BRASS PADLOCKS

A brass body padlock that has stormed on to the locksmith padlock market. This padlock has every attribute the modern locksmith needs, strength, size, versatility, ease of rekeying and good looks, while also being good value for money. Features include:

- changeable function from snap shut to key trapped and vice versa
- to order snap shut add 'C' to the code e. g 500XC
- to order key trapped add 'D' to the code e. g 500XD
- 1060 removable core cylinder which takes a 530 barrel thus offering numerous restricted keying options
- suits 6 pin C4 key
- option of purchasing with a Schlage style cylinder which is adaptable to fit Kaba & Abloy Disclock Pro
- available with a 530 cylinder for BiLock users
- no finishing or knocking in of pin hole plugs necessary
- three different material shackles being super hard molybdenum alloy, stainless steel and hardened steel
- three different shackle lengths of 25mm, 50mm and 76mm
- larger padlock body of 50mm x 55mm x 24mm giving the impression of receiving a more robust padlock
- suitable for screen printing with either reseller or customer details
- to order cylinders to suit see 1060 & 4530 cylinders in the cylinder section of this catalogue

Ordering Procedure for standard hardened shackle padlocks
