# THE WHEEL GROUP

Established in 1969, The Wheel Group (TWG) stands as a distinguished manufacturer and distributor with over 45 years of prowess in the aftermarket automotive sector. Specializing in cutting-edge wheels, bumpers, and accessories, TWG is headquartered in Ontario, California, and operates a network of 17 distribution facilities strategically positioned in major cities across the US and Canada. Serving a broad international customer base spanning over forty countries, including Canada, Korea, Japan, Indonesia, and Australia, TWG is committed to delivering the latest and most innovative products to the dynamic enthusiast market. Our seasoned development and engineering teams work diligently to bring forth the most exciting and forward-thinking solutions. With pride, TWG distributes sixteen proprietary brands, comprising nine wheel brands, six accessory brands, and our own distinguished tire brand.

Welcome to the exhilarating world of Dirty Life Race Wheels, where the passion for off-roading meets the rugged spirit of adventure. From the heart-pounding action of Ultra4 and NorCal Rock Racing to the grueling challenges of Score International and NORRA races, Dirty Life Race Wheels has become synonymous with toughness and durability in the realm of off-road racing. Drawing enthusiasts from all walks of life, these wheels are designed to withstand the harshest conditions.

Buckle up, because when we dive into the world of Dirty Life Race Wheels, it's not just about the pursuit of tough terrains—it's a no-holds-barred, relentless assault on every challenge. These wheels are more than just metal; they're the pulse of relentless determination, where the spirit of adventure becomes an unwavering companion on every trip. In the realm of Dirty Life Race Wheels, we don't just explore—we conquer, and we do it with a ferocity that echoes the enduring bonds of family and the unyielding thrill of exploration.

# DUAL TEK

## BEADLOCK

# NO LIMITS WITH DUAL-TEK TECHNOLOGY

At the heart of our Dual-Tek Wheels lies a groundbreaking technology that sets them apart. These wheels feature a dual-beadlock design, combining the best of both worlds. The inner beadlock ensures tire retention and stability, even under extreme conditions, while the outer beadlock adds an extra layer of security, making tire failure practically non-existent.

## Simulated Ring For Street Use Only

While DLRW Dual-Tek Wheels are engineered for strength and functionality, they don't compromise on street style. The distinctive design of the Dual-Tek Simulated beadlock, characterized by aggressive aesthetics and attention to detail, adds a touch of flair to your off-road rig, allowing you to still have your great off-road look while staying street legal.

## Forged Beadlock Race Ring For Off-Road use Only

DLRW Beadlock racing wheels are designed primarily for off-road and racing applications. The DLRW Beadlock ring is clamped and bolted to the wheel's outer edge that securely holds the tire bead (the inner edge of the tire) in place to keep your tires from "unseating" or coming off the wheel during off-roading, rock crawling and extreme race conditions where low tire pressures is used for better traction.

## CONTROL EVERY TERRAIN

AMP Tires caters to off-road enthusiasts who require high-traction tires that maintain their grip on various road conditions. These customers prioritize durability, reliability, traction, and all-season performance. AMP gives them better value for these than the larger national brands. AMP customers push the limits of their vehicles and need tires that they can rely on to get through a wide variety of environments and terrain.

ARRIVING SPRING 2024

# THE TERRAIN ATTACK R/T

Designed for the true off-road enthusiast, the Terrain Attack R/T is engineered to conquer the toughest terrains with ease, delivering exceptional performance and durability, without compromising on-road comfort.

## 2 SIDEWALL DESIGNS. SAME OPTIMAL PERFORMANCE.

The Terrain Attack R/T features two unique sidewall designs, allowing for further vehicle customization.

**SIDEWALL 1**

A rugged, pocketed block design with varying heights combines style and exceptional off-road performance.

**SIDEWALL 2**

A dynamic stepped V-pattern, along with integrated Amp "A" tread blocks, generates numerous gripping edges along the sidewall.

## WHAT MAKES THE TERRAIN ATTACK R/T SUPERIOR?

### OFF-ROAD TRACTION

Stone ejectors channel away water, mud, rocks, & other debris to maintain maximum grip and performance.

### ALL-SEASON PERFORMANCE

Large, open shoulder blocks greatly improve off-road traction and enhance grip in extreme weather conditions.

