RESPIRATORY SOLUTIONS

3M™ REUSABLE FULL FACE RESPIRATORS

7500 Series • 6100 Series • 6200 Series • 6300 Series

7500 Series

6000 Series

RECOMMENDED APPLICATIONS:

Assembly and Mechanical	Machining
Chemical Clean-up & Handling	Masonry
Chipping & Chiseling	Painting
Cleaning	Pouring/Casting
Furnace Operations	Sanding
Grinding	Sawing
Laboratories	Welding

- For workplace/occupational use only.
- Sizes are color coded for easy identification.

7500 Series

- This series combines comfort and convenience.
- Comfortable soft, lightweight facepiece with easy-to-adjust head straps.
- NIOSH approved for negative pressure air purifying and supplied air dual airline applications.
- Can be disassembled, cleaned and reused.
- Replaceable cartridges and filters allow reuse of facepiece for cost savings.

6100, 6200 & 6300 Series

- Advance silicone material for increased comfort and greater durability.
- Proprietary 3M™ Cool Flow™ valve helps makes breathing easier.
- Dual-mode head harness adjusts for either standard or drop-down mode.
- Exhalation valve cover directs exhaled breath and moisture downward to reduce fogging.
- Drop-down feature allows the respirator to be taken off in a non-contaminated area without having to remove a hard hat.

We carry a wide variety of 3M™ respiratory solutions!

Contact your sales representative, or scan the adjacent code.

Food Manufacturing & Processing	Marine
Food Safety	Mining
Heavy Industrial	Pharmaceutical
Industrial Maintenance	Transportation

RECOMMENDED APPLICATIONS:

Assembly & Mechanical	Laboratories
Chemical Clean-up & Handling	Machining
Chemical Splash	Masonry
Chipping & Chiseling	Painting & Paint Preparation
Cleaning	Pouring/Casting
Composite Finishing	Sanding
Final Finish	Sawing
Furnace Operations	UV Protection
Grinding	Welding

**For fit testing requirements,
please call your local branch.**

- Large lens provides a wide field of view for excellent visibility.
- Silicone full facepiece design offers comfort, durability and ease of cleaning.
- 3M™ Cool Flow Valve makes breathing easier.
- Passive speaking diaphragm enhances communications.
- Use with 3M™ Particle Filters 2000, 2200, 7000, or 5000 Series to help filter certain particulates.
- Use with 3M™ 6000 Series Gas/Vapor Cartridges to help filter a broad range of gases and vapors.
- Use with 3M™ 6000 Series Combination Cartridges to help filter particulates in addition to gases and vapors.
- Compatible with 3M™ TR-600 and TR-800 powered air and Dual Airline supplied air systems.
- Head cradle helps reduce pressure points & hair pulling.
- For workplace/occupational use only.

Ultimate FX Reusable Full Face Respirators

- Scotchgard protection paint and stain resistant lens cause some liquids to bead up so they can be wiped off easily.

EYE PROTECTION SOLUTIONS

3M™ 3700 OTG SERIES EYE PROTECTION

With Scotchgard Anti-Fog, Anti-Scratch Coating

Adjustable Ratchet Temples
Multiple position ratchet allows user to adjust lens for facial features and eyeglass position.

Pressure Diffusion Temple (PDT) Technology
3M patented technology that helps diffuse pressure over the ear for a secure, comfortable fit.

Brow Guard
Contoured brow guard rests comfortably against forehead and helps provide additional coverage from particles. (Select Models)

Same Protection, New IR Lens Color
Unlike green IR shade lenses, gray IR lenses provide wearer with better color recognition. (Select Models)

Alternate Fit
Adjusted lens angle and soft nose bridge designed to help accommodate tall cheekbone structure and low nose bridge height. (Select Models)

Polycarbonate Lenses

- Absorb 99.9% of UVA and UVB rays.
- Meet the requirements of ANSI Z87.1-2015 Standard as an Impact Rated Spectacle.

Two Coating Options (Model Dependent):
Anti-Scratch Coating

- Many prescription eyeglasses do not have anti-fog coating on the lenses, therefore some workers may prefer our less expensive standard anti-scratch coating.

3M™ Scotchgard™ Anti-Fog Coating

- Scotchgard™ Anti-Fog Coating resists fogging longer than traditional anti-fog coatings, up to 25 washes with water*.
- Helps provide durable scratch resistance in tough work environments.

