# ARC FLASH & ELECTRICAL SAFETY

Workers exposed to live electricity and working in potential arc flash environments need specialized personal protection equipment including garments, head protection, foot protection, hand protection and tools to use on the job. Our team can help you identify the appropriate head-to-toe PPE solutions, and recommend steps you can take to keep your team safe.

## ARC FLASH RISK ASSESSMENT

- Completed by electrical engineers using NFPA 70E standard to collect data to perform calculations
- Infrared thermography is utilized to identify minor to major areas of concern so proactive measures can be taken and catastrophic breakdown prevented

## ARC FLASH COMPLIANCE REVIEW

- Our certified electrical engineers will review your existing program, including current labeling and signage, to identify any related arc flash or compliance issues
- Product recommendations and documentation will be provided

## ARC FLASH TRAINING

We offer a wide range of arc flash training options, each tailor-made to your specific needs, including:

- Introduction to existing NFPA 70E standards & best practices
- 'Refresher' Courses
- Qualified Persons and 'Train the Trainer' Courses

## ELECTRICAL GLOVE CERTIFICATION

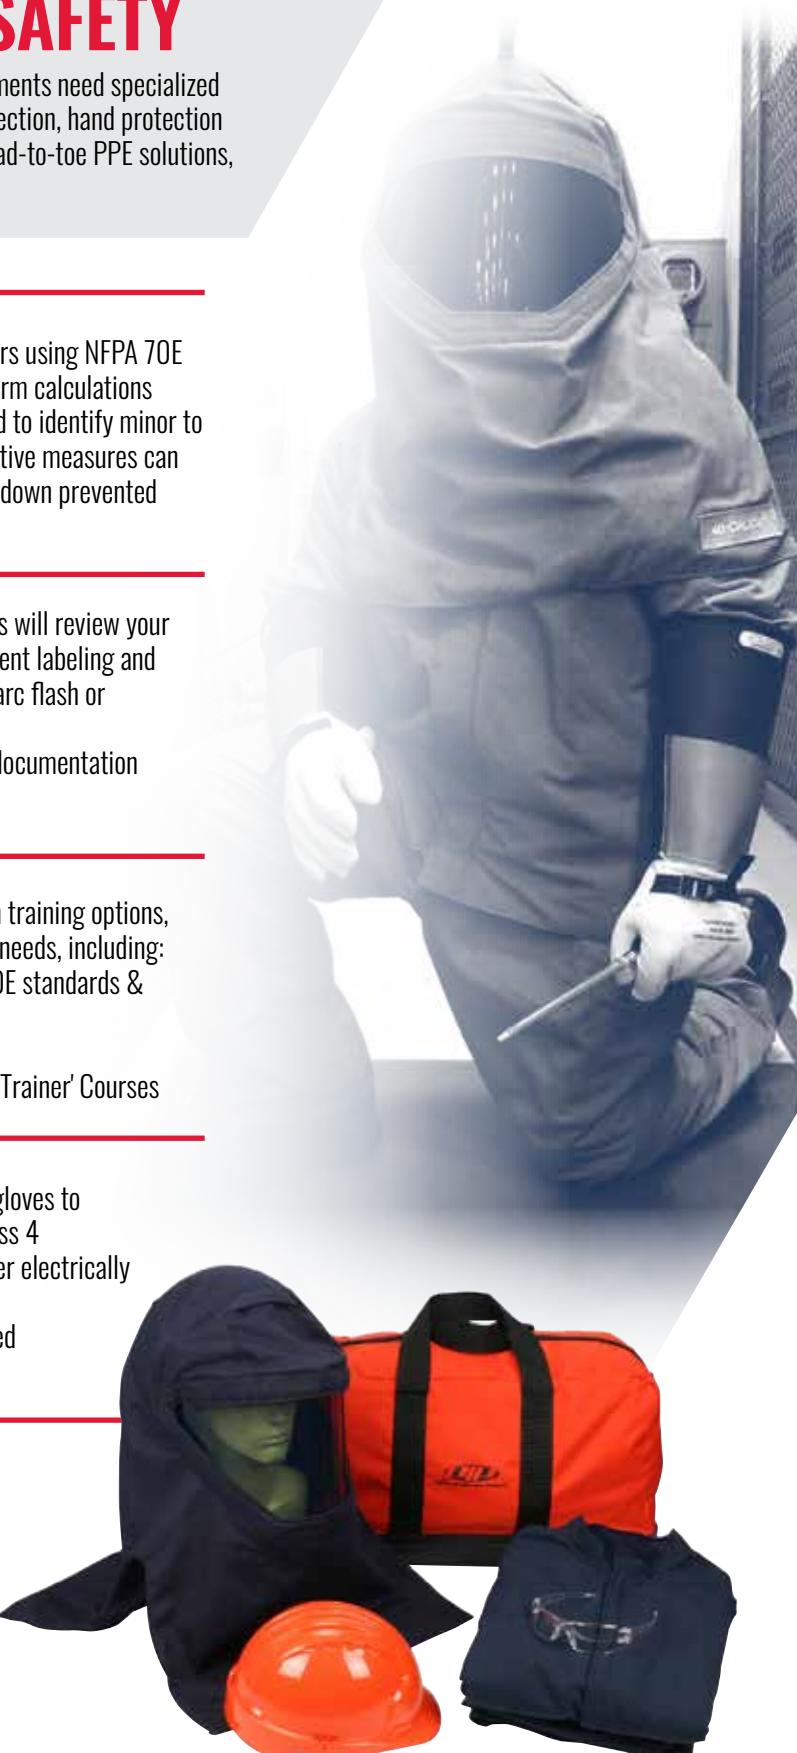

- We test all brands of electrical gloves to ASTM standards, Class 00 - Class 4
- We test sleeves, blankets & other electrically insulative items
- Documented test results provided

## SIGNAGE & SYSTEM IDENTIFICATION

- Custom & Standard Signage
- Signage Printers
- Lockout Tagout (LOTO)

A&M Industrial is a full line distributor of head-to-toe PPE solutions and electrical testing and safety equipment from industry-trusted brands including:

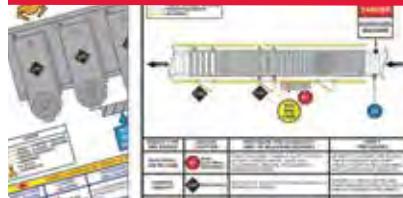

Request a safety audit or service: [WWW.AM-IND.COM/SAFETY](http://WWW.AM-IND.COM/SAFETY)

# LOCKOUT TAGOUT (LOTO)

Lockout Tagout, or LOTO, is the OSHA standard for the control of hazardous energy. This procedure protects employees by addressing the necessary steps to disable machinery or equipment that could release hazardous energy or unexpectedly start. Lockout means to place a lock on a device in order to prevent a potentially dangerous energy release. Tagout means to place a tag on a switch or other shut off device to warn employees not to start that piece of equipment.

## LOCKOUT PROCEDURE

- Visual Lockout Procedures: Using knowledge of OSHA's 1910.147 to create visual procedures and templates
- Annual Audit: we can review your existing procedures to ensure they meet current OSHA requirements
- Alternative Method Procedures

## LOTO PROGRAM GAP ANALYSIS

- We can identify gaps in your current program while offering solutions to fill the gaps & strengthen procedures
- Lockout Machine Inventory Services: Identify equipment requiring LOTO

A&M Industrial is a leader in LOTO development and implementation. Our team of experts delivers unparalleled service, support and solutions via our partnership with manufacturers including:

# SLIP, TRIP & FALL PROTECTION

A&M Industrial delivers solutions that proactively protect your team against workplace accidents and injuries, and we can help you determine and take preventative measures to make your facility safer.

## FALL ARREST

A personal fall arrest system prevents a worker in mid-fall from hitting the ground. We can provide:

- Harnesses, Lanyards & Anchors
- Engineered Systems

## FLOORING

We partner with industry leaders to provide standard and custom:

- Ergonomic & Anti-Fatigue Matting
- ESD Matting
- Entrance, Modular & Non-Slip

## LADDER INSPECTION

Our convenient ladder inspections are:

- Conducted in accordance with the ANSI & Manufacturer Specifications
- Performed On-Site By Specialists

OVER 200,000  
WORKPLACE FALLS  
ARE REPORTED  
ANNUALLY IN THE U.S.

