| #2                  |                 |

“The single greatest lesson the garden teaches is that our relationship to the planet need not be zero-sum, and that as long as the sun still shines and people still can plan and plant, think and do, we can, if we bother to try, find ways to provide for ourselves without diminishing the world.”

— Michael Pollan, The Omnivore's Dilemma: A Natural History of Four Meals

“The greatest fine art of the future will be the making of a comfortable living from a small piece of land.” — Abraham Lincoln