Scotchgard

*3M internal testing per EN168 test method when compared with traditional anti-fog coatings.

- The 3M™ innovative temple design features slotted ribs that provide comfortable pressure equalization, allowing the temples to flex and self-adjust to the size of the wearer's head.
- Curved temples apply pressure to the less sensitive back of the head, instead of the temples, achieving a comfortable fit even during rapid head movement.
- Adjustable ratchet temples allows user to adjust lens for facial features and eyeglass position.
- Soft one-piece nose bridge.
- Optional contoured brow guard.
- U6 rated polycarbonate lenses absorb 99.9% of UVA, UVB, and UVC rays between 200 nm and 380 nm.
- Workers can feel confident wearing 3M™ eye protection that meets the Impact-Rated Protector requirement of the ANSI-ISEA Z87.1 Standard.

Let us help you identify the right pair of glasses for your job and application

Contact your local A&M safety specialists for assistance, or see our website for an extensive selection of 3M™ Protective Eyewear.

Features and Lens Colors:

3M™ Pressure Diffusion Temple Technology

Eyewear temples self-adjust to a wide range of head sizes, diffusing pressure over the ear and enhancing comfort.

Adjustable Ratchet Temples

Adjusts the pantoscopic tilt of the lens to help accommodate cheek bone height and improve comfort and fit.

3M™ Scotchgard™ Protector Anti-Fog Coating

Lasts longer than traditional anti-fog coatings and remains effective for up to 25 washings with water. Coating is tested to EN168 N & K for anti-fog and anti-scratch.

Brow Guard

Additional top coverage during impact and leaves room to help airflow.

Foam Gasket

Helps limit eye exposure to debris but not as tight as a goggle.

Goggles

Designed to seal to the face. Can be splash/droplet, dust and/or fine dust rated.

Cord Control System (CCS)

Designed to keep eyewear and earplugs attached, untangled and ready to use.

Lens Colors & Functions

CLEAR

Highest visual acuity and color recognition

POLARIZED

Reduces overall brightness, glare and reflected light

VERMILION

Helps improve visual acuity and contrast

GRAY

Reduces overall brightness of visible light

BROWN

Reduces overall brightness, typically allowing color recognition

BLUE

(excl. "sodium blue")
Reduces brightness and glare from yellow light sources. Not intended for use in glass blowing.

INDOOR/OUTDOOR

Slightly reduces overall brightness of visible light

AMBER

Increases contrast by filtering hazy and blue-colored light

INFRARED FILTERS

Reduces infrared radiation

PHOTOCHROMIC

Darkens when exposed to UV light (outdoors) and lightens when UV light is reduced (indoors)

ORANGE

Reduces blue light in specific applications, e.g., blue light curing

MIRRORED

Reflects light sources, helping reduce brightness

Ear plug care & usage tips

A&M Industrial carries a wide selection of 3M™ Hearing Protection Solutions.

Contact our expert safety team for assistance with selecting the best hearing protection and PPE for your facility or application.

Type	Description	How To Use	Care & Cleaning
 Foam Plugs	Foam Plugs, made from expandable, slow recovery foam, provide the best combination of comfort and protection for most users. They must be properly prepared for insertion. One size fits most. Once in the ear, foam plugs expand to provide a snug and secure, custom fit. The two most common complaints about foam plugs ('not enough protection' and 'they don't stay in') are almost always solved by greater practice and care in insertion.	Slowly roll and compress foam plugs into a very thin crease-free cylinder. While compressed, insert plug well into the ear canal. Fitting is easier if you reach around the head to pull the ear outward and upward during insertion. 	Keep the plugs clean and free from material that can irritate the ear canal. Plugs may be washed in mild liquid detergent and warm water. Squeeze excess water from the plugs and allow to fully air dry. Washing may be repeated several times. Discard plugs if they change in appearance or firmness, or do not re-expand to the original size and shape. 
 Pre Molded Plugs	Pre-molded plugs are made from flexible materials that are preformed to fit the ear. They are generally available with an adjoining cord to prevent loss. Although the version pictured at left is a one size product, many pre-molded plugs are sold in two or more sizes and must be individually sized for each ear. If after a period of regular wear, you've been on able to get used to your earplugs, try another size, type, or hearing protection brand.	Reach around the back of your head and pull outward and upward on the ear while inserting the plug until you feel it sealing. This may seem tight at first, especially if you've never worn earplugs. Carefully twist the plug to break the seal for a slow and safe removal. 	Pre-molded plugs will normally last several months or more, depending upon the type and the environmental factors. They should be replaced if they shrink or swell, harden or soften, tear, crack, or become permanently deformed. Wash them in warm, soapy water and rinse well when dry. Store them in a carrying case. 

