DAVIS EQUIPMENT CORPORATION

JOHNSTON, IA

This month, we are featuring WABA member **Davis Equipment Corporation**.

Davis Equipment Corporation is a family-owned fertilizer equipment dealer based in Iowa, proudly serving customers across Wisconsin, Minnesota, and Iowa. They provide high-quality fertilizer equipment, parts, and service for dry, liquid, and anhydrous ammonia applications.

With market-leading and innovative equipment, Davis Equipment Corporation is committed to delivering exceptional support and service to every customer.

Founded in 1964, the company is now led by the third generation of the Davis family. Since expanding into the Wisconsin market in 2000, their team of 25 dedicated employees has worked hard to earn the trust and satisfaction of WABA members.

Davis Equipment takes pride in building long-term relationships with customers by offering product lines they truly believe in, supported by parts and service departments that always act in the customer's best interest. They credit their family-owned roots for this customer-focused approach to doing business.

Davis Equipment Corporation's president, Joe Funkhouser, said, "Being a member of the Wisconsin Agri-Business Association allows us an extra channel to better understand industry trends in Wisconsin and how we can best support Wisconsin Agribusinesses. WABA does a great job pulling together those seeking to better the industry, and we're happy to be a part of that."