OVER 104,000,000  
LOST WORK DAYS  
A YEAR ARE RELATED TO  
SLIP & FALL INJURIES

A&M Industrial proudly partners with safety leaders and innovators including:

# HEALTH, HYGIENE & PPE

## EAR PROTECTION • EYE PROTECTION • FULL BODY PROTECTION • HAND PROTECTION • HEAD PROTECTION • RESPIRATORY PROTECTION

A&M Industrial is your partner in creating and maintaining a safe work environment that is not only compliant, but also helps maintain your safety culture. Our manufacturing partners help us offer the best solutions in the business.

### HEAD-TO-TOE PPE

- PPE & Safety Analysis: we can perform PPE Hazard Assessments, identify ineffective PPE and gaps in your safety program, and make product recommendations
- Showers & Eyewash Stations: rely on us for product selection assistance, inspections and compliance review

### ERGONOMICS

- On-Site Evaluations: we work with trusted partners to identify opportunities for improvement
- Wide Range Of Solutions: from Sit/Stand workstations, to anti-fatigue matting, we help you enhance both employee safety and productivity

Our team of experts delivers unparalleled analysis and service via our partnership with manufacturers including:

# EMPLOYEE SAFETY

A&M Industrial can help you take preventative measures to make your team & facility safer.

### RESPIRATORY PROTECTION

- Respiratory Fit Testing: we follow OSHA protocols and can perform both Qualitative & Quantitative Fit Tests
- Supplied Air Systems: designed to ensure safety, mobility and maneuverability
- Respiratory Product Repair: we are a MSA C.A.R.E. (Certified Air Mask Repair) distributor/service center

### GAS INSTRUMENTATION

- Certified Gas Instrument Calibration & Repair: we are a MSA R.I.T.E. (Repairing Instruments Training & Education) certified distributor/service center
- We service BW Technologies by Honeywell and other brands of gas detection instruments
- Calibration Gas

## ENSURE YOUR GLOVES TRULY 'FIT LIKE A GLOVE'...

Using the wrong size glove can lead to hand fatigue and restrict hand dexterity, effecting your work efficiency and performance. A glove that is too tight can cut off blood circulation and cause numbness, while a glove that is too loose can easily rip or slip and leave your hand unprotected. Utilize glove sizing charts to verify the correct glove size for your hand and ensure proper glove fit. Simply scan the brand's QR code below or download a glove size chart from our Downloadable Resource page at [www.am-ind.com/downloadable-pdfs](http://www.am-ind.com/downloadable-pdfs)

### MAXIFLEX® ULTIMATE™ SEAMLESS KNIT NYLON/ELASTANE GLOVES

With Nitrile Coated MicroFoam Grip On Palm & Fingers • 15-Gauge

- MicroFoam Nitrile Coatings: compatible with light oils, providing a good grip and abrasion resistance
- 360° Breathability: patented micro-foam nitrile coating makes this the most breathable glove on the market
- Form, fit and feel: mimics the "hand at rest", reducing hand fatigue and increasing comfort
- Knit wrist helps prevent dirt and debris from entering the glove.
- 25% Thinner than most foam nitrile gloves on the market, while offering twice the mechanical performance.
- Consistent liner penetration from the nitrile, leaving only the soft liner resting against the skin.
- Silicone and latex free.
- Complies with FDA food handling requirements 21 CFR, Part 177, compliant with the REACH legislation.
- The OEKO-TEX® Association Certified & awarded Skin Health Alliance professional dermatological accreditation.

## CUT-RESISTANT GLOVES

### HYFLEX® 11-731 CUT-RESISTANT GLOVES

ANSI A2 Cut Level • ANSI Level 3 Abrasion • Polyurethane • 18-Gauge

- HyFlex® 11-731 polyurethane gloves' lightweight 18-Gauge liner enhances their flexibility and tactility.
- These safety gloves' light PU coating offers greater dexterity and makes them more abrasion-resistant, for EN level 4 and ANSI level 3 abrasion protection.
- INTERCEPT™ Cut Resistance Technology yarn grant them added lacerations defenses, with EN ISO B/ANSI A2 protection.
- Dirt-masking color treatment on these HyFlex® gloves' coating hides stains and marks, ensuring longer glove life.
- These PPE gloves are also available in vend pack form, for simplified access to personal protection.

#### RECOMMENDED APPLICATIONS:

- Assembly & inspection of components
- Press injection molding
- Picking, fastening components
- Final assembly
- Delivery of parts to production line
- Applying finish to materials, products
- Handling incoming goods

### PIP G-TEK® POLYKOR® 16-D622 CUT-RESISTANT GLOVES

ANSI A2 Cut Level • ANSI Level 4 Abrasion • Polyurethane • 13-Gauge

Color coded hems for easy size identification

#### RECOMMENDED APPLICATIONS:

- Maintenance and repair operations
- High dexterity handling, assembly and sorting of small to medium parts and materials
- Shipping, receiving and packaging

- Seamless construction offers increased comfort and breathability.
- PolyKor® blended shell is lightweight and provides excellent dexterity, tactile sensitivity and cut resistance.
- Polyurethane coatings take on the surface properties of the glove liner providing a tactile grip in dry and slightly oily conditions, ideal for applications that require dexterity for precise handling.
- Knit Wrist helps prevent dirt and debris from entering the glove.
- Washable and resistant to chemicals, water and ultraviolet light.

## HOW DOES WORK GLOVE GAUGE IMPACT FEEL?

### What Is Glove Gauge?

A glove's gauge refers to the number of stitches per inch used in the fabric that the shell of the glove is made from. Lower gauge threads are thicker, while higher gauge threads are thinner.

### Lower Gauge

Lower gauge gloves are coarser with less dexterity. It won't be difficult to move your hand like in a thicker leather glove, but it may be challenging to pick up small objects while wearing a lower-gauge glove.

### Higher Gauge

Higher gauge gloves are softer with better dexterity, making them more comfortable. It will be easier to work with small objects that require fine motor skills while wearing a higher-gauge glove.

Request a safety audit or service: [WWW.AM-IND.COM/SAFETY](http://WWW.AM-IND.COM/SAFETY)

**HYFLEX® 11-727 CUT-RESISTANT GLOVES**

ANSI A2 Cut Level • ANSI Level 6 Abrasion • Polyurethane • 15-Gauge

- Consistently comfortable: light, barehanded feel, tailored fit and breathable fabric
- Advanced durability: ANSI- and EN-certified gloves remain resilient against abrasion over time
- Strengthened defenses: INTERCEPT™ Cut Resistance Technology prevents workplace injuries
- Enhanced dexterity: acute fingertip sensitivity makes for deft, precise hand protection and secure handling
- Heightened grip: secure grip for handling dry or slightly oily components
- Improved practicality: also sold in vend pack form, allowing for convenient replenishment

**RECOMMENDED APPLICATIONS:**

- Handling metal sheets & panels
- Handling parts with sharp, rough edges
- Final assembly
- Handling materials with sharp or rough edges
- Assembly & inspection of components
- Applying finish to materials, products
- Maintenance
- Opening furnaces draining pumps valves or lines and crackers BTX process

**PUG-111 CUT-RESISTANT GLOVES**

ANSI A2 Cut Level • ANSI Level 6 Abrasion • Polyurethane • 13-Gauge

This seamless glove features a 13-Gauge HPPE brand fiber shell. The shell is enhanced by a polyurethane-dipped palm.

- 13-Gauge HPPE fiber shell offers great dexterity.
- Polyurethane dip provides superior grip and comfort.
- Overcast color on hem for easy size identification.
- Knit wrist cuff offers users a secure, comfortable fit and prevents gloves from slipping off during use.
- EN 388 Levels: 3242X
- Meets ANSI/ISEA 105-2016 standard.

