CLIENT SATISFACTION

4.9 OUT OF 5 STARS!

Appleton East – The service I received was friendly, professional, and very reasonably priced. They were honest and efficient in getting the work completed after taking my car on short notice. I will definitely be a repeat customer! Denise M.

Appleton North – I have been going to auto select for several years now. I really believe they do consistently quality work and I trust them to not try and oversell me on work not really needing to be done. I absolutely love Cornelius who takes calls, books appointments and explains whatever needs to be done with knowledge and an approachable, happy disposition, so I'm comfortable asking questions and trust his suggestions. With Appleton auto select I feel like I'm dealing with a business with integrity. That's a big deal for me. Lynn F.

Green Bay East – I just wanted to say thank you again to Tucker he made sure that my van was fixed correctly. Reasonable price. Tucker did a fantastic job making sure the issue was fixed. I will definitely come here again, and recommend Auto Select! 10/10 Best mechanics in town. Angee S.

Stevens Point East – This place is the best. They are honest and provide quality work! Antoinette S.

Shawano – My family and I have been going to Jesse and the guys for 5+ years and will continue giving them my business. They never steer you wrong. Cole S.

KEEP YOUR COOL:

WHY VEHICLE AIR CONDITIONING MAINTENANCE MATTERS

As temperatures rise, your vehicle's air conditioning system becomes more than just a comfort feature – it's an important part of your driving experience. Whether you're commuting to work, heading out on vacation, or running errands around town, a properly functioning A/C system keeps you cool, comfortable, and focused on the road.

Many drivers don't think about their air conditioning system until it stops blowing cold air, but regular maintenance can help prevent costly repairs and keep your system operating efficiently all summer long.

Common Signs Your A/C System Needs Attention

If you notice any of the following symptoms, it may be time to have your vehicle inspected:

- Air blowing warm or only mildly cool
- Weak airflow from vents
- Unusual noises when the A/C is running
- Musty or unpleasant odors from the vents
- Windows fogging excessively
- A/C performance that changes while driving or idling

Ignoring these warning signs can allow small issues to turn into larger, more expensive repairs.

What Causes A/C Problems?

Your vehicle's air conditioning system is made up of several important components working together, including the compressor, condenser, evaporator, hoses, refrigerant, and cabin air filter. Over time, normal wear and tear can lead to:

- Refrigerant leaks
- Worn seals and hoses
- Compressor failure
- Clogged cabin air filters
- Moisture buildup and mold growth
- Electrical component issues

Even vehicles that seem to cool properly can slowly lose refrigerant over time, reducing system efficiency and putting extra strain on components.

The Importance of a Cabin Air Filter

One commonly overlooked maintenance item is the cabin air filter. This filter helps trap dust, pollen, dirt, and other airborne contaminants before they enter your vehicle's interior.

A dirty cabin air filter can restrict airflow, reduce cooling performance, and contribute to unpleasant odors inside the vehicle. Replacing it regularly helps improve both comfort and air quality for you and your passengers.

Preventative Maintenance Saves Money

Routine A/C inspections can help identify issues early before they lead to major repairs. During an air conditioning service, technicians may:

- Check refrigerant levels and pressures
- Inspect for leaks
- Test compressor operation
- Evaluate system performance
- Inspect belts and hoses
- Check cabin air filter condition
- Verify proper vent temperatures

Preventative maintenance not only helps extend the life of your A/C system, but it can also improve fuel efficiency by reducing unnecessary strain on the engine.

Stay Comfortable This Summer

Don't wait until the hottest day of the year to discover your air conditioning system isn't working properly. A quick inspection today can help ensure your vehicle stays cool, comfortable, and road-trip ready all season long.

If your vehicle's A/C isn't performing like it should, the team at Auto Select is here to help with professional inspections, maintenance, and repairs to keep you comfortable behind the wheel.

WE'RE PROUD TO SUPPORT

CHALLENGE the OUTDOORS
EST. 1998

Did you hear the latest rumor about butter?
Better not spread it!

The Indian restaurant I work for is so secretive about their recipes that they made me sign a naan disclosure agreement!

My bank keeps calling to compliment me...
They say I have an outstanding balance!

Why should you also knock on the refrigerator door before opening?
There could be a salad dressing inside.

RECIPE OF THE MONTH...

Reeses Pudding Pops

INGREDIENTS:

- One 5.1-ounce box instant vanilla pudding
- One 3.4-ounce box instant chocolate pudding
- 5 cups whole milk divided
- 8 ounces Reeses Peanut Butter Cup Minis

DIRECTIONS:

Make the vanilla and chocolate puddings, according to package instructions.

Transfer each pudding mixture to a pastry bag, and cut a small hole at the end. This is where you will squeeze the pudding through.

In your popsicle molds, layer chocolate pudding, vanilla pudding and mini Reeses. Repeat layering until the molds are filled. Insert a popsicle stick into each mold, and freeze until solid (at least 4 hours).

Submit your favorite recipe to marketing@autoselectonline.com, if we choose yours to publish next month, you'll win a free oil change!
