Aspirus Health, Stevens Point South

594 NEW CLIENTS THIS MONTH

CLIENT SATISFACTION

4.9 OUT OF 5 STARS!

Appleton East: Always a great experience coming here! Highly recommend if you don't have time or tools to work on your vehicle yourself. David K.

Green Bay East: Jeremy and his team at Auto Select are great they always can get me in and take care of any problems I have. They call with updates and make sure I am aware of the cost along the way. Jeff S.

Green Bay West: Always going above and beyond, they make it all easy and stress free. I come here for everything and wouldn't pick anything else. Phillip L.

Stevens Point South: These guys have been so great to me, they treated me like I've know them for years. The customer service they provide is beyond perfect. Any women that are nervous about getting their car fixed, go to these guys. They never let me down. Ann.

Shawano: We have been taking our vehicles to Auto Select in Shawano for the past 2 years. What a great shop! Their service is timely and professional. They do a great job of explaining what needs to be done and answering any questions. They are always sure to follow up to insure quality service and customer satisfaction. Brian J.

TRANSMISSION & DRIVELINE MAINTENANCE: PROTECT THE POWER THAT MOVES YOU

Your vehicle's transmission and driveline work together to transfer power from the engine to the wheels. When properly maintained, they help deliver smooth shifting, reliable performance, and long-term durability. When neglected, they can lead to costly repairs and unexpected breakdowns.

Why Transmission Maintenance Matters

- Keeps gear shifts smooth and responsive
- Reduces excessive heat and internal wear
- Helps prevent slipping, shuddering, or delayed engagement
- Extends the life of your transmission system

Trust Auto Select for Expert Care

At Auto Select, our certified technicians inspect, service, and maintain your transmission and driveline systems using manufacturer-recommended procedures. Preventive maintenance today can help you avoid major repairs tomorrow.

Over time, transmission fluid breaks down and becomes contaminated. Regular inspections and service help ensure your vehicle continues to operate the way it should.

Don't Overlook the Driveline

Your driveline includes components like driveshafts, CV joints, U-joints, and differentials. These parts are critical to safely delivering power to your wheels.

Routine driveline checks can:

- Identify worn or damaged joints before failure
- Reduce vibration, clunking noises, or pulling
- Prevent uneven tire wear
- Improve overall driving comfort and safety

Warning Signs to Watch For

If you notice any of the following, it's time to have your vehicle checked:

- Hard, delayed, or slipping shifts
- Grinding, whining, or clunking noises
- Vibrations when accelerating
- Fluid leaks under your vehicle

Schedule your inspection at any Auto Select location AND DRIVE WITH CONFIDENCE

Solution on back

I always carry a picture of my wife and kids in my wallet...
I do that to remind myself why there is no money in there!

I just saw three people jogging past my window... and it inspired me to get up... and close the blinds!

I drove by Legoland today...people were lined up for blocks!

I went to the doctor and he said, "Don't eat anything fatty... I said, "like burgers" and he said, "No fatty, don't eat anything!"

RECIPE OF THE MONTH...

Flourless Chocolate Cake

INGREDIENTS:

- 8 tbs (1 stick) unsalted butter, plus more for buttering the pan
- 8 oz bittersweet chocolate (not chips), chopped
- 3/4 cup sugar
- 1/3 cup unsweetened cocoa powder, plus more for dusting the cake
- 1/4 tsp fine salt
- 6 large eggs, separated
- Whipped cream, for serving

DIRECTIONS:

Preheat the oven to 325 degrees F and butter the inside of a spring-form pan. Melt the chocolate and butter in a medium saucepan over medium-low heat; stirring frequently until smooth. Stir in the sugar, cocoa powder and salt until all of the lumps are gone. Remove from the heat and let cool for a few minutes.

Meanwhile, beat the egg whites in a large bowl with an electric mixer on medium-high speed until they form stiff peaks, 2 to 3 minutes.

Stir the egg yolks into the cooled chocolate mixture, then stir in about a quarter of the whipped egg whites. Scrape this lightened chocolate mixture into the remaining whipped egg whites and gently fold until mostly combined (it's ok if there are some streaks of egg white). Pour into the prepared pan and bake until the center of the cake no longer wiggles, 40 to 45 minutes. Let cool completely in the pan, on a wire rack (the cake will deflate slightly). Unlock the pan and dust the top of the cake with some cocoa powder. Cut into slices and serve with whipped cream.

Submit your favorite recipe to marketing@autoselectonline.com, if we choose yours to publish next month, you'll win a free oil change!