## ACTIVARMR® 97-002 CUT-RESISTANT GLOVES

ANSI A3 Cut Level • ANSI Level 4 Abrasion • Nitrile • 18-Gauge

- Optimized protection: twice as thin as standard leather with six times the cut protection, these stainless steel and Kevlar® gloves offer an effective protective barrier against snips, screws and sheet metal
- Improved grip: ActivArmr® 97-002 protective gloves are reinforced with foam nitrile coating around the palm, resulting in highly resilient grip in wet and dry environments
- Elevated comfort: designed with breathable tactility in mind, these industrial gloves possess an ergonomic, well-insulated and dexterous design.
- Enhanced features: adjustable Velcro® cuff enclosure helps to achieve a snug and secure fit, while keeping out dirt and debris for better wrist protection

**RECOMMENDED APPLICATIONS:**

- Handling metal sheets & panels
- Picking, fastening components
- Adjusting parts, systems
- Equipment repair & maintenance
- Equipment maintenance and repair
- Adjusting systems and screwing
- Processing sheets, coils, tubes
- Fabricating metal parts, glass sheets

\*SAVE 5%: Just \$19.13 per pair when you purchase by a dozen (12 pairs of same size).

- Seamless construction offers increased comfort and breathability.
- PolyKor® blended shell is lightweight and provides excellent dexterity, tactile sensitivity and cut resistance.
- Polyurethane coatings take on the surface properties of the glove liner providing a tactile grip in dry and slightly oily conditions, ideal for applications that require dexterity for precise handling.
- Knit wrist helps prevent dirt and debris from entering the glove.
- Color coded hems for easy size identification.
- Washable and resistant to chemicals, water and ultraviolet light.

**SAMURAI GLOVE® CR588MF CUT-RESISTANT GLOVES**

ANSI A3 Cut Level • ANSI Level 6 Abrasion • Nitrile Coated • 13-Gauge

This lightweight seamless glove is an outstanding cut-resistant option that features a black 13-Gauge Aralene® shell. Aralene® is an enhanced aramid fiber that provides both cut and heat resistance. The shell is enhanced by a black Mach Finish nitrile dipped palm.

**CUT PRO® 92721 CUT-RESISTANT GLOVES**

ANSI A4 Cut Level • ANSI Level 3 Abrasion • Polyurethane • 21-Gauge

The MCR Safety Cut Pro® series offers various cut protection levels and materials for your protection. The 92721 cut-resistant work glove is made with a 21-Gauge HyperMax® shell and features extreme dexterity! It also provides good abrasion and puncture resistance, making it the perfect glove for demanding jobs. The 92721 has a black polyurethane palm and fingertip coating that easily hides dirt and grime.

- Comfortable and easy to wear.
- Cut, abrasion and puncture resistant.
- Excellent dexterity.
- Ultra-lightweight protection.
- 21-Gauge HyperMax® Shell.
- OEKO-TEX® certified: free from harmful substances
- Black PU Palm.
- DMa <10ppm.

**SAMURAI GLOVE® CR921 SALT-AND-PEPPER TOUCHSCREEN CUT-RESISTANT GLOVES**

ANSI A4 Cut Level • ANSI Level 3 Abrasion • Foam Nitrile • 21-Gauge

These cut-resistant gloves have a 21-Gauge salt-and-pepper seamless Tuffalene® Platinum UHMWPE shell. Our innovative Tuffalene® Platinum offers extra comfort, protection and durability – free from glass fibers or metal enhancements to achieve this level of cut protection. This uniquely crafted material is cooler and provides a more comfortable user experience while also retaining a puncture resistance comparable to enhanced fibers. Gloves made with Tuffalene® Platinum last longer than enhanced gloves due to the inherent abrasion resistance of the fiber construction. Because Tuffalene® Platinum gloves are constructed without metal or glass fibers, particles of these fibers do not contaminate other materials during handling. The palm is coated in black foam nitrile. Features touchscreen compatible fingers and a knit wrist cuff to prevent gloves from slipping. Anti-static/electrostatic compliant for use in an ESD protected area.

- Component materials comply with FDA regulations for food contact.
- 21-Gauge ultra-lightweight Tuffalene® Platinum UHMWPE shell offers bare hand sensitivity and cut resistance, free from glass fibers or metal enhancements.
- Foam nitrile provides excellent dry, wet and oily grip with breathability.
- Overcast color on hem for easy size identification.
- Touchscreen compatible fingertips.
- Knit wrist cuff offers users a secure, comfortable fit and prevents gloves from slipping off during use.
- Anti-static/electrostatic compliant.
- EN 388 Levels: 3341C
- Meets ANSI/ISEA 105-2016 standard.

## RINGERS R-085 CUT-RESISTANT GLOVES

ANSI A6 Cut Level • ANSI Level 4 Abrasion • Nitrile • 13-Gauge

- Specialized protection: patented TPR (thermoplastic rubber) design, developed with F3 Technology™, ensures knuckles, thumb and full length of fingers impact protection
- Advanced defenses: breathable knit shell ensures high-level cut resistance
- Elevated comfort: their fleece-lined design keeps hands warm and comfortable in cold conditions, for versatile hand protection
- Heightened grip: half-dipped nitrile palm coating, with a sandy finish, enhances wet and dry grip
- Improved durability: integrated TPR patch limits wear and tear
- Enhanced features: high visibility design improves hand safety, while thumb tips, index and middle fingers enable safe touchscreen compatibility

### RECOMMENDED APPLICATIONS:

- Makeup and breakout tools
- Running tools into the wellbore
- Handling explosives
- Assembly of parts or mounting components
- Engagement and release of drill string slips
- Unloading and stacking pipe
- Preparation of site - unloading of lines and valves
- Set-up of pressure manifold and tubing injector head
- General pumping work
- Cold storage
- Scaffolding

## PUG-006 HIGH DENSITY NYLON CUT-RESISTANT GLOVES

ANSI A6 Cut Level • ANSI Level 4 Abrasion • Polyurethane • 13-Gauge

This lightweight seamless glove grants cut, abrasion and puncture protection and features a gray-and-white 13-Gauge high-density nylon shell. The shell is enhanced by a smooth, gray polyurethane-coated palm.

- Component materials comply with FDA regulations for food contact.
- 13-Gauge high-density nylon fiber shell offers great dexterity.
- Polyurethane dip provides superior grip and comfort.
- Overcast color on hem for easy size identification.
- Knit wrist cuff offers users a secure, comfortable fit and prevents gloves from slipping off during use.
- EN 388 Levels: 4X42F
- Meets ANSI/ISEA 105-2016 standard.

**SAMURAI GLOVE® CR799XFT HIGH VISIBILITY CUT-RESISTANT GLOVES**

ANSI A7 Cut Level • ANSI Level 5 Abrasion • Nitrile Coated • 18-Gauge

These Cut-Resistant gloves have an 18-Gauge high visibility green seamless Tuffalene® UHMWPE/rPET shell. The rPET (recycled polyester) fiber utilizes reprocessed PET plastic bottles and helps to reduce 17.64 grams of carbon dioxide emission per pair. The black Xtreme Foam Technology nitrile-coated palm provides abrasion resistance. The gloves feature a reinforced thumb crotch, touchscreen compatible fingertips, and a knit wrist for a secure fit.

- Ultra-light 18-Gauge Tuffalene® UHMWPE/rPET shell offers bare hand sensitivity, cut resistance and top-of-the-line dexterity.
- Made with rPET (recycled polyester) fiber which utilizes reprocessed PET plastic bottles as an environmentally conscious method to help reduce carbon dioxide emissions. This process helps to reduce 17.64 grams of carbon dioxide emission per pair.
- Nitrile coated palm is breathable and provides abrasion resistance.
- Highly-flexible Xtreme Foam Technology (XFT) finish is breathable and enhances grip in a wide variety of conditions.
- Reinforced thumb crotch increases abrasion resistance in vulnerable area.
- Touchscreen compatible fingertips.
- Overcast color on hem for easy size identification.
- Knit wrist cuff offers users a secure, comfortable fit and prevents gloves from slipping off during use.
- EN 388 Levels: 4X42F
- Meets ANSI/ISEA 105-2016 standard.