### LONG-LASTING DURABILITY

Staggered sidewall provides protection against punctures and abrasions in harsh environments.

### WIDE CONTACT CENTER PATCH

AMP Tires' hybrid tread pattern is designed with versatility in mind. The wide contact center patch increases surface coverage on any terrain, while providing longer tread life and a quiet and smooth ride on the road.

### VARIABLE PITCH TREAD PATTERN

Innovative tread design optimizes road contact, reduces road noise, and enhances overall performance.

# TERRAIN ATTACK A/T P

The all-new AMP Terrain Pro A/T delivers a longer tread life and withstands demanding environments. With deep, multi-function tread grooves it provides enhanced traction in a wide variety of conditions while delivering a smooth and controlled ride. With a broad selection of sizing and a 60,000 mi tread life warranty, drive the Terrain Pro A/T to be the leader of the pack.

## PERFORMANCE RATINGS

DRY SURFACE

WET SURFACE

RIDE COMFORT

TREAD LIFE

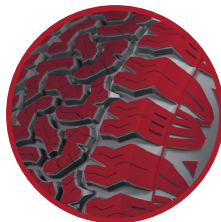

OFF-ROAD  
PERFORMANCE

### PERFORMANCE TREAD DESIGN

Stepped tread blocks allow more stable control and multidirectional sipes create greater traction in snow.

### OFF-ROAD PERFORMANCE

Advanced compound prevents chipping and delivers a longer tread life with more consistent contact surface to deliver a smooth and controlled ride.

### STEEP TREAD DEPTH

Deep grooves and rock ejectors keep tread grooves free of mud, snow, dirt and gravel while mitigating possible punctures

### TWIN-LUG SIDEWALL

Unique "twin peaks" sidewall and open shoulder design deliver assertive performance in every condition and help evacuate water, mud and snow for improved traction.

# MUD TERRAIN ATTACK M/T A

The AMP Terrain Attack M/T is designed to perform in the most extreme conditions while offering improved grip and handling for better on-road performance. The 3-ply "A" logo sidewall provides biting edges and outstanding grip in mud, rock, sand, snow and more. A full range of sizes up to 38 inches tall, the Terrain Attack M/T will conquer anything in its path.

## PERFORMANCE RATINGS

### PERFORMANCE TREAD DESIGN

The deep sipes and distinct channel design significantly increase traction in wet conditions.

### OFF-ROAD PERFORMANCE

The unique shoulder design features a staggered tread block that provides reliable grip in unreliable terrain and consistent traction for better on road performance.

### AGGRESSIVE TREAD

The tread pattern is aggressively designed to remove mud, dirt, snow and debris while keeping continuous contact for superior off road traction and better on-road control.

### TWIN-LUG SIDEWALL

Reinforced sidewall boasts "A" logo lug design which provides dynamic biting edges to maintain grip through the most extreme conditions or when airing down tires.

## ALPINE SERIES

### ALUMINUM HARD SHELL TENT

Sleeps

**ALPINE FIFTYONE**  
SKU TS-1-1800BLK

Sleeps

**ALPINE SIXTYONE**  
SKU TS-1-1900BLK

The Alpine Roof Top Tent features a dual-action opening roof. Open the rear section of the tent for a wedge or open the front section for a full pop-up and additional windows with screens. One person can deploy the Alpine in one minute for quick & easy setup and pack down!

The Alpine is constructed with durable antibacterial waterproof, high tear resistance, and stronger tensile than normal roof top tent fabric. The Alpine is our ultimate aluminum roof top tent that can withstand the elements for 4 season camping!

- Gas struts allow for dual action opening roof (wedge or pop-up option)
- Roof rack on top of tent (great for kayaks, bikes, and gear)
- Blackout coated fabric (full-screen room with 360-degree visibility to full dark room)
- T-Slot using standard M8 hardware surrounding exterior of tent, 4 T-Slot rails in total (mount awnings, shower tents, water supplies, etc. directly to tent)
- Under 8" slim profile when packed up and latched (excludes additional roof rack height)
- 3 Entryway options based on build (passenger side, driver side, rear)
- Window awnings (removable)
- Mounting hardware & brackets for installation (fits up to 3.25" vehicle cross bars)
- 2.75" thick Memory Foam mattress
- Telescoping ladder with angled steps (will not bite into your arches!)
- Interior LED Light Strip (requires power from a USB power pack, not included)
- Annex room not included, but available soon
- Available in two sizes, the Alpine Fiftyone (51" PN: TS-1-1800BLK) and the SixtyOne (61" PN: TS-1-1900BLK)
- Compatible with the **Alpine Mounting Brackets** (PN: TS-3-1000), now available!

