SLATE IMPRESSION CONCRETE EDGING

Kwik Kerb, the world leader in continuous concrete edging have released Eurostyle Slate Impression, an innovative new alternative.

Eurostyle Slate Impression garden edging uses the exclusive Kwik Color process to create a prestigious, long-lasting appearance. Kwik Color is superior to painted finishes as it is actually part of the concrete.

Eurostyle is available in a variety of patterns incorporating the Kwik Color and Stone texture process.

Each creation is a unique colored and hand-finished result which provides individuality to your garden.

garden edging with
prestige appearance”***

* Colours representative of available range

These patterns combine with Eurostyle's exclusive impregnated color and stone texture finish, to give your concrete edging the visual appeal and lasting beauty of slate.

LONG LIFE, DURABLE FINISHES

Eurostyle Slate Impression Edging is a unique process which results in a high quality hardened permanent color finish, sealed to give a durable stain resistant gloss finish to your concrete edging.