## 3M™ REUSABLE FULL FACE RESPIRATORS

7500 Series • 6100 Series • 6200 Series • 6300 Series

## 7500 Series

## 6000 Series

## RECOMMENDED APPLICATIONS:

- Assembly and mechanical
- Chemical clean-up & handling
- Chipping & chiseling
- Cleaning
- Furnace operations
- Grinding
- Laboratories
- Machining
- Masonry
- Painting
- Pouring & casting
- Sanding
- Sawing
- Welding

- For workplace/occupational use only.
- Sizes are color coded for easy identification.

## 7500 Series

- This series combines comfort and convenience.
- Comfortable soft, lightweight facepiece with easy-to-adjust head straps.
- NIOSH approved for negative pressure air purifying and supplied air dual airline applications.
- Can be disassembled, cleaned and reused.
- Replaceable cartridges and filters allow reuse of facepiece for cost savings.

## 6000 Series

- Advance silicone material for increased comfort and greater durability.
- Proprietary 3M™ Cool Flow™ valve helps makes breathing easier.
- Dual-mode head harness adjusts for either standard or drop-down mode.
- Exhalation valve cover directs exhaled breath and moisture downward to reduce fogging.
- Drop-down feature allows the respirator to be taken off in a non-contaminated area without having to remove a hard hat.

• Chemical clean-up & handling	• Machining
• Chemical splash	• Masonry
• Chipping & chiseling	• Painting & paint preparation
• Cleaning	• Pouring & casting
• Composite finishing	• Sanding
• Final finish	• Sawing
• Furnace operations	• UV protection
• Grinding	• Welding

- Large lens provides a wide field of view for excellent visibility.
- Silicone full facepiece design offers comfort, durability and ease of cleaning.
- 3M™ Cool Flow Valve makes breathing easier.
- Passive speaking diaphragm enhances communications.
- Use with 3M™ Particle Filters 2000, 2200, 7000 or 5000 Series to help filter certain particulates.
- Use with 3M™ 6000 Series Gas/Vapor Cartridges to help filter a broad range of gases and vapors.
- Use with 3M™ 6000 Series Combination Cartridges to help filter particulates in addition to gases and vapors.
- Compatible with 3M™ TR-600 and TR-800 powered air and Dual Airline supplied air systems.
- Head cradle helps reduce pressure points & hair pulling.
- For workplace/occupational use only.

**Ultimate FX Reusable Full Face Respirators**

- Scotchgard protection paint and stain resistant lens cause some liquids to bead up so they can be wiped off easily.

## SIGHT PROTECTION

### 3M™ 3700 OTG SERIES EYE PROTECTION

With Scotchgard™ Anti-Fog, Anti-Scratch Coating

Anti-Fog

Anti-Scratch

**Adjustable Ratchet Temples**  
Multiple position ratchet allows user to adjust lens for facial features and eyeglass position.

**Pressure Diffusion Temple (PDT) Technology**

3M patented technology that helps diffuse pressure over the ear for a secure, comfortable fit.

**Alternate Fit**

Adjusted lens angle and soft nose bridge designed to help accommodate tall cheekbone structure and low nose bridge height. (Select Models)

**Brow Guard**

Contoured brow guard rests comfortably against forehead and helps provide additional coverage from particles. (Select Models)

**Same Protection, New IR Lens Color**  
Unlike green IR shade lenses, gray IR lenses provide wearers with better color recognition. (Select Models)

**Polycarbonate Lenses**

- Absorb 99.9% of UVA and UVB rays.
- Meet the requirements of ANSI Z87.1-2015 Standard as an Impact Rated Spectacle.

**Two Coating Options (Model Dependent):**

Anti-Scratch Coating

- Many prescription eyeglasses do not have anti-fog coating on the lenses, therefore some workers may prefer our less expensive standard anti-scratch coating.

3M™ Scotchgard™ Anti-Fog Coating

- Scotchgard™ Anti-Fog Coating resists fogging longer than traditional anti-fog coatings, up to 25 washes with water\*.
- Helps provide durable scratch resistance in tough work environments.

\*3M internal testing per ET4168 test method when compared with traditional anti-fog coatings.

- The 3M™ innovative temple design features slotted ribs that provide comfortable pressure equalization, allowing the temples to flex and self-adjust to the size of the wearer's head.
- Curved temples apply pressure to the less sensitive back of the head, instead of the temples, achieving a comfortable fit even during rapid head movement.
- Adjustable ratchet temples allows user to adjust lens for facial features and eyeglass position.
- Soft one-piece nose bridge.
- Optional contoured brow guard.
- U6 rated polycarbonate lenses absorb 99.9% of UVA, UVB and UVC rays between 200 nm and 380 nm.
- Workers can feel confident wearing 3M™ eye protection that meets the Impact-Rated Protector requirement of the ANSI-ISEA Z87.1 Standard.
- Case quantity: 10 pairs per case

## 3M™ 200 SERIES EYE PROTECTION

With Scotchgard™ Anti-Fog Coating

- The 3M™ innovative temple design features slotted ribs that provide comfortable pressure equalization, allowing the temples to flex and self-adjust to the size of the wearer's head.
- Curved temples apply pressure to the less sensitive back of the head, instead of the temples, achieving a comfortable fit even during rapid head movement.
- Lightweight design with molded nose bridge.
- U6 rated polycarbonate lenses absorb 99.9% of UVA, UVB and UVC rays between 200 nm and 380 nm.
- Meets Impact-Rated Protector requirement of the ANSI-ISEA Z87.1 Standard.
- Case quantity: 20 pairs per case

## RECOMMENDED INDUSTRIES:

• Automotive	• Heavy infrastructure
• Aviation	• Industrial maintenance
• Chemicals	• Law enforcement
• Commercial buildings	• Metal fabrication
• Construction	• Mining
• Design & construction	• Oil & gas
• Food & beverage	• Pharmaceuticals
• Food processing & safety	• Primary metals

## LET US HELP YOU IDENTIFY THE RIGHT PAIR OF GLASSES FOR YOUR JOB AND APPLICATION

Contact your local A&M safety specialists for assistance, or see our website for an extensive selection of 3M™ Protective Eyewear.

### Features and Lens Colors:

#### 3M™ Pressure Diffusion Temple Technology

Eyewear temples self-adjust to a wide range of head sizes, diffusing pressure over the ear and enhancing comfort.

#### Adjustable Ratchet Temples

Adjusts the pantoscopic tilt of the lens to help accommodate cheek bone height and improve comfort and fit.

#### 3M™ Scotchgard™ Protector Anti-Fog Coating

Lasts longer than traditional anti-fog coatings and remains effective for up to 25 washings with water. Coating is tested to EN168 N & K for anti-fog and anti-scratch.

#### Brow Guard

Additional top coverage during impact and leaves room to help airflow.

#### Foam Gasket

Helps limit eye exposure to debris but not as tight as a goggle.

#### Goggles

Designed to seal to the face. Can be splash/droplet, dust and/or fine dust rated.

#### Cord Control System (CCS)

Designed to keep eyewear and earplugs attached, untangled and ready to use.

### Lens Colors & Functions

#### CLEAR

Highest visual acuity and color recognition

#### POLARIZED

Reduces overall brightness, glare and reflected light

#### VERMILLION

Helps improve visual acuity and contrast

#### GRAY

Reduces overall brightness of visible light

#### BROWN

Reduces overall brightness, typically allowing color recognition

#### BLUE

(excl. "sodium blue") Reduces brightness and glare from yellow light sources. Not intended for use in glass blowing.

#### INDOOR/OUTDOOR

Slightly reduces overall brightness of visible light

#### AMBER

Increases contrast by filtering hazy and blue-colored light

#### PHOTOCHROMIC

Darkens when exposed to UV light (outdoors) and lightens when UV light is reduced (indoors)

#### ORANGE

Reduces blue light in specific applications, e.g., blue light curing

#### INFRARED FILTERS

Reduces infrared radiation

#### MIRRORED

Reflects light sources, helping reduce brightness

## LENS CLEANING TOWELETTES

RADIANS Box Of 100 Individually Wrapped Cleaning Wipes

Sturdy, economical lens cleaning accessories provide instant access for all lens cleaning needs in the plant or office. Strategically placed stations will promote proper lens cleaning techniques extending the life of prescription and non-prescription safety glasses. The specially developed formula in the lens cleaning towelettes and lens cleaning stations will clean greasy and oily glasses while providing an anti-fog/anti-static coating. Low lint, non-abrasive tissue leaves lenses clear and streak free.