# ALPHA SERIES ROOF TOP TENTS

## TUFF AIR PORTABLE AIR COMPRESSOR

Stay prepared on the road with the all-new Tuff Air Portable Air Compressor. Rugged and compact, the Tuff Air is the perfect accessory to take for every adventure.

- 5.65CFM air intake
- Heavy duty 12V motor
- 40 min @ 40PSI duty cycle
- Anti-vibration base
- 150PSI pressure gauge built directly into the coiled hose
- 10' insulated power cord with heavy duty alligator clips
- Stealth black powder coated metal cover
- Includes 26ft Coiled Hose, 150PSI Pressure Gauge, 3 Universal Nozzle Adapters For Inflatables, & Storage Bag

## ANTIWEAR LUG NUTS WITH 18-POINT CONTACT

Our patented Antiwear Lug Nuts with 18-Point Contact is engineered to allow the inside of sockets to make 18 points of contact instead of the traditional 6. The increase in contact points lead to better torque distribution during installations and significantly reduces the risk of stripping lugs. No stripped lugs, no rust or corrosion. Our lugs are designed to last you a lifetime under proper care.

## AEROSPACE COATING

Our patented Neoshield aerospace coating adds an additional layer of protection against rust and corrosion. We use aerospace nanotechnology to add a special coating which minimizes surface pores on our metals. This leads to a smoother, shinier, and significantly more durable finish. Our cutting edge aerospace nanotechnology allows our lugs to hold up untarnished in 300+ hour salt spray testing. This is the last lug nut you will ever use.

## INSTALL KITS

- Need a whole set? Get what you need for any wheel installation with our install kits
- Available in a variety of quantities from 16 to 32 lug nuts
- 1 key included for install

## BILLET HUB CENTRIC ADAPTER

- Made from 6061-T6 aircraft grade billet aluminum
- Black anodized corrosion resistant finish
- Carbon steel heat treated studs for added strength
- Hub Centric Adapter made for a precise fit
- Provides increased wheel and tire clearance

## PRO WRENCH

- Telescopic performance lug wrench
- Extends up to 21" for maximum leverage
- Patented locking mechanism
- Thin wall dual socket designs
- Pouch included for safe keeping
- Limited lifetime warranty

## The Ultimate TPMS Solution

GEN 4

### MAX SELECT PRO TPMS SENSORS

**Aluminum Stem**  
PN: MXSA002

**Rubber Stem**  
PN: MXSR002

#### Most Vehicle Coverage

- 99.5% Vehicle Coverage, Including New Year Models
- 6-Month New Protocol Release

#### New Antenna Design

- Increased Signal Strength
- Optimized Auto-Relearn Time
- Compatible with 37"+ and F-Rated Tires

#### #1 Customer Support

- Lifetime Technical & License Support
- Lifetime Tool Service, plus 1-Year Factory Warranty\*

\*Screen damage is not included on Tool Service or Warranty

NOW AVAILABLE IN  
**CANADA**

MEET THE ALL-NEW

**MAX BLE**  
SENSOR

Bluetooth Sensor For **TESLA**

The ultimate TPMS solution for Tesla. OTA-ready (over-the-air), extended battery life, and unbeatable quality. The #1 choice for your Tesla.

