

Medical Billing Cheat Sheet for Kansas Pharmacists – Kansas Medicaid

Emergency Opioid Antagonist (EOA) Counseling

- These codes are meant to be used with the Kansas Board of Pharmacy statewide protocol for EOA dispensing – please follow the protocol and statute as written, including providing patient/family member all required counseling
- Documentation should include a valid NDC of an EOA the person was counseled on
- The goal of the service is to get the EOA dispensed, but you are allowed to bill for the counseling if you provide counseling and the patient refuses the fill
- Limited to two EOA interventions per year

CPT/ HCPCS	KMAP Reimbursement	Code description
99605	\$40.00	MTM services provided by a pharmacist, with assessment and intervention, initial 15 minutes, new patient (no pharmacy services, including dispensing, provided for this patient in last 3 years)
99606	\$30.00	MTM services provided by a pharmacist, with assessment and intervention, initial 15 minutes, established patient (have dispensed medications or provided services to patient within last 3 years)

Reference: KMAP General Bulletin 23196, KMAP Search by Procedure

Relevant Diagnosis Codes

Code	Description
Z71.89	Other specified counseling
Z79.891	Long term (current) use of opiate analgesic
Z71.51	Drug abuse counseling and surveillance of drug abuser
Z71.52	Counseling for family member of drug abuser
Z81.4	Family history of other substance abuse and dependence
Z86.5	Personal history of mental and behavioral disorders
Z87.898	Personal history of other specified conditions

Note: If you are billing this service to an insurance other than Kansas Medicaid, different HCPCS codes should be used (likely SBIRT)
