UK Football Exposure Available

How to apply:

01 **Send us your Football CV & Highlights**
Download our Football CV Template, showcase your experience, and send us your CV!

02 **Await your Evaluation..**
Usually within 24-48 hours, our evaluations team will provide an assessment via email to determine your eligibility for our programmes.

03 **Have your Consultation**
If you pass our initial Football CV assessment, you will be invited for a selection interview via WhatsApp. This stage is designed to evaluate your professional character and mindset, ensuring you possess the mental resilience required to progress through our elite development pathways.

Good Luck!

Career Progression

Building Your Football Future Step by Step

At EFT, we are committed to your long-term success. Our Career Progression pathway provides professional platforms to increase your visibility and pursue your ambitions at every level.

How Our Career Progression Works:

Once you are consistently performing at your current level, we actively begin working to facilitate Training-Trial Placements with clubs in the league above. This is a structured, repeatable consultancy process. As you progress, we continue to provide exposure to higher-level environments, supporting your journey toward the level your talent deserves.

We focus on steady, sustainable growth—maximising your exposure while ensuring you develop physically, technically, and mentally at each stage.

Included as Standard in All Packages:

Unlike some service providers, career progression support is integrated into all EFT consultancy packages and memberships. Whether you are just starting out or already established, our commitment to your professional development and exposure remains the same.

Membership Options

Supporting You Every Step of the Way

At EFT, we understand that every player's journey is unique. That's why we offer flexible consultancy packages designed to suit different levels of ambition, commitment, and career goals. Whether you're looking for focused exposure or long-term support, we have a pathway that works for you.

➤ STANDARD MEMBERSHIP

Our Standard Membership is perfect for players who want direct access to high-level exposure and the chance to take the next step in their development. With this package, players will usually receive up to three Training-Trial Placements facilitated with Professional and/or Semi-Professional Football Clubs. These placements are carefully selected based on your current playing level, ability, and readiness to ensure you have a professional platform to impress. This membership is ideal for players who are looking to facilitate their next visibility window or progress to a higher level of football in the short to medium term.

➤ LIFETIME MEMBERSHIP

For players who are serious about long-term development, our Lifetime Membership is the ultimate package. Unlike the Standard Membership, the Lifetime option offers ongoing consultancy support throughout your playing career. As part of this exclusive membership, you will receive up to three new Training-Trial Placements every single season, refreshed and reset every pre-season. This means that as you grow, develop, and evolve as a player, we will continue to facilitate fresh exposure for you year after year. Whether you're just starting out or playing at a higher level, the Lifetime Membership is designed to support continuous consultancy-led progression, giving you the flexibility to keep moving forward at every stage.

Membership Options

Which Membership Is Right for You?

Both our Standard and Lifetime Memberships provide professional exposure and consultancy support, included as standard across all packages. The key difference lies in how far you want to take your career with us. The Standard Membership facilitates up to three trial opportunities — a great starting point for immediate exposure.

The Lifetime Membership offers long-term, season-by-season support, providing multiple opportunities to progress every year, regardless of where you are in your playing career. It is an investment in your future, offering consistency, flexibility, and a professional pathway toward the highest possible level.

Whichever option you choose, you'll have the full backing of our experienced team, dedicated to supporting you as you pursue your footballing goals.

Success Stories

We are proud of our long-standing track record, having facilitated hundreds of Training-Trial Placements and professional or semi-professional trial opportunities for players across the UK and abroad. Our consultancy is built on a foundation of professional footballing expertise, ensuring that our evaluations and standards consistently meet the high expectations of the modern game.

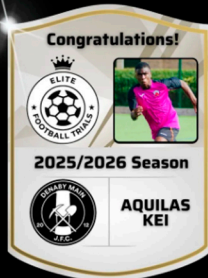

While providing a professional platform is our starting point, our focus is on the long-term progression of our players. We provide a specialised environment designed to maximise your exposure, supporting your placement in professional or semi-professional settings where you can showcase your talent and pursue advanced pathways. We take great pride in seeing our players move forward into professional environments off the back of the opportunities facilitated by EFT.

Why Choose Elite Football Trials?

Elite Network

We facilitate exposure to our extensive network of Professional and Semi-Professional clubs. Our long-standing relationships ensure your talent is evaluated by decision-makers who trust our consultancy standards and our ability to identify players ready for the next level.

Structured Opportunity Pathways

Your consultancy fee covers the professional work we perform to facilitate Training-Trial Placements as per your selected membership. We manage the logistics and communication to ensure you have a professional platform to showcase your abilities, acting as a bridge between your current level and your future potential.

Professional Evaluation Standards

Our evaluations are trusted by clubs because they align with modern scouting expectations. We use our industry expertise to facilitate player attendance in environments where their specific profile meets a club's current requirements, ensuring that every placement is a strategic fit for both the player and the club.

Our Packages

We offer specialised consultancy packages for players targeting Professional and Semi-Professional UK clubs. For players aiming for the Premier League and English Football League (EFL), we offer Bespoke Consultancy starting from £4,000+.

STEP 1 Training-Trial Placements

£3,000.00

STEP 3 Training-Trial Placements

£2,000.00

STEP 5 Training-Trial Placements

£1,500.00

STEP 2 Training-Trial Placements

£2,500.00

STEP 4 Training-Trial Placements

£1,750.00

LIFETIME MEMBERSHIP

£7,000.00

Terms of Facilitation: Standard packages facilitate up to three (3) training-trial placements. Lifetime Membership facilitates up to three (3) training-trial placements per season. All placements are determined by technical evaluation, current player profile, and independent club recruitment requirements.

Elite Football Trials (EFT) is a professional sports consultancy and trial facilitation service. We are not a licensed football agency and do not provide legal representation. Training-trial opportunities are facilitated based on player performance, their football CV and club interest. Prices shown are total mandatory costs. Success is subject to individual merit.