**Compatible with 2021+ Model Y, Refresh Model 3, Model S, and X Vehicles**  
*Limited Availability\**

GEN 4

### TPMS PROGRAMMING & DIAGNOSTIC TOOL

PN: VT57

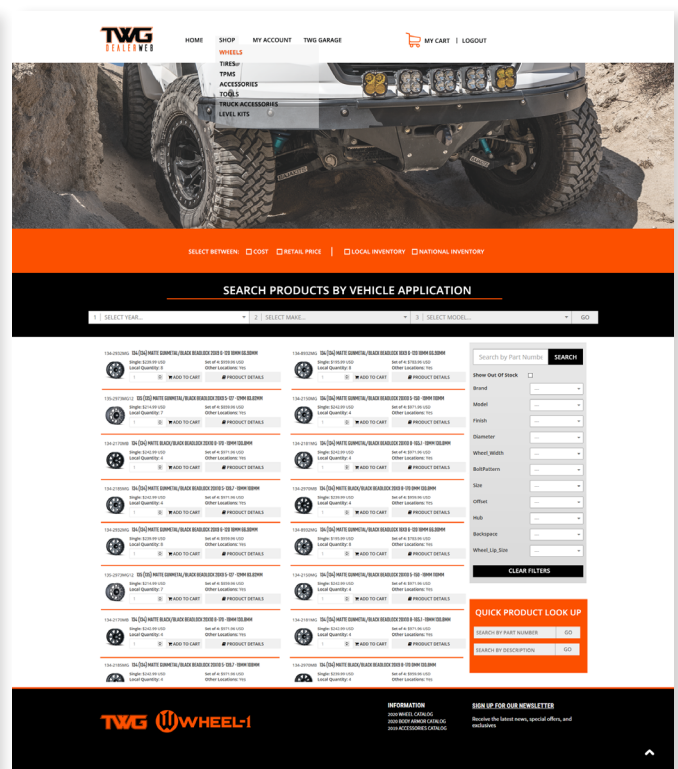

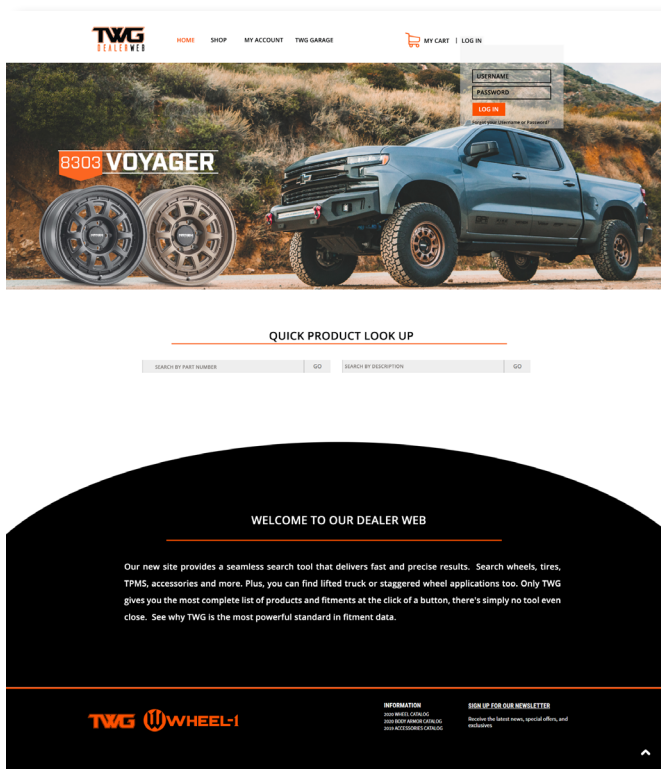

#### FEATURES

- 4.3" touchscreen
- Programs All aftermarket sensors
- Built-in 2D barcode reader for VIN decoding
- Software update via Wi-Fi
- Real-time support to aftermarket sensor update
- Tire placard value adjustment
- 100% OEM RF type OEM sensor diagnostics
- Reset 90% of vehicles via OBDII
- Touchscreen enables fast navigations on tool
- Intuitive Icon-based software flow
- Built-in TPMS relearn procedures
- Provides TPMS sensor and service kit P/N lookup
- Tests key FOB signal strength
- Programs multiple sensors at the same time
- Built-in BLE technology to serve new technology

# DEALER WEB

Visit our portal for dealers online at [dealers.thewheelgroup.com](https://dealers.thewheelgroup.com) to save time with efficient features.

Access our live local and national inventories at your convenience.

Cutting-edge tools to filter products and narrow your search.

24/7 online support and access to your orders and shipments.

Improved shopping cart feature for seamless ordering experience.