- Easy to use disposable lens cleaning towelettes.
- Lens cleaning towelettes and stations prevent fogging and reduce static.
- Excellent for cleaning glass, plastic and polycarbonate.

## SPEAKMAN® GRAVITYFLO SE-4400 9 GALLON PORTABLE EYEWASH

**A&M TOP SELLER**  
INDUSTRIAL

The Speakman® GravityFlo SE-4400 9 Gallon Portable Eyewash is designed to provide the ultimate solution to locations in need of an eyewash that have no access to a potable water source. The GravityFlo Portable Eyewash station features a 9 gallon tank, providing continuous flow for the ANSI/ISEA Z358.1 required 15 minutes. With the capability to be shelf, table, or wall-mounted, this gravity operated eyewash can be placed practically anywhere within a worksite. A simple pull of the highly visible yellow activator instantly delivers relieving streams, allowing hands free operation. The SE-4400 is offered with a 3 year limited warranty.

- 9 gallon capacity tank.
- Gravity operated portable eyewash.
- Intuitive pull-down activation.
- Can be mounted to shelf, table or wall.

## PORTABLE EYEWASH CLEANSING STICK

The model 9083 HawsCLEAN™ cleansing stick is the safe and effective way to prevent the growth of Legionella, E-Coli and other harmful bacteria in most gravity fed or pressurized portable emergency eyewash equipment. Simple to install and maintain, the HawsCLEAN™ cleansing stick is non-chemical, non-powered, environmentally friendly and cost effective. Provides clean water and ANSI compliance in equipment up to 15 gallons (60 L) for up to three years when serviced just once annually. Simply immerse the stick in the tank and the process of protection starts immediately.

- Provides three years of protection against the growth of Legionella, E-Coli and other pathogenic bacteria.
- Specifically designed for use in the portable emergency eyewash products up to 60 liters.
- Lowest total cost of ownership: single unit provides protection for 3 years
- Service just once annually, up to three times (three years), to achieve ANSI compliance.
- Install date label supplied to stay informed of when to replace stick.
- Prevents Legionella, buildup of scale, biofilms and corrosion.
- Easy to use and simple to install, no power required.
- Environmentally friendly: no chemicals, non-powered, low maintenance.
- †Non-Stock Item.

## FAUCET-MOUNTED EYEWASH AXION® EYEPOD®

Model 7620 AXION® eyePOD® faucet mounted eyewash incorporates the revolutionary inverted flow design, which is the only one in the market that provides a Medically Superior Response consistent with all EMT, emergency room and doctor office protocols by sweeping contaminants away from the vulnerable nasal cavity. The symmetrical 'pod' look of the eyewash is constructed of stainless steel and given a polished finish for a durable, esthetically pleasing piece of emergency equipment.

- Eyewash streams provide Zero Vertical Velocity™ stream engineering with even laminar flow for enhanced comfort, stability and effectiveness.
- Thermostatic shutoff to protect the user from water over 100°F (37.8°C) by shutting off the eyewash.
- Supplied with a 1 gpm (3.8 L) laminar flow faucet outlet for locations where a precise flow pattern is needed.
- Supplied with a standard 55/64-27 female connection (faucet adapters available).
- Dimensions: diameter 3.5" (8.9 cm), height (from top to faucet outlet) 2" (5cm)
- Certified by CSA to meet the ANSI/ISEA Z358.1 Standard for Emergency Eyewash and Shower Equipment.
- †Non-Stock Item.

## EYESAFE-X™ FAUCET-MOUNTED EYEWASH

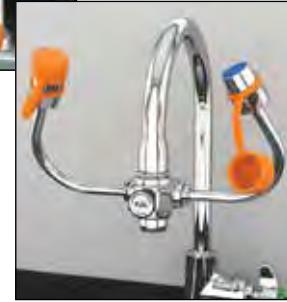

Convert any faucet into an emergency eyewash station without interfering with normal faucet operation. An EyeSafe-X™ unit is ideal for use with gooseneck faucets, and can be installed at any sink, close to where accidents might occur. In an emergency, the unit is quickly located and activated, and provides an unlimited supply of potable water for rinsing the user's eyes.

- Outlet heads: deliver a soft, aerated flow of water and angle forward toward user; angle of heads is adjustable to permit full coverage and avoid splashing
- Forged brass diverter valve: pull knob to activate eyewash; water pressure holds eyewash in operation, leaving user's hands free; simply push knob or turn off faucet to return to normal faucet operation
- Inlet: body has 55/64"-27 female thread; furnished with three adapters (15/16"-27, 13/16"-27 and 3/8" NPS) for installing on most commonly used faucets, including laboratory-type faucets
- Outlet: furnished with removable aerator on bottom
- Quality assurance: each unit is completely assembled and water tested prior to shipment

**NOTE:** these units do not meet the provisions of ANSI Z358.1-2014 as eyewash units. These units are intended solely as supplemental units in addition to dedicated, plumbed eyewash equipment installed in the workplace. Faucet-mounted eyewashes should be used with cold or warm water only. Use of hot water might cause scalding.

\* U.S. EPA specifies the NRR as the measure of hearing protector noise reduction. However, 3M™ makes no warranties as to the suitability of the NRR for this purpose. 3M™ strongly recommends personal fit testing of hearing protectors. Research suggests that users may receive less noise reduction than indicated by the attenuation label value(s) on the packaging due to variation in fit, fitting skill and motivation of the user. Refer to applicable regulations or guidance on how to adjust attenuation label values. It is recommended that the NRR be reduced by 50% to better estimate typical protection.

**EAR PLUG CARE & USAGE TIPS**

A&amp;M Industrial carries a wide selection of 3M™ Hearing Protection Solutions.

Contact our expert safety team for assistance with selecting the best hearing protection and PPE for your facility or application.

Type	Description	How To Use	Care & Cleaning
<b>Foam Plugs</b>	Foam Plugs, made from expandable, slow recovery foam, provide the best combination of comfort and protection for most users. They must be properly prepared for insertion. One size fits most. Once in the ear, foam plugs expand to provide a snug and secure, custom fit. The two most common complaints about foam plugs ('not enough protection' and 'they don't stay in') are almost always solved by greater practice and care in insertion.	Slowly roll and compress foam plugs into a very thin crease-free cylinder. While compressed, insert plug well into the ear canal. Fitting is easier if you reach around the head to pull the ear outward and upward during insertion.	Keep the plugs clean and free from material that can irritate the ear canal. Plugs may be washed in mild liquid detergent and warm water. Squeeze excess water from the plugs and allow to fully air dry. Washing may be repeated several times. Discard plugs if they change in appearance or firmness, or do not re-expand to the original size and shape.
<b>Pre Molded Plugs</b>	Pre-molded plugs are made from flexible materials that are preformed to fit the ear. They are generally available with an adjoining cord to prevent loss. Although the version pictured at left is a one size product, many pre-molded plugs are sold in two or more sizes and must be individually sized for each ear. If after a period of regular wear, you've been unable to get used to your earplugs, try another size, type, or hearing protection brand.	Reach around the back of your head and pull outward and upward on the ear while inserting the plug until you feel it sealing. This may seem tight at first, especially if you've never worn earplugs. Carefully twist the plug to break the seal for a slow and safe removal.	Pre-molded plugs will normally last several months or more, depending upon the type and the environmental factors. They should be replaced if they shrink or swell, harden or soften, tear, crack, or become permanently deformed. Wash them in warm, soapy water and rinse well when dry. Store them in a carrying case.

## HEARING PROTECTION

### 3M™ PELTOR™ OPTIME™ EARMUFF

Optime™ 95

Optime™ 98

Optime™ 105

#### Optime™ 95

- Earmuff provide hearing protection against high-frequency noise up to 95 dBA.
- Ultra-light hearing protectors are less noticeable to wear.
- Folding design offers compact storage.

