## A SAFER SHOP & FACILITY

Our team of safety experts can partner with you to evaluate the safety of your facility and to perform over a dozen services, including Respirator Fit Testing and Logout Tagout. To learn more or to request a safety service, simply scan the adjacent QR code.

## ALTAIR® SINGLE-GAS DETECTOR

**MSA** The Safety Company

Designed for superior lifespan and high performance, with patented sensors that operate for over two years, the ALTAIR® Single-Gas Detector is the smart choice for market-leading, cost-effective gas monitors. These units feature sensor options for carbon monoxide, hydrogen sulfide, and oxygen, coupled with LED/audible/vibrating alarms.

- Patented electrochemical sensors and MSA-built button sensors.
- Stainless steel and solid electrolyte construction virtually eliminate sensor leakage.
- Automatically records the last 25 alarm/test events and can communicate data by connecting to MSA Link via built-in IR communication port.
- No-miss triple alarm system includes bright flashing LEDs, piercing audible alarm, and an internal vibrating alarm.
- Rubberized armor housing and one-button operation for maximum durability and simplicity.

## ALTAIR® 4XR MULTIGAS DETECTOR
### Outfitted With Rapid-Response MSA XCell® Sensors

**MSA** The Safety Company

- Survives 25 drops from 4 feet (1.2 meters) (MIL-STD-810G 516.6 Transit Drop 3rd Party Certified).
- Can survive an incidental 25-foot (7.5m) drop onto concrete.
- Operating temperature range: -40°F to +140°F (-40°C to +60°C)
- 4-year instrument & sensor warranty.
- Confirm compliance quickly with the Bump LED & on-screen check mark.
- Sense gas 2 times faster with our XCell® sensor.
- Bump and calibrate with 1/2 the test gas and in 1/2 the time vs. industry average.
- Bump and calibrate at a specified "Time of Day" with your MSA GALAXY® GX2 Automated Test System.
- MotionAlert tells others if user is immobile.
- User-activated InstantAlert notifies others of a potentially dangerous situation.

## ALTAIR® 5X MULTIGAS DETECTOR

**MSA** The Safety Company

### Measures Up To 6 Gases Including Natural Gas • Now Available With A PID Detector

- Capable of measuring up to 6 gases simultaneously and is now available with integrated PID sensor for VOC detection.
- MSA XCell® Sensor Technology delivers faster response time, better accuracy, longer service life and cost savings.
- Detects combustible gases in LEL and/or volume percentage range, oxygen, carbon monoxide, carbon dioxide, hydrogen sulfide, sulfur dioxide, ammonia, chlorine, VOCs and many others depending upon sensor configuration.
- Polycarbonate housing provides durability, including ability to survive 10-foot (3m) drop; IP65-certified.
- Field-proven integral pump provides consistent gas flow, eliminating concerns of externally-attached components.
- High performance XCell® Sensors last longer: typical life greater than 4 years for combustible, O2, CO/H2S, SO2, CO/NO2 and CO (high concentration) sensors; typical life greater than 3 years for NH3 and Cl2 sensors
- Less calibration gas used: requires about half of test gas typically used for calibration and bump tests

- Rapid bump test gives results in less than 10 seconds for most common sensor configurations.
- Most sensor response and clear times <15 seconds.
- Span calibration time of 60 seconds for most common sensor configurations.
- MotionAlert feature option tells others that user has become immobile.
- InstantAlert feature provides manual alarm to alert others as to a potentially hazardous situation.
- PID option allows for accurate, reliable VOC response with programmable reference factors.
- Large buttons and bright display provide easy operation, even when users wear gloves.
- Exclusive end-of-sensor warning cautions users when unit's sensor nears end-of-life.
- Versatile MSA Link™ Software allows users to transmit data to a computer.
- Compatible with GALAXY® GX2 Test System.

