You're good to go!

GET YOUR VEHICLE READY FOR THE SEASON AHEAD

September is the month of transition—back to school, cooler mornings, and shorter days. While we're enjoying crisp air and colorful leaves here in Wisconsin, it's also the time when your vehicle needs extra attention.

Summer road trips, hot weather, and long drives have already put stress on your battery, tires, and fluids. Now's the perfect time to reset and prepare your car for the months ahead—before the first frost and slippery roads arrive.

At Auto Select, our ASE-certified technicians are ready to make sure your vehicle is safe, reliable, and road-ready this fall.

5 Essential September Car Care Tips

1. Test Your Battery

After a long, hot summer, many batteries are already weakened. Cooler September mornings are often when failures first show up. We'll test your battery to ensure it can handle the cold ahead.

2. Inspect Your Brakes

Back-to-school season means more stop-and-go traffic, crosswalks, and busy intersections. Combine that with damp roads from rain and falling leaves—your brakes need to be in top shape.

3. Check Your Tires

Temperature drops in September affect tire pressure. Proper inflation improves safety and fuel efficiency. A rotation and alignment this month can help extend tire life through the fall and into winter.

4. Improve Visibility

September brings shorter days and earlier sunsets. Make sure your headlights, brake lights, and wipers are all working perfectly—so you can see and be seen during those dark commutes.

5. Fluids & Cooling System

September's swings between warm afternoons and chilly nights mean your engine relies on a healthy cooling system. We'll check your antifreeze and all major fluids to keep your vehicle protected.

September Spotlight on 4-Wheel Drive & AWD Fluid Service

As fall weather shifts toward rain, mud, and soon snow, many drivers rely on their 4-wheel drive or all-wheel drive systems. But did you know these systems require special fluid maintenance to stay reliable?

- ✓ **Transfer Case Fluid** - Keeps gears lubricated and prevents overheating.
- ✓ **Differential Fluids** - Front and rear differentials transfer power to your wheels; fresh fluid protects against wear and grinding.
- ✓ **Signs You May Need Service:** humming or whining noises, difficulty engaging 4WD, or dark/dirty fluid.

Regular fluid inspection and replacement extends the life of these critical components and prevents costly repairs down the road. At Auto Select, we'll check your transfer case and differential fluids during your fall maintenance visit to make sure your 4WD system is ready for Wisconsin's toughest weather.

Client Satisfaction Rating **4.9** out of **5** Stars ★★★★★

Here's what our clients are saying...

Appleton East - My recent visit was very good. Great service is why I go to Auto Select. Auto Select is a place I would recommend and feel comfortable sending my wife or daughter for auto repair. Friendly people and what is done explained well. Thank you. *Darin C.*

Appleton Express - This was the best oil change I've ever had! Everyone was knowledgeable and extremely friendly! I will be a loyal customer for life! *Chantal M.*

Appleton North - Honest with the state of my car when I asked them to check something out, and did good work on other routine maintenance. *Hunter A.*

Neenah - They were great to work with. They researched my issue and came up with a great solution that was cost effective. Excellent work. *Duane F.*

Green Bay East - Wonderful place. I have gone there for many repairs on multiple vehicles and have never been disappointed. They are always honest, have accurate estimates, very quick, do not try to upsell you, and do great work. They are friendly and take time to honestly explain options. The kind of small/home town experience and feel they provide coupled with their honesty is what keeps me coming back. *Richard S.*

Green Bay West - AMAZING SERVICE! Had a turbo blow on my way to Door County towing a boat, Josh and his team got me in right away, provided a loaner and got my truck fixed the NEXT DAY! Communication was on point every step of the way and I never had to wonder what was going on with my truck. 10/10 highly recommend. *Teo R.*

Hortonville - I took my truck in for an alignment, they went above and beyond to find out what the problem was. The end result was liquid in the tires - I really appreciate their thoroughness. We have finally found a mechanic that we can trust! *Rob T.*

Stevens Point South - This place is great! Super friendly and communicative. I came in with an issue on my truck breaks and I also needed an alignment. Chris was super helpful explaining what the issue was, and even had the patience to let me get my dad on the other line so he could hear it too. I was nervous to take my truck in, even though it's somewhat of a beater I love my truck so much. These guys reassured me they would take good care of my truck, and that's exactly what they did. I will be back if my truck ever needs something again! Thank you again guys! *Brooke*

Stevens Point Express - Cordial and helpful staff, professional treatment of the vehicle, quality service and a quick turnaround. My car was making a concerning noise and they narrowed down the source and replaced the part, keeping me informed as they learned along the way. I felt like I knew what to expect and what was happening as well as they did. My recommended auto spot for south point. *Box N.*

Stevens Point East - AutoSelect on hwy 10 in Stevens Point is the best. Craig, Matt, Johnny and Jackson are always professional and courteous plus very fun. The guys at AutoSelect always explain to me what needs to be done and get me promptly back on the road. I highly recommend AutoSelect. *Cindy R.*

Shawano - Staff was very courteous. Very happy with the turnaround time. Was surprised to hear about the rewards program and the free roadside assistance. *Lori H.*

Weston - I've been going to Auto Select for many years. The very 1st time I went there I was met with mechanical knowledge, experience and professionalism. They had earned my trust early on when I needed some significant work done on my truck. They have always been honest when they notice something needs attention. The mechanics do excellent work! *Michelle S.*

BACK-TO-SCHOOL DRIVING TIPS

With kids back in class, roads are busier and school zones demand extra care. Keep these reminders in mind:

Slow down in school zones - Obey posted speed limits, especially during pick-up and drop-off times.

Watch for crossing guards and buses - Never pass a stopped school bus with its stop arm extended.

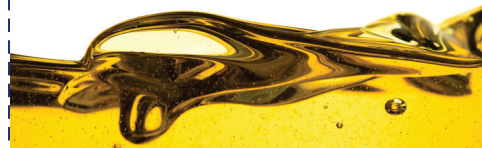

Be alert for young pedestrians & bikers - Children can be unpredictable - stay focused, no distractions.

Plan extra time - September commutes can be slower; leave earlier to reduce stress.

A little extra caution helps keep our communities safe this school year.
