update records without leaving LinkedIn. Even infrequent users can contribute to pipeline development, business development, or historical coverage without breaking their sourcing flow.

Instant Status Reporting

Generate client-ready updates in seconds. Pull branded, visual status reports using built-in templates and scorecards. Perfect for stakeholder calls, search committee alignment, and executive briefings.