## GALAXY® GX2 AUTOMATED TEST SYSTEM
Provides Automated Calibration Of MSA ALTAIR® Gas Detector Fleet

- Provides simple, intelligent testing and calibration of ALTAIR® 2X Single-Gas Detectors and ALTAIR® 4XR and ALTAIR® 5X Multigas Detectors.
- Easy-to-use automated test stand offers high performance as either stand-alone unit or integrated portable detector management system, enabling total data access and control of the MSA ALTAIR family Gas Detector fleet.
- Color touchscreen for ease of setup and viewing
- Extremely simple to use; testing starts automatically without touching a single button.
- Simultaneous testing of up to ten instruments.
- GALAXY GX2 System is optimized for use with MSA's XCell® Sensors; provides up to 50% cost of ownership reduction.
- At-a-glance indicators include low calibration gas volume, expiration warnings and test stand status.

## REGULATORS
Choose From Gas Miser™ Demand Regulator Or Fixed Flow Regulator

- Regulators are used to ensure you receive the required flow of calibration gas for your application. Based on the cost-efficient design of its diffusion based gas detectors, MSA is able to use 0,25 LPM regulators. This save users' money by delivering calibration test gas at a low rate of 0,25 LPM versus 0,50 LPM which is the market standard.

**Gas Miser™ Demand Regulator**
- No need to manually open or close a valve or accurate calibration once attached to the calibration cylinder, the Gas Miser™ Regulator is designed for use with pumped instruments and supplies the exact gas flow for the instrument pump.
- Calibration tubing: polyurethane tubing for use with calibration equipment

- No ON/OFF valve is necessary because the regulator automatically turns itself off when not in use, simplifying the test and calibration process and saving calibration gas
- Recommended for pumped instruments.

**Fixed Flow Regulator**
- Fixed flow design provides constant and accurate flow to the gas detector.

## G1 INDUSTRIAL SCBA

**MSA** The Safety Company

The G1 Industrial SCBA contains many unique design features that reduce stress and fatigue while improving performance and ease of maintenance. The new G1 iRC (industrial remote cylinder connection) version allows for cylinder compatibility among other MSA SCBA such as the G1 NFPA, Airhawk 2 and Firehawk M7.

### G1 Facepiece
- Wide field of view for increased visibility.
- Cross-contamination feature prevents exhaled air from entering mask mounted regulator.
- Open-port design provides low breathing resistance, on or off air.

### G1 Carrier And Harness Assembly
- Removable soft goods for easy cleaning and maintenance.
- Nanosphere coated shoulder straps improve resistance to water and chemical exposure.
- Shoulder pad placement reduces twisting, improving comfort and ease of donning.

## OPTREL® PAPR FOR WELDING AND GRINDING
### A PAPR Kit With The Latest In Welding Safety

**MSA** The Safety Company

Introducing the Optrel® Helix Pure Air and Clearmaxx Powered Air Purifying Respirators (PAPR). This lightweight PAPR features 3 blower speeds with low flow and low battery alarms. The NIOSH approved type HE/HEPA filter can be easily integrated with prefilters to extend the life of the HE filter. The optional Mountain Breeze system mitigates Nuisance Level odors and ozone. The Helix CLT PAPR welding helmet is a fully integrated slide-up welding helmet with auto-darkening filter (ADF) ranging from shades 4-12. The internal welding visor allows for welding and grinding while maintaining the same low profile for access in wide range of welding conditions and spaces.

- Helix Pure Air fully integrated PAPR welding helmet with auto darkening filter. Integral slide up visor provides two positions for welding and clear view for other work.
- Clearmaxx Air PAPR grinding shield to provide clear, unobstructed view of the workspace, several replacement shields and accessories available.
- e3000X PAPR includes integrated air flow sensor, 3 level airflow adjustment ranging from 170-240 liters per minute available at the touch of a button.
- Up to 14 hours of run time at lowest flow rate, 9 hours at highest flow rate.
- Modular air filtration includes type HE/HEPA master filter with spark guard and optional Mountain Breeze nuisance level odor and ozone filtration.
- Automatic low flow and low battery alarms.
- Space for product copy and/or an application image available.