HEARING PROTECTION

3M™ E-A-R™ CLASSIC™ EARPLUGS

310-1001 • Uncorded • Pillow Pack • 200 Pair/Box

- Proprietary soft, slow-recovery foam is comfortable and helps with earplug fitting.
- Moisture-resistant foam.
- Dispenser packaging option available for uncorded earplugs.
- Pillow pack option for storage of earplugs between uses.
- Compatible with the 3M™ E-A-Rfit™ Validation System.
- Features a Noise Reduction Rating (NRR)* of 29 dB.
- CSA Class AL.
- Case quantity: 2000 pair/case

ORDER #	STYLE	MFR #	QUANTITY	PRICE PER BOX
31090	Uncorded	7000002299	200 Pair/Box	\$39.42

3M™ E-A-Rsoft™ FX™ EARPLUGS

312-1261 • Uncorded • Poly Bag • 200 Pair/Box

- Features a bell shape made of soft, slow-recovery foam for a comfortable fit.
- Flared end helps with easier removal.
- Dispenser packaging option available for uncorded earplugs.
- Compatible with the 3M™ E-A-Rfit™ Validation System.
- Features the 3M™ maximum noise reduction rating (NRR)*: 33 dB
- CSA Class AL.
- Case quantity: 2000 pair/case

ORDER #	STYLE	MFR #	QUANTITY	PRICE PER BOX
621528	Uncorded	7000029951	200 Pair/Box	\$34.83

3M™ FOAM EARPLUGS

1100 • Uncorded • 200 Pair/Box

- Soft foam helps conform to the shape of the ear canal for a comfortable, snug fit.
- Dispenser packaging option available for uncorded earplugs.
- One size fits most.
- Compatible with the 3M™ E-A-Rfit™ Validation System.
- Noise reduction rating (NRR)*: 29 dB
- CSA Class AL.
- Case quantity: 1000 pair/case

ORDER #	STYLE	MFR #	QUANTITY	PRICE PER BOX
3903414	Uncorded	7100099847	200 Pair/Box	\$30.24

3M™ E-A-R™ ULTRAFIT™ 27 EARPLUGS

340-8002 • Corded • 100 Pair/Box

- Ergonomic pistol grip for an easier fit.
- Triple-flange provides proven protection without rolling or touching plug during insertion.
- Conforms well to the ear's natural oval shape.
- Washable and reusable.
- Corded earplugs
- Noise Reduction Rating (NRR)*: 27 dB.
- CSA Class AL.
- Case quantity: 400 pair/case

ORDER #	STYLE	MFR #	QUANTITY	PRICE PER BOX
4758489	Corded	7000127188	100 Pair/Box	\$218.70

3M™ PUSH-INS™ EARPLUGS

318-1003 • Corded • Poly Bag • 100 Pair/Box

- Hold the flexible fitting stem to insert the ear tip and help keep it clean longer even when hands are dirty.
- Smooth surface of soft E-A-Rform™ foam ear tip helps the ear tip slide into place for a comfortable fit.
- Available with or without cords to suit user preference.
- Compatible with the 3M™ E-A-Rfit™ Validation System.
- Noise reduction rating (NRR)*: 28 dB
- CSA Class AL.
- Case quantity: 2000 pair/case

ORDER #	STYLE	MFR #	QUANTITY	PRICE PER BOX
4649574	Uncorded	7000052723	100 Pair/Box	\$128.52

* U.S. EPA specifies the NRR as the measure of hearing protector noise reduction. However, 3M makes no warranties as to the suitability of the NRR for this purpose. 3M strongly recommends personal fit testing of hearing protectors. Research suggests that users may receive less noise reduction than indicated by the attenuation label value(s) on the packaging due to variation in fit, fitting skill, and motivation of the user. Refer to applicable regulations or guidance on how to adjust attenuation label values. It is recommended that the NRR be reduced by 50% to better estimate typical protection.