#### Optime™ 98

- Recommended for TWA (time-weighted average) noise exposures up to 98 dBA.
- Stainless steel headband distributes weight for low pressure fit.
- Earcup pivot points tilt for comfort that adjusts to individual wearers.

#### Optime™ 105

- Double-shell technology boosts noise-blocking ability.
- Made with soft, foam-filled cushions.
- Stainless steel construction resists bending and warping.
- 3M™ E-A-Rfit™ Dual-Ear Validation System testable.

### 3M™ ELECTRONIC HEARING PROTECTION

Protac

EEP

#### Protac

- Professional-Quality Hearing Protection (23dB NRR).
- Environmental microphones for level-dependent hearing protection and ambient listening.
- 3.5mm listen-only stereo input for connection to external devices (e.g. cell phone).
- Voice guided menu system for ease of use and adjusting settings.
- Auto power off, the headset will turn off after 4 hours of non-use to save battery.
- Low-battery warning.

#### EEP

- Helps provide hearing protection in environments with hazardous noise.
- External microphones help you hear communication and environmental sounds.
- Designed by 3M™ PELTOR and built tough for the working professional.
- Intuitive one-button operation powers earpiece on/off and selects volume level.
- Rechargeable lithium-ion battery, charging cable included.
- Weather-resistant earpieces and charging case (IP54).
- Small and lightweight design.
- Compatible with most headborne Personal Protective Equipment.

**Button**  
Intuitive one-button operation turns unit on, off, and lets you select from 3 volume settings

**Rechargeable**  
Charging contacts recharge the unit while in the case. Lithium-ion battery provides up to 16 hours of continuous operation

\*U.S. EPA specifies the NRR as the measure of hearing protector noise reduction. However, 3M™ makes no warranties as to the suitability of the NRR for this purpose. 3M™ strongly recommends personal fit testing of hearing protectors. Research suggests that users may receive less noise reduction than indicated by the attenuation label value(s) on the packaging due to variation in fit, fitting skill and motivation of the user. Refer to applicable regulations or guidance on how to adjust attenuation label values. It is recommended that the NRR be reduced by 50% to better estimate typical protection.

## 3M™ HARD HAT H-700

Configurable

3M™ H-700 Series Hard Hats help give your workers an excellent blend of comfort, style and safety. Its tough, durable shell and adjustable suspension system work together to help absorb the impact of small falling objects and help eliminate or minimize injuries when workers bump into objects in their environment. Additionally, these hard hats can be customized with your custom logo and/or addition of reflective material.

- Suspension sits lower on the head to help reduce pressure and increase security.
- Smooth, easy turning ratchet suspension.
- Optimized comfort with height and head shape adjustments.
- Reverse donning puts the brim in the back of the head and can help enhance upward visibility.
- Hard hat features accessory slots for ear muff attachment and/or headgear and faceshield attachment.
- Optional 3M™ UVicator™ sensor shows when it's time to replace the hard hat due to UV exposure.
- **†Non-Stock Item.**
- ◆ **Minimum order of 20 required.**

Please call to place your custom hard hat order.

## 3M™ HARD HAT H-800

Configurable • Full Brim

This hard hat is designed for industrial applications with personal protective equipment (PPE) compatibility in mind. All H-800 Series Full Brim Hard Hats can be customized with a logo of your choice. Workers will appreciate the full brim design which gives them a first-rate appearance and a fit that won't weigh them down. The wraparound brim acts like a visor that offers shielding from outdoor elements like sunlight and rain.

- The wraparound brim acts like a visor that offers shielding from outdoor elements like sunlight and rain.
- Suspension sits lower on head to help reduce pressure and increase security.
- Smooth, easy turning ratchet suspension.
- Optimized comfort with three levels of adjustment.
- Venting encourages airflow.
- Hard hat features accessory slots for ear muff attachment and/or headgear and faceshield attachment.
- 3M™ UVicator™ sensor shows when it's time to replace the hard hat due to UV exposure.
- **†Non-Stock Item.**
- ◆ **Minimum order of 20 required.**

Please call to place your custom hard hat order.

## V-GARD H2™ SAFETY HELMETS

The V-Gard H2™ Safety Helmet provides superior comfort and versatility while incorporating the latest technology to help protect against lateral impacts. The optional Mips® brain protection system adds another layer of protection in industrial safety helmets, designed to help reduce the risk of brain trauma by redirecting rotational energies in the event of certain angled impacts.

- Quick and easy customization with a wide selection of existing logos, easy creation of new logos and reflective stripes.
- Integrated headlamp strap clips for easy and secure donning and doffing of lights on the helmet.
- ANSI Z89.1 Type II certification with integrated chinstrap for enhanced protection against lateral impacts.
- Extensive accessory compatibility with nearly all V-Gard H1™ and V-Gard accessories for a wide variety of industrial applications and easy integration with existing inventory.
- Comfortable ratchet suspension that's easily adjustable with a gloved hand.
- Antimicrobial sweatband, crown pad and ratchet pad with Ionic+® high-purity silver to eliminate odor-causing bacteria.
- Optional Mips® system for additional rotational impact protection designed to help reduce the risk of traumatic brain injury.
- Non-vented options for use in electrical applications where Class E certification is needed.
- Optional venting for improved air flow, cooling and reduced heat stress.

# One great design... two versatile helmets

Designed for the professional welder, 3M™ Speedglas™ G5-03 Pro Welding Helmet Series offers modularity through multiple accessories.

Cutting edge features including:

- Ergonomic, adjustable head suspension.
- TAP function allows for quick and easy switching between welding and GRIND (or CUT) mode.
- 3M™ Speedglas™ Natural Color Technology colors appear brighter and more realistic in both the light and dark states.

## 3M™ SPEEDGLAS™ G5-03 PRO WELDING HELMET

The 3M™ Speedglas™ G5-03 Pro Welding Helmet uses next-generation technology to help provide dynamic welding protection. Intuitively designed for the challenges faced on the job, this helmet setup includes a haptic tapping function to activate grind or cut mode. We make use of the welding technology of the future, today — equip the 3M™ Speedglas™ G5-03 Pro Welding Helmet with various accessories, such as task-light, neck cover and head cover to configure the helmet to meet your specific needs.

- Robust, compact design.
- GRIND and CUT mode functionality, when using G5 auto darkening filters.
- Available in two different Auto-Darkening Lens options (VC/TW).
- Suitable for most types of arc welding.

### 3M™ Speedglas™ G5-03 Pro Air Welding Helmet

- Provides high-efficiency particulate respiratory protection for welders in a robust, yet compact design with ergonomic, adjustable head suspension.
- Included 3M™ Adflo™ Powered Air Respirator has a high-efficiency particulate filter that can be "stacked" onto an optional 3M™ Adflo™ Filter (not included) for additional protection.

Navy

- Softness of cotton with the strength of nylon provide comfort and durability.
- Two front pockets with secure snap closures provide storage for essentials.
- Covered snaps provide enhanced protection against electric arcs, ensuring safety and durability.
- Arc rating: 9.5 cal/cm<sup>2</sup> | CAT 2
- Material: 6.5 oz. Cotton/Nylon Blend
- Compliance: NFPA 70E, NFPA 2112, ASTM F1506, OSHA 1910.269, CSA Z462

## 3M™ DBI-SALA® EXOFIT™ X-SERIES HARNESES

Wherever your work takes you, staying comfortably fitted in your safety harness is critical. Precision-tuned for performance and productivity, our new line of 3M™ DBI-SALA® ExoFit™ X-Series Harnesses change the way you work and redefine what you should expect from a safety harness.

### ExoFit™ X-Series Harnesses Come Equipped With These Standard Harness Features:

- **Revolving Torso Adjusters\***: patented buckles lock webbing into place to maintain a safe and comfortable fit
- **Personal SRL Adapter**: confidently connect personal SRLs to the harness with ease
- **Anti-Slide Dorsal D-Ring Pad**: greatly reduces dorsal D-ring slide and allows for adjustment to help ensure a proper, safe fit
- **Suspension Trauma Relief Straps**: integrated low-profile design between harness webbing
- **Auto-Resetting Lanyard Keepers\***: fast and easy parking of snap hooks and carabiners
- **Comfort Padding**: Breathable mesh under-side
- **3M™ Connected Safety ID\***: RFID technology for simplified inventory, inspection and record management
- **ANSI/OSHA Compliance**: Tested and certified to ANSI/ASSP Z359.11 (310 lb) standard. Conforms to the requirements of 29 CFR OSHA 1910.140 and 1926.502. (420 lb) regulations

\*3M Patented Technology.

