- Weston | Todd & Robbi Green

FLEET ACCOUNT OF THE MONTH

Integrity Fire Protection, Shawano

690 NEW CLIENTS THIS MONTH

CLIENT SATISFACTION

4.9 OUT OF 5 STARS!

- Appleton Express** – The staff was awesome, very attentive and friendly and quick!! Great job!! Leroy C.
- Green Bay West** – I've had my car serviced by Auto Select twice now and both times were great experiences. I was kept updated on the work being done. Being able to drop my car off the night prior and pick up a loaner was extremely helpful so I could still get myself to work. Every person I've come into contact with at Auto Select has been very friendly and helpful. Debbie D
- Hortonville** – Had a great experience with the service I received. Prompt service, excellent communication AND the total ended up being less than quotes! Angela S.
- Stevens Point South** – 10/10- affordable, thorough, reliable, and quick. I called for a tire inspection and to have my alternator checked; they got me in the same week- as a new customer! After an inspection the mechanics found the issues and more and had it fixed asap. There was a cracked rim and they called immediately asking to replace it. They gave me a ride home when I dropped my car off and thoroughly explained everything that was getting fixed and why. My car runs like new! Very happy with the service here and will return. Elissa V.
- Weston** – Butch is amazing! Best place to get service in the area. Love this place. Becky N.

ROAD TRIP READY: TOWING & TRAVEL MAINTENANCE TIPS FOR A STRESS FREE JOURNEY

As travel season ramps up, many drivers are gearing up for road trips, camping adventures, and hauling boats, trailers, or recreational vehicles. Whether you're heading up north for the weekend or planning a cross-country getaway, making sure your vehicle is prepared for towing and long-distance travel is essential for safety, performance, and peace of mind.

Start with a Pre-Trip Inspection
Before hitting the road, a thorough vehicle inspection can help prevent breakdowns and costly repairs. Key areas to check include:

- ✓ **Brakes:** Towing adds extra stress to your braking system. Make sure pads, rotors, and brake fluid are in top condition.
- ✓ **Tires:** Inspect for proper tread depth, inflation, and any signs of uneven wear. Don't forget to check the spare!
- ✓ **Fluids:** Engine oil, coolant, transmission fluid, and brake fluid should all be clean and at proper levels.
- ✓ **Battery:** A weak battery can leave you stranded—especially when powering additional trailer lights or accessories.

Pay Attention to Suspension & Steering
Extra weight from towing can strain your suspension and steering components. If your vehicle feels unstable, bouncy, or difficult to control, it may be time to inspect shocks, struts, or alignment before your trip.

Plan for Fuel Efficiency & Driving Adjustments
Towing will impact your fuel economy and driving dynamics. Allow for:

- Longer stopping distances
 - Slower acceleration
 - Wider turns
 - Increased fuel stops
- Driving conservatively not only keeps you safe but also reduces wear and tear on your vehicle.

Don't Forget About Cooling
Towing puts additional heat load on your engine and transmission. Make sure your cooling system is in peak condition, and consider a transmission cooler if you frequently tow heavy loads.

Travel with Confidence
A little preparation goes a long way in ensuring a stress-free travel experience. Whether you're towing a camper, boat, or utility trailer, keeping your vehicle properly maintained helps protect your investment—and your adventure.

If you're unsure whether your vehicle is road-trip ready, stop in for a pre-trip inspection. It's a simple step that can make all the difference when you're miles from home.

Know Your Towing Capacity
Every vehicle has a manufacturer-recommended towing capacity. Exceeding this limit can lead to poor handling, overheating, and serious damage. Be sure you know:

- Your vehicle's maximum towing capacity
- The weight of your trailer and cargo
- Whether you need a weight-distribution hitch or brake controller

Check Your Towing Equipment
Safe towing starts with the right setup. Double-check:

- Hitch and ball mount are properly rated and secured
- Safety chains are crossed and connected
- Trailer lights and signals are fully functional
- Trailer brakes (if equipped) are working correctly

Safe travels and happy towing!

SUMMER TRAVELS

TOWING INSPECTION \$49.99

- Check trailer wiring
- Check trailer hitch condition
- Check axles, CV joints, U-joints
- Check steering & suspension
- Check all drive train conditions
- Check tire conditions & pressures
- Check brake system
- Check all belts & hoses

WE'RE PROUD TO SUPPORT
Our Local High Schools & 2026 Graduates

I was at a job interview when the hiring manager handed me a laptop and said "try to sell this to me"... So I took the laptop, left the interview and went home... Eventually he called me and said he wanted his laptop back, and I said \$500 and it's yours!

I asked an old timer I know, "after 60 years of marriage and you still call your wife darling, honey, love, What's the secret?" He said, "I forgot her name 10 years ago and I'm afraid to ask her what it is"

When you're speaking with Spanish speaking friends, remember to say "mucho" as much as possible. It means a lot to them!

RECIPE OF THE MONTH...

Salmon Baked in Foil

INGREDIENTS:

- 4 salmon fillets
- 2 teaspoons olive oil plus 2 tablespoons
- Salt and pepper

- 3 tomatoes, chopped, or 1 (14-ounce) can chopped tomatoes, drained
- 2 chopped shallots
- 2 tablespoons fresh lemon juice
- 1 teaspoon dried oregano
- 1 teaspoon dried thyme

DIRECTIONS:

Preheat the oven to 400 degrees F.

Sprinkle salmon with 2 teaspoons olive oil, salt, and pepper. Stir the tomatoes, shallots, 2 tablespoons of oil, lemon juice, oregano, thyme, salt and pepper in a medium bowl to blend.

Place a salmon fillet, oiled side down, atop a sheet of foil. Wrap the ends of the foil to form a spiral shape. Spoon the tomato mixture over the salmon. Fold the sides of the foil over the fish and tomato mixture, covering completely; seal the packets closed. Place the foil packet on a heavy large baking sheet. Repeat until all of the salmon have been individually wrapped in foil and placed on the baking sheet. Bake until the salmon is just cooked through, about 25 minutes. Using a large metal spatula, transfer the foil packets to plates and serve.

Submit your favorite recipe to marketing@autoselectionline.com, if we choose yours to publish next month, you'll win a free oil change!