### **V-FIT™ SAFETY HARNESS**
Featuring A Patent-Pending RaceFLEX™ Buckle

- The patent-pending RaceFLEX™ buckle eliminates the need for a bulky chest strap.
- Shoulder padding responds to your movement to conform to your body, eliminating pressure points and chafing.
- Shoulder padding can be removed for cleaning.
- Athletic cut that contours to the body and allows for increased upper torso mobility.
- Pull-down adjustment allows for quick and easy harness adjustment that ensures a proper fit that lasts throughout the work day.
- Dedicated attachment point for Personal Fall Limiters allows quick, easy attachment and allows your back D-Ring to remain free for use.
- 4 lanyard keepers — including 2 at the waist, increase comfort and reduce chaffing by keeping lanyards away from your under arms.

| DESCRIPTION | MFR # | A&M # | SALE PRICE |

### **V-SHOCK® EDGE LEADING EDGE PERSONAL FALL LIMITER**
Built For Ease Of Use

- Selection is made easier with defined color coded housings and energy absorbers — Green for Leading Edge, Gray for overhead use only.
- The V-SHOCK® EDGE Leading Edge (LE) web PFL allows users to get the job done while working in leading edge scenarios with a product designed to perform in some of the most rigorous environments.
- Additionally, labels use clear iconography to help deliver critical SRL information in a clear, easy to understand format.
- Clearance charts have been designed to communicate fall clearance requirements in an intuitive format - both in the user manual, and on the label pack for easier access.
- Preloaded RFID allows you to quickly integrate the V-SHOCK® line of SRLs with your Fall Protection Asset Manager.

◆ Available in multiple lengths and snaphook configurations for a variety of applications.

## V-GARD H2™ SAFETY HELMETS

**MSA** The Safety Company

MFR #10242829

- Quick and easy customization with a wide selection of existing logos, easy creation of new logos, and reflective stripes.
- Integrated headlamp strap clips for easy and secure donning and doffing of lights on the helmet.
- ANSI Z89.1 Type II certification with integrated chinstrap for enhanced protection against lateral impacts.
- Extensive accessory compatibility with nearly all V-Gard H1™ and V-Gard accessories for a wide variety of industrial applications and easy integration with existing inventory.

- Comfortable ratchet suspension that's easily adjustable with a gloved hand.
- Antimicrobial sweatband, crown pad, and ratchet pad with Ionic+® high-purity silver to eliminate odor-causing bacteria.
- Optional Mips® system for additional rotational impact protection.
- Non-vented options for use in applications where Class E certification is needed.
- Optional venting for improved air flow, cooling and reduced heat stress.

# V-GARD H2™ FULL BRIM SAFETY HELMETS
## With A Full Brim For Increased Sun Protection

**MSA** The Safety Company

- ANSI Z89.1 Type II certification with integrated chinstrap for enhanced protection against lateral impacts, including during slips, trips and falls.
- Optional Mips® rotational impact protection to help reduce the risk of traumatic brain injury resulting from slips, trips and falls.
- Optional venting for improved airflow, cooling and reduced heat stress, as well as non-vented options for use in electrical applications where Class E certification is needed.
- Antimicrobial treatment of sweatband, crown pad and ratchet pad with Ionic+® high purity silver to eliminate odor-causing bacteria.
- Custom logos can be applied in up to four locations as well as optional stylish reflective stripes in silver or yellow that can be applied to provide 360° coverage.
- Extensive accessory compatibility with nearly all V-Gard full brim accessories for easy integration with existing inventory.

# V-GARD C1® HARD HAT
## Cooling Hard Hat

**MSA** The Safety Company

- Uses patented ReflectIR™ Thermal Barrier technology to keep the inside of the hard hat up to 20°F (11°C) cooler in sunny weather, making it the coolest hard hat on the market compared to those without ReflectIR™.
- Full brim provides additional shade and sun protection.
- Optional large vents with strategic placement.
- Premium moisture-wicking sweat band with breathable foam padding.

Custom color options available, please call.

Patent-Pending ReflectIR™ Thermal Barrier Technology
Keeps the hard hat interior up to 20°F (11°C) cooler.