\*\* Comes Integrated on select models.

## 3M™ DBI-SALA® EXOFIT™ X100 SAFETY HARNESES

- Personal SRL Adapter: molded tunnel
- Breathable, removable shoulder pads.

## MSA V-FIT™ SAFETY HARNESS

Featuring A Patent-Pending RaceFLEX™ Buckle

- The patent-pending RaceFLEX™ buckle allows for a close, comfortable full body harness fit – eliminating the need for a bulky chest strap.
- Shoulder padding responds to your movement to conform to your body, eliminating pressure points and chafing.
- Shoulder padding can be removed for cleaning, extending the life of the harness.
- Athletic cut that contours to the body and allows for increased upper torso mobility.
- Pull-down adjustment allows for quick and easy harness adjustment that ensures a proper fit that lasts throughout the work day.
- Dedicated attachment point for Personal Fall Limiters allows quick and easy attachment and allows your back D-Ring to remain free.
- 4 lanyard keepers, including 2 at the waist, increase comfort and reduce chafing by keeping lanyards away from your under arms.

22" Oil Only Drum Cover, 25 Count Box	11 Gallon	25(CF)WDRUM	4552688	\$43.25

**MAGIC MONKEY GRANULAR ABSORBENT**

25 Lb. Bag

- Absorbs liquids of any viscosity and leaves surfaces clean and dry.
- Effective on most types of spills including oils, fuels, chemicals, paint, antifreeze, bases, bodily fluids, non-hydrofluoric acids and many others.
- Lightweight even when saturated, making it less costly to dispose of than heavier granular sorbents.
- Safe for people, plants, animals and food processing facilities including concrete, tile and asphalt.
- Absorbs 12 US gallons of oil (medium viscosity) / 6 US gallons of water.
- **Important:** Do not use with hydrofluoric acid

**GRAN-SORB® ALL-PURPOSE GRANULAR ABSORBENT**

25 Lb. Bag

- Gran-sorb® is an all purpose oil and grease absorbent and works outstandingly with oils, solvents, grease compounds, chemicals and water based liquids.
- Environmentally friendly: made from 100% post consumer waste
- Clean, safe, effective and highly absorbent.

DESCRIPTION	CAPACITY	MFR #	A&M #	SALE PRICE PER BAG
25 Lb. Bag Gran-sorb® Absorbent	4 Gallon	888002	5628995	\$18.95

**ZORBENT SUPER ABSORBER - 16X MORE EFFECTIVE THAN CLAY ABSORBENTS**

One Cubic Foot

Perfect for transportation, schools, industrial, automotive and construction applications, Zorbent is a great absorbent powder that can be used on any hydrophobic or hydrophilic liquid regardless of the viscosity (do not use on Hydrofluoric Acid). Using Zorbent for all your absorption needs greatly reduces expenses and space needed to keep absorbents. Zorbent is lighter and more effective than many other forms of absorbents.

- Absorbs 16 times more than clay absorbents.
- Encapsulates hazardous waste: absorbs all liquids, including oils, water, acids/bases (note: if Zorbent is used to absorb a hazardous waste, it must be disposed of as a hazardous waste)
- Dust free: reduces mess and skin/eye contact
- Reduces and eliminates odors: naturally produces a cleaner smelling environment
- Leaves spill surface clean and dry: leaves no residue
- Absorbs 8-10 times its weight: reduces space needed for storage

**PRO-TIP:**

10 lbs. of Zorbent replaces 190 lbs. of clay material!

Ultra-light Zorbent Super Absorber weighs just 5 lbs. per Cubic Foot, is non-flammable, and retains 99.8% of VOC on EPA TCLP list. This lightweight natural mineral minimizes labor, reduces work injury risk and costs, reduces disposal costs and requires drastically less storage space in your facility!

## PEAT SORB HYDROCARBON ABSORBENT

Two Cubic Feet

CALL FOR  
PALLET  
PRICING

- Multi-functional: Peat Sorb will work with the full range of oil based products from crude oil, gasoline, PCB's, coal tars, fatty acids, hydrocarbon based inks and will solidify and absorb resins
- Effective anywhere: Peat Sorb will work to absorb oils on land and in water as it floats in water and will not absorb water, only the oil on the water
- Non-leaching: oil absorbed does not leach out and is naturally degraded, making it acceptable for use in lined land fills which can handle Class 1 waste
- Non-abrasive: safe for use around machinery

Two Cubic Feet Peat Sorb Hydrocarbon Absorbent	962201	5535130	\$78.31

## SpillTech UNIVERSAL 55 GALLON SPILL KIT

- Universal kit includes a variety of sorbents to handle spills of oils, coolants, solvents or water.
- Pre-packed in an X-rated DOT approved 55 gallon open head drum with lever lock.
- Self-contained kit stores sorbent products for easy access as needed for spill control; saves time when quick response is necessary.
- Lever lock poly ring ensures sealed and secure closure to protect sorbents from moisture, dirt and damage.
- Rust and corrosion-free 100% polyethylene is durable to withstand rough handling.

**Includes:**

- (100) 15" x 19" Gray heavy weight universal defender™ pads.
- (10) 3" x 4' Gray universal sorbent socks.
- (5) 18" x 18" Gray universal sorbent pillows.
- (2) Pairs of goggles.
- (2) Pairs of nitrile gloves.
- (4) 30" x 6" x 60" Yellow temporary disposal bags & ties.
- (1) Emergency guidebook.
- (6) Tamper proof seals.
- (1) Vinyl spill kit label.
- (1) Yellow 55-gallon drum with plastic lever lock lid.

### SPILL RESPONSE 101

Scan the adjacent code and learn more about spill risk assessment, response, containment & clean-up.

## SpillTech UNIVERSAL TRUCKER SPILL KIT

Includes a variety of sorbents to handle smaller spills of oils, coolants, solvents or water that truckers encounter on a regular basis; pre-packed in a handy bag.

- Small, self-contained compact kit easily fits behind the seat of a truck and stores sorbent products for easy access as needed for spill control.
- Saves time when quick response is necessary.

**Includes:**

- (3) 3" x 4' Gray universal sorbent socks.
- (1) Pair of goggles.
- (1) Pair of nitrile gloves.
- (2) 18" x 30" Yellow temporary disposal bags & ties.
- (1) Vinyl spill kit label.
- (1) 7" x 15" x 18" Clear vinyl zippered bag.

Call us to discuss your spill kit material & size requirements.

## PORTABLE OIL ONLY SPILL KIT

SPC® Portable Spill Kits from Brady® combine absorbents, accessories, PPE and instructions in a space-saving container so you are prepared when a spill occurs.

- White absorbents pick up petroleum-based fluids, paints and non-water soluble chemicals while repelling water – great for indoor & outdoor use.
- Yellow PVC Bag offers high visibility spill control storage so items can be quickly located in an emergency situation.
- Improve worker productivity and efficiency by placing spill kits around your facility close to areas prone to spills.
- Portable spill kits are ideal for fast spill response.

**Includes:**

- (1) Disposal bag.
- (1) Instruction sheet.
- (1) Pair of nitrile gloves.
- (10) 15" x 19" Oil only pads.
- (2) 3" x 4' Oil only socks.

Call us to discuss your spill kit material & size requirements.

**BRADY ELECTRICAL LOCKOUT TAGOUT KIT WITH NYLON SAFETY LOCKOUT PADLOCKS IN TOOLBOX**

50% Savings Versus Purchased Separately

- OSHA compliance driver: designed and assembled exclusively to help you comply with OSHA 29 CFR § 1910.147 Control of Hazardous Energy
- Built to last: all kit components meet Brady's highest standards for quality, durability and reliability
- Extremely portable: toolbox keeps padlocks and devices at the ready and goes where you go
- All components specially designed for electrical lockout scenarios, including non-conductive nylon-body padlocks.
- Contains two each of customer-favorite circuit breaker lockouts covering 120/277V and 480/600V in single and multi-pole configurations.
- Each lock and key are unique, allowing authorized users to have their own individual locks and comply with OSHA's "one person, one lock, one key" guidance.
- Great for contractors: stores easily in vehicles to travel between jobsites

INCLUDES	MFR #	A&M #	SALE PRICE
(1) 3-in-1 Plug Lockout (PLO23), (1) Clamp-on Circuit Breaker Lockout 480/600V (65397), (1) Lockout Toolbox (105906), (1) Wall Switch Lockout (65392), (10) Lockout Tags (65520), (10) Zip Ties, (2) 1" Lockout Hasps (133161), (2) Clamp-on Circuit Breaker Lockout 120/277V (65396), (2) Universal Multipole Breaker Lockout (66321), (3) Nylon Safety Lockout Padlocks (SDPL-RED-38ST-KD)	153670	5645669	\$101.99

**BRADY CLAMP-ON CIRCUIT BREAKER LOCKOUT**

With Slide Cover

Mfr #176495

- Fits a wide range of single-pole and internal-trip multi-pole breakers.
- Detachable cleat expands the range of applicable breakers.
- Made from fiberglass-reinforced nylon for durability in demanding environments.
- Tamper-resistant features help prevent unauthorized removal.
- Convenient size for easy transport and storage.
- Accepts padlock with shackle diameter up to .28".

## BRADY PORTABLE METAL GROUP LOCK BOX

50% Savings Vs. Purchased Separately

- Made of heavy-duty steel and powder coated for extra rust-resistance, this portable box includes a lockable clasp and a slot to allow keys to be inserted when box is locked.
- Accommodates up to 13 padlocks on the lid and can also be used as a lock storage box for up to 40 padlocks.
- Use one lock on each energy control point and place the keys in the lockout box; each worker then places his/her own lock on the box to prevent access.
- Each employee retains exclusive control, as required by OSHA, by placing his/her own lock on the lockout box containing the keys to the job locks.
- As long as any one worker's lock remains on the lockout box, the keys to the job's locks contained inside cannot be accessed.
- Dimensions: 6"H x 8.9"W x 3.5"D

## BRADY S3700 MULTICOLOR SAFETY SIGN AND LABEL PRINTER

With XY Cutter & Software

Professional grade. Premium experience. Print color visuals, cut shapes and let users walk up and print with the BradyPrinter S3700 Multicolor & Cut Sign and Label Printer.

- Put color at the core of your labeling for visuals that truly pop, including safety labels, Lean visuals, lockout tags and work-in-process labels.
- Create shapes, arrows, letters and more with the built-in XY plotter cutter that slices straight lines, smoother curves and tighter connection points.
- Empower any user to print how they choose with time-saving on-board templates, intuitive PC labeling software and a mobile app.
- Simply tap, print, go with preprogrammed on-board label templates plus 600 barcodes and symbols.
- Get your print jobs done right in less time with 20-second ribbon and material changeovers plus up to 5" per-second print speed.
- Stack pipe markers, pack multiple shapes per label and printing right on the first label to minimize waste.
- For 1-, 2- or 4-color panel ribbons for multicolor made easy – no calibrating, no threading, no waste.
- Print ribbon lasts up to 60% longer by operating independently of label roll to waste less, print more.

**QUICKSLEEVE HANDHELD SLEEVE APPLICATOR**

Apply Sleeves Onto Wires In 3 Simple Steps – Just Pick, Slip &amp; Apply

- Includes: (4) specially designed slanted tubes sized for sleeve sizes 0.094", 0.125", 0.187" and 0.250"
- Built-in LED flashlight for use in low-lit conditions.
- Terminal block sized screwdriver.

**PERMASLEEVE® HEAT-SHRINK LABELS**

Compatible With M511 Printers • B-342

- Permanently mark wires with the durable PermaSleeve® PS heat-shrink polyolefin sleeve label material (B-342).
- Choose industrial grade, heat-shrinkable sleeve labels for long lasting wire and cable identification.
- Built to Naval Air Systems Command (NAVAIR) and industry-specific standards, RoHS compliant and UL recognized.
- Temperature range: -67°F to 275°F (-55°C to 130°C)

## PERMASLEEVE® HEAT-SHRINK LABELS

Compatible With M610 &amp; M611 Printers • B-342

- Polyolefin heat-shrinkable sleeves with a 3:1 shrink ratio.
- Feature fade-resistant and flame-retardant properties.
- Service temperature: -67°F to 275°F (-55°C to 135°C)
- Meets SAE AMS-DTL-23053/5C (class 1) SAE AS-81531 specifications (Tested per ASTM E162 ASTM E662 MIL-STD-202)

**BRADY ALL-WEATHER VINYL LABELS**

Compatible With M710 Printers • B-595

- Labels per roll: 1 roll (continuous)
- Roll length (B): 50' (15.2m)
- Permanent adhesive, very pliable, good for rough surfaces & outdoor use.
- 8-10 years average outdoor durability.\*
- Temperature range: -40°F to 180°F (-40°C to 82°C)

\* Average expected outdoor life of product depends on user definition of failure, climatic conditions, mounting techniques and material color. The 8 to 10 year outdoor durability applies to the vinyl label stock only; ribbon durability will vary.

**ALL WEATHER PERMANENT ADHESIVE VINYL LABELS**

Compatible With S3100, S3700, i3300 &amp; i5300 Printers • B-595

- Labels per roll: 1 roll (continuous)
- Roll length: 100' (30.48m)
- Permanent acrylic adhesive keeps labels adhered in harsh climates and is resistant to chemicals, oils and detergents.
- Adheres to surfaces that are smooth, powder coated, irregular, curved, rough and highly textured surfaces.
- Adheres to difficult low-surface energy items (PVC piping, ABS plastics, etc.)

## Create a Safer, More Compliant Workplace.

### Increase Safety. Improve Workflows. Reduce Downtime.

A&M Industrial is a full-line Brady® distributor. Contact the A&M Industrial Safety Team for help identifying the signs you need to meet compliance and further your facility's safety initiatives. We have the expertise to help identify, recommend, and fulfill your sign needs.

Available sign categories include:

Electrical & Arc Flash Signs

Fire Safety Signs

Hazard Signs

Machine Operation Signs

Security Signs

Exit Signs

Bi-Lingual Signs

Office Signs

Rest Room Signs

Ask us about mountable  
**Brady LED Sign Projectors**  
 that allow you to add signage  
 virtually anywhere in your facility!

First Aid Signs

ANSI Signs

Safety Scoreboard Signs

## Customizing Your Signs Is Easy as 1, 2, 3...

Need custom wording or design? The A&M Industrial Team can help you to:

- 1) Select a Category: Traffic & Parking - Pipe Markers - Safety Signs - Valve Tags
- 2) Customize: Size, Material & Color - Pictogram - Custom Wording
- 3) Submit Your Custom Order: Your Custom Signs, Delivered Right To Your Door

Call us or scan the adjacent QR code to request custom sign order assistance or a FREE SIGN ASSESSMENT

# Confidence in a Click

## 3M™ Secure Click™ Half Facepiece Reusable Respirator HF-800 Series

Designed with intuitive features, the 3M Secure Click Half Facepiece Reusable Respirator HF-800 Series helps protect workers from particulates and/or a wide variety of gases and vapors when used with approved 3M™ Secure Click™ filters and cartridges.

### Speaking Diaphragm

Designed to help provide easy communication while working.

### Silicone Flex-Joint Face Seal

Provides a softer feel for more comfort on the wearer's face.

### Unique Secure Click Connection

Helps provide wearers confidence that the cartridges and filters are installed properly.

### Easy-Adjust Buckle

Simple two-way adjustability: pull straps to tighten, squeeze wings to loosen.

### Push Button Seal Check

Easy way to conduct required seal check prior to each use.

### Exhalation Valve

Helps direct exhaled breath and moisture downward.

### Easy Breathing

Dual-flow cartridge design allows for air to be pulled through both sides of the cartridge for easy breathing.

 **3M™ Secure Click™ filters and cartridges available, please call.**
